Corn Diearish with Wheat and from Other Influences-Onts Fairly Active at Times-Provisions React on Profit Taking.

CHICAGO, June 11.—Marked weakness characterized the wheat market today, July coosing the lower, July cown closes 1,22 to lower, July onts the down and provisions benchanged to Myc depressed.

Supernetally, the ngures in the government grop report presented a condition to piesse the bulls, but a comparison scened to convince both bulls and bears that there would be more wheat in the country than would sell around for and consequently the tap of the gong found a host anxious to sell. July opened 424c lower at 124at 129c and with the downward course, assisted by general rains in the northwest and southwest the price declined, with occasional fractional railies to 71ac. The close was weak and be lower at 71ac. Bradstreet's reported the world's visible decreased 3,500,000 bushels. Thirty-two loads were reported taken for export and semboard clearances, in which the flour receipts were 612,000 bushels. Rgainst 465,000 a year ago. Monard clearances in which the flour receipts were 612,000 bushels, against 465,000 a year ago. Local receipts were 112 cars, 9 of contract grade.

Improved corn weather and the weakness of wheat, together with liberal receipts and a poor shipping demand, was the bearish combination in the corn pit. July, under dull trading, sold, between 425c and 43bc and closed 4,05c lower at 425c. The only demand was from the pit shorts, and this was so light as to have no apparent effect. METALS—Following the decline of Bessemer pig iron at Pittsburg a few days ago local values today broke considerably. The demand of late has been rather poor and concessions had to be made in order to induce buyers to once more purchase the stock. The close was easy at \$9.50710.25 for pig iron warrants; northern foundry, \$14.756715.25, and soft southern, \$12.756715.25, in England, however, values were without change, Glingow warrants closing at 58s 6d and Middleshorough at 48s 10½d Another in teresting feature in local metal circles was the strength manifested in tin. Prices advanced sharply, recovering the loss scored yesterday, and had a little to apare on buying orders from all quarters. Holders were rejuctant to sell, with a result of some sales at \$25.75 and before the close the

COMMERCIAL AND FINANCIAL bid naure was raised to \$28.86, with sellers at \$10.00. The net gain for the day was 6 points. In London prices advanced 158 spot. closing at \$100 has and futures at \$125, with only a light trade reported. The rest of the list were without change as to price or feature. Copper ruled nominally stendy, while in London the market closed with prices a shade higher, spot standing at \$460 28 60 and futures at \$60 18 30 Lead held quite strady, but unchanged London closed at \$12 60 30. Speiter was dull and nominally at \$3.8593.00. In London values were 28 6d higher, at \$10.10s.

MOVEMENTS IN STOCKS AND BONDS.

Volume Dealings Small and Shows Market is Ruled by Professionals. NEW YORK, June 11.—The desultory movement of prices in today's stock market demonstrated the professional character into which it has again relapsed. The volume of dealings fell back near to the level which was reached previous to last volume of dealings fell back near to the level which was reached previous to last week's spurt of speculative activity. The opening made a good show of strength under the combined influence of favorable interpretation of the government crop report, published after the close yesterday, and the rumors which came thick from London that peace was imminent in South Africa. The crop report had the greater effect on account of the short selining which has been done by the bears during the last week in expectation of a showing or great deterioration in the crops. The rains which have tailen since the first of the month, which is the date of the government's computation, were taken as an offsetting factor to the unfavorable features of the report. The short covering which developed yesterday afternoon was, therefore, continued with energy this morning.

A sharp raid carried Texas & Pacific down the higher point, and Missouri Pacific itself fell under last night. The whole market suffered from realizing until the aggressive movement in Missouri Pacific checked the decline. This stock touched 122% on expectations of a coming dividend. The pressure on Texas & Pacific was attributed to a change in the ratio of its proposed exchange with Missouri Pacific stock, which has been supposed hitherto to be two shares for one of Missouri Pacific. The sale of 100 shares of Northwestern preferred was made at 13 points lower than the preceding sale.

The demand for bonds was well distrib-

ceding sale.

The demand for bonds was well distrib-The demand for bonds was well distributed and prices advanced. Total sales, par value, \$3,95,000. United States were all exchanged on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market was brisker and happier today on the good war news and the increasing prospects of peace. Consols were especially stimulated, rallying to \$3½ on top of yesterday's late improvement. American stocks were strong on the unfavorable crop reports and were steadily bought here. Prices advanced on New York buying, Atchison, Southern Pacific and Union Pacific being particularly strong at the close. Money was steady and exchange on Paris was 25,22 and on Berlin 20.44.

Cotton Market.

NEW YORK, June II.—COTTON—A scare of near month shorts and investment buying of August exerted a leading influence in today's cotton market. At noon the weekly government crop report was issued, and it proved to be bullish. On this news there was a fresh rush to cover and baying of Wall street became a feature. The market thereafter displayed a firm undertone, with the near months absorbing the bulk of attention. July jumped to 8.22c, August to 7.63c and October to 7.19c in a half hour on a burst of general buying. Shorts were constantly menaced by August buying orders from the west. Trading was active and general in the last hour. It was feared that Liverpool would advance tomorrow on the government report. Closed steady, with prices net 7 to 19 points higher. Spot closed quiet, 1-16c higher; middling aplands, 8.6-16c; middling guif, 8.9-16c; sales, 570 bales.

Coffee Market

NEW YORK, June 11—COFFEE—Spot Rio, dull; No 1, invoice, 6c, Mild, quet; Cordova, \$14015c; Lower prices resulted from general selling today. The market opened steady, with prices 5010 points lower under selling for both accounts, led by room bears and foreign interests and prompted by declines abroad. Heavy receipts in the crop country and sluggish demand for spot coffee in the street market combined to underline bull convictions and to stimulate selling for short account, Profit-taking later brought about a slight upturn, but at best the market was narrow, with a heavy undertone. The close

Lambs aid not show much of any change, as a bunch of Colorado lambs sold as high as 50.06. There were no choice clipped lambs on sale to test the market. Sheep, however, were slow and fully a dime lower and in some cases more. A bunch of commonish wethers sold at \$3.50, and a bunch of pretty good stuff sold at \$3.50, and a bunch of pretty good stuff sold at \$3.50, a bunch of ewes brought \$4.10. The market was slow from start to hnish, but still practically everything was disposed of in fairly good season.

CONDITION OF IOWA'S CROP

Plenty of Rain and Temperature Favorable to Growing Grain.

United States Department of Agriculture, Iowa Section, Climate and Crop Service, Weather Bureau, for Week Ending June 10, Des Moines, Ia. The week brought a favorable change in the condition of all crops, though the temperature averaged from 1 to 3 degrees below normal. Showers on the 4th, 5th and 6th were fairly well distributed and in some localities quite heavy. Again on the 9th and early morning of the 10th copious showers afforded ample moisture for present needs in nearly all sections of HOGS—There was a good liberal run of hogs here today, but as other markets were in good shape trading started out here 50 75c higher than yesterday. The first of the hogs sold mostly at \$5.95 and \$5.95\frac{1}{2}\$, with some of the choice loads at \$5.95\frac{1}{2}\$, and as high as \$6.90 was paid. At those prices the market was fairly active and the bulk was sold m good season. By the time low loads had changed hands buyers seemed to have their more urgent orders filled and for a time not much was done.

As the morning advanced the market grew worse instead of better and the close was very slow and weak and in fact a structive.

Reports received from crop correspondents of this service make the following estimates of crop conditions: Winter wheat, 97 per cent; spring wheat, 93; corn, 90; rye, barley, 93; flax, 89; meadows, 90; pastures, 93; potatoes, 95. According to figures tabulated by Secretary Grene of the Horticultural society fruit conditions are as follows: Apples, 52 per cent; American plums, 72; domestic plums, 53; Japanese piums, 63; cherries, 82; currants, 77; peaches, 85; grapes, 84; red raspburies, 60; black raspberries, 77; blackberries, 84; strawberries, 76.

The condition of farm animals is generally rated from 95 to 100 per cent. The spring pig crop is 85 per cent and foals 96. The reports indicate that farmers are now holding about 15 per cent of the corn crop of 1900

NEBRASKA CROP BULLETIN

Wheat Recovers Largely - Corn Healthy but Needs Warm Weather to Grow.

The United States Department of Agriculture, Nebraska section, climate and crop service of the weather bureau;

UNIVERSITY OF NEBRASKA, LIN-COLN, June 11 .- Cool week, with general showers. The daily mean temperature has averaged about 3 degrees below the normal in the eastern counties and 1 degree below in the western. Heavy and killing frosts occurred on the morning of the 6th in the northwestern countles.

Showers have occurred in all parts of the state during the week, but the amount of rainfall has varied widely. In most parts of the eastern portion of the state it has been normal or above, varying from one to more than three inches, but has fallen below one inch. In the western counties the rainfall has been lighter, being generally below half an inch.

The rains of the past week were very beneficial to small grain and grass. Winter wheat has improved decidedly, but cannot fully regain the condition previous to the dry weather. Oats continue to promise less than a normal crop. Spring wheat generally is growing well. Corn has grown slowly because of the low temperature, but cultivation has progressed well. Generally corn is a fair to good stand, and very clear of weeds. Alfalfa is being cut generally and the crop is a very good one.
