Crop Prospects and Disappointing Cable Cause Weakness in Wheat.

OPENS QUARTER TO HALF CENT DOWN

Corn Trade Dull and Neglected-Good Buying of Onts by Foodstoffs Concerns-Provisions Rule Quiet.

CHICAGO, June 14.-The wheat market gave an exhibition of weakness today under conflicting advices and July closed is lower July corn closed te higher, July changed to 21/276c lower.

Disappointing cables and continuation of the continuation

Disappointing cables and continuation of excellent crop conditions and prespects caused July wheat to open 140% to 36% down, but with light offerings and a disposition of shorts to buy there was an advance at once to 71c. For a time the market was held steady by advices that continental crops had been seriously damaged and that prospects for further export business were good, while the decrease in Argentina shipments also did something from the built side. These stories were followed, however, by authentic news that continental crops will average well and that Argentina will have a big crop to harvest. This started moderate selling, in which the commission houses led, and the decline was uninterrupted to the close, which was weak and 5g lower at 70% 70% C. Argentina shipments were \$1.00 bu, against 1,032,00 bu, last week and 1.82,00 a year ago. Fiftytwo loads were reported taken for export, and seabcard clearances of wheat and four two loads were reported taken for export, and seabcard clearances of wheat and dour were equal to 301,000 bu Minneapolis and Duluth reported 257 cars, against 341 last week and 448 a year ago, Local receipts were 167 cars, four of contract grade.

Weakness of wheat near the close robbed corn of strength. Trade was dull. July sold between 41% and 42% closing 1/2 higher at 42% closing 1/2 higher at 42% classe. Local receipts were 204 cars, 16 of contract grade. Oats were quiet and fairly steady. There was good early buying by foodstuff concerns and by the bull leader in corn, giving the crowd the impression that a big short interest may develop. July sold between 20% cand 27%, and closed steady and loc lower at 27c. Local receipts were 156 cars.

For lower at 21c. Local receipts were 156 Cars.

Provisions were quiet, with little business doing and prices varying slightly from those prevailing at the close yesterday. The opening was lower on decreased prices for hogs and the demand was inconsiderable. July pork sold between \$4.72½ and \$14.75, closing 2½c down at the former figure, July lard ranged from \$8.55 to \$8.55 and closed unleading of \$8.25½53.55, July ribs were quoted from \$8.02½50.55 to \$8.0555.07½ and closed 2½555 down at the low price of the day. Estimated receipts for tomorrow: Wheat, 145 cars; corn. 220 cars; oats, 145 cars; hoge 20,000 head. The leading futures ranged as follows:

DRY GOODS AND SHOE TRADE INCREASES

Absence of Inflation to Iron Market Precludes Possibility of Collapse -Wheat Drops on Withdrawal of Speculation.

NEW YORK, June 14.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: Confirmation by the agricultural bu-reau of recent private estimates of the wheat crop has given to business a tone of great reilance. Distribution of merchandise reau of recent private estimates of the wheat crop has given to business a tone of great reliance. Distribution of merchandise is increasing in dry goods and boots and shoes. The labor situation is gradually mending, with the appreciation of the fact that in some directions manufacturers would be glad of a temporary shut-down of works. Pig fron production June 1 was at the rate of 314,596 tons weekly, according to statistics compiled by the iron Age. This is about the anticipated increase for May and establishes a new high water mark, exceeding the previous record by 14,396 tons. An interesting feature of the situation is the decrease of furnaces in blast to 252, which is forty-four less than were actively employed in February, 1996, when the weekly output was 238,914 tons. Although new orders for pig iron have been light in recent weeks, actual deliveries on old contracts must have reached a heavy total, for furnace stocks June 1 were but 907,723 tons, a decrease of 3,550 tons during May. Prices are easier, Bessemer pig showing a loss of 19 a ton compared with the quotation in February last, when the production was near present figures. This absence of inflation in prices is the best symptom in the market and precludes the possibility of a collapse like last year. In finished products there is great activity owing to the large amount of goods to be delivered July 1. There is noted especial urgency for immediate shipment by consumers of plates, bars and structural shapes, the activity in building operations showing no diminution. Seasonable weather has somewhat aroused the dry goods market. There is not yet such activity that dealers are overwhelmed, but the various divisions of manufactures are fairly supplied. Low quotations recently established had a helpful effect, but the temperature was more potent for good. Shipments of footwear from Boston have averaged over 100,000 cases weekly for some time past, and shops are all engaged. Foreign contracts are beginning to receive attention. BRADSTREET'S REVIEW OF TRADE. Farther Improvement in Volume and Tone of Business. NEW YORK, June 14.-Bradstreet's to-

morrow will say:

wire and wire goods are in heavy demand and deliveries are behind hand. Machinery manufacturers are cautious as to contracting ahead, in view of the strike uncertainties.

Shoe shipments from eastern markets have sone past the 100,000-case mark, despite the fact that factories are about through with their work on summer orders. Hides are strong and the margin between the week aggregate 4,791,107 bushels, against 6,644,641 last week, 4438,939 in the corresponding week of 1600, 2,799,400 in 1899 and 4,395,787 in 1898. From July 1 to date wheat exports are 305,823,383 bushels, against 191,324,956 last season and 219,446,738 in 1898-92.

Corn exports for the week aggregate 2,562,254 bushels, against 2,465,102 last week, 3,834,205 in this week a year ago, 3,285,301 in 1808 or 1809, 1809

MOVEMENTS IN STOCKS AND BONDS. Union Pacific and St. Paul Chief Features in Day's Market.

NEW YORK, June 14.—An overwhelming proportion of the day's dealings was in into Pacific and St. Paul and the strength Union Pacific and St. Paul and the strength in the day's market was largely confined to the same stocks. It was not until Union Pacific relapsed in the last hour of the trading that the selling made any notable impression on prices. Several of the professional elements in the market seemed to join in the speculative movement in St. Paul and Union Pacific.

Authentic official statements regarding the many rumons prevalent of closer rela-

Paul and Union Pacific.

Authentic official statements regarding the many rumors prevaient of closer relations between these properties were conspicuously lacking, but they found credence as the tape, according to the method of corroboration accepted by speculators, gave proof of the rumors. The specific assertion that Union Pacific had acquired 250,000 shares of St. Paul from long standing insiders was stoutly denied by St. Paul interests, while Union Pacific interests refused a confirmation. Whatever may have been the origin of the report or the nature of the buying of the two stocks, it is clear they were made use of to clear large speculative buying in other parts of the list. The extreme rise in St. Paul reached 6½ and in Union Pacific 52. Colorado Fuel made another sensational advance of 11 points, with a relapse of 33, points. Rumors continue that this and other companies are to be taken by the United Steel corporation. United States 3s, registered. declined 1½ per cent on the last call. The bond market was irregular in sympathy with stocks. Total sales, par value, 35,240,000.

BOSTON, June 14.—WOOL—The Commerwith stocks. Total sales, par value, 18,240,000.

The Commercial Advertiser's London financial cablegram says: The stock market was comparatively. Idle today, but there was steady investment buying. American stocks were a trifle quiet and cheerful, with Union Pacific leading. The coal stocks were also in demand, London being inclined to suspect that some deal is in prospect in this group. New York selling caused a partial relapse, Union Pacific leading in the downward movement, as it had in the upturn, but the univertone continued to be sound.

The following are the closing prices on the New York Stock exchange:

Was not what might be called active, but at the same time packers bought up what was offered in reasonably good season. As in the clothing and cloth trade has been chosed out this week at prices unobtainable a week ago. Fine territory wools are quick, short wool selling on a basis of buying freely in the west. Large sales of Missouri and Indiana quarter-blood combings at 192194; chave been made, nearly exhibit the total prices of the wool trade:

NEW YORK, June 14.—COFFEE—Spot.

New York Stock exchange:

Coffee Market.

NEW YORK, June 14.—COFFEE—Spot, Rio, quiet; No. 7 involce, Sc. Mild, quiet; Cordova, 83/4012/5c. Values were lower today and selling of long stuff was a feature. The opening was steady, unchanged to 5 points lower, and for the rest of the session there was little or no rally. Heavy receipts in the crop country and disappointing cables from European markets, combined with absence of outside support, depressed the market. Europe sold sparingly in our market. The close was barely steady, net unchanged to 5 points lower. Total sales were 25.750 bags, including: July, 5.65c; August, 5.19c; September, 5.20c; October, 5.25c; November, 5.20c; December, 5.4005, 45c; January, 5.50c; March, 5.55c; April, 5.60c; May, 5.65c.

New York Dry Goods Market.

NEW YORK, June 14.—DRY GOODS—
The tone of the market is distinctly better.
There have been good sales of bleached cottons at warrant prices. Brown goods are advancing in export grades, and a large business has been done in goods of print cloths at firmer prices. Prints are selling well. Linens are firm but quiet. Burlaps scarce and strong.

MANCHESTER, June 14.—CLOTHS—Market quiet, with a fair inquiry; yarns barely steady.
