Mr. Loomis did not foresee ground for any reneweal of the Venezuelan trouble. On the contrary, he looked forward to an era of the most friendly relations between the two countries under Herbert W. Former Attorney General Says Standard Oil Company is Among Worst.

WASHINGTON, June 18 .- The Industrial ommission has received and will print as a part of its permanent report a number of affidavits making reply to the testi mony given before the commission in 1899 by D. Archibold of the Standard Oil company. These affidavits are by Hon. S. F. Monnett, formerly attorney general of Ohio; James W. Lee, of the Pure Oil company; M. L. Lockwood and Charles B.

Matthews of Buffalo, N. Y. Mr. Matthews' testimony relates to the operations of the Vacuum Oil company, which he seeks to demonstrate is a branch of the Standard Oil company. Mr. Lee says that it is not true that he ever admitted that the Pure Oil company is itself a trust or that he attempted to sell any of his Independent Oil company interests to the Standard Oil company. Mr. Lockwood submits affidavits to substantiate his statemeat before the commission to the effect that the Standard company was at one time putting oil in tanks to be shipped to Germany for 2 cents a gallon, while people in Texas and Arkansas, where there is no compedition, were paying 25 cents a gallon. Mr. Archibold said there was not a word of truth in this statement.

Mr. Monnett's statement is a general reply to Mr. Archibold's testimony, so far as it applies to the operations of the Standard company in Ohio. KANSAS CITY, June 18 .- The first definite step toward the organization of a new third party, which is proposed to embrace Missouri and to form the nucleus for a national growth, was taken today in Kaneas City at a conference of members of the populist state committee and a few free silver republicans. The movement is said to have the expressed sympathy, if not the avowed support, of William J. Bryan, who, it is further hinted, is to be the new party's

candidate for president in 1904. Lee Meriwether of St. Louis and twentytwo other leaders in the public ownership party of St. Louis arrived in Kansas City this morning, after having spent the whole of yesterday in consultation with Mr. Bryan at Lincoln. Mr. Meriwether and his followers went to Lincoln from St. Louis Sunday. Their purpose was to confer with Mr. Bryan and to learn his views in regard to the third party movement. Mr. Meriwether is guarded in his statements concerning Mr. Bryan, but says that if Mr. Bryan does not support the present movement he is at any rate in sympathy with its purpose, for it is to advocate the same principles which Mr. Bryan has espoused. J. H. Cook, chairman of the state central committee of the fusion wing of the populist party, said that if the democratic party

events into the leadership of the new party. The conference was secret. It will be continued tomorrow and will end with a public meeting, when the result of the gathering will be embodied in an address to the people of Missouri.

The meeting was first suggested by Mr. Cook in a circular letter asking a conference with the free silver republicans and the public ownership party leaders. In response to this Lee Meriwether issued a call for the meeting today to the men of his party and J. W. Foster of St. Joseph issued a similar call to the free silver republicans. The conference was to include idle-of-the-road populists and all deme crats and republicans who might sympathize with the reform movement.

# HOMEOPATHS QUOTE DIETRICH

Propose to Have All States Emulate Nebraska's Example in Divid-

ing Control. RICHFIELD SPRINGS, N. Y., June 18,-The formal opening of the American Institute of Homeopathy was attended here today by about 500 members. More than 100 new members were received. The report of the interstate committee stated that Senator Dietrich, while governor of Nebraska, put three institutions of that state under homeopathic control, and urged concerted action toward securing equal recognition of the schools of homeopathy with the old regular school of medicine in

all states. There is a good deal of feeling over the failure of the United States army to make provision in the army for homeopaths. The physicians in attendance declare that a certain percentage of enlisted men are homeopathists and are entitled to be treated by the government accordingly, though this would necessitate two army surgeons at a post. Surgeon General Sternberg, U. S. A., is said to be in sympathy with such a movement, Dr. Nicholas Senn of Chicago, who was in the volunteer service, is de-

homeopathists in the army. Dr. William B. Crane of Richfield delivered the address of welcome tonight. Dr. A. N. Norton of New York, president of be admitted on equal terms with allopathy in the service of the army and navy.

"The grounds upon which the claims shall

be based," he said, "are that the army and navy are supported by public taxation and that patrons of homeopathy pay a large proportion of this tax." The doctor contended that equal representation upon all boards of medical examiners and a proportionate representation in all state hospitals, asylums, etc., should be demanded and legislatures should be made to understand that no medical legis-
