All that would be necessary to let the deluge of water loose in the mines would be to pull a plug which was placed in the mines after the explosion of seven years ago, and the water would rush in the mines at a rapid rate.

Daly, one of the men known to be in the burning mine, went in for the first time this morning and it is not known who he is or where he is from. PORT ROYAL, Pa., June 11.-At 3 o'clock this morning heavy volumes of smoke are still issuing from the mine and hope of saving any of the entombed men, miners or rescuers, is fast disappearing.

The fan is now working, but until the fames are extinguished or news comes from one of the rescuing parties no further particulars are obtainable.

The Port Royal mines are situated on the Pittsburg Coal company. District Superintendent McCune, who is reported killed at miners in western Pennsylvania. The Port Royal mines are located in the thick coal belt and are for that reason extremely gaseous and dangerous. The state mining officials have made their management the obfect of repeated caution.

Seven years ago the mines caught fire from a similar explosion. The mine boss was killed, but the others in the pit escaped.
