BRADSTREET'S REVIEW OF TRADE.

More Rumors Are Rife Regarding the St. Paul Deal.

NEW YORK, June 21.-The tone of the

morrow will say:

COMMERCIAL AND FINANCIAL

Market Generally Rules Dull and Closes Lower All Around.

WHEAT FALLS UNDER ENORMOUS CROPS

Corn Selling Mostly by Local Longs-Oats Have Occasional Spurts of Activity-Provisions Weak in Sympathy.

CHICAGO. June 21.—Under pressure of enormous crops the wheat market showed extreme weakness today, the September deliveries closing 13-2 lower. September corn closed &c down. September oats 15-22 lower and provisions from 527-15c to loc down.

Lower cables, coupled with estimates of

Lower cables, coupled with estimates in an abundant harvest, combined to create a weak opening in the wheat pit. During the early part of the session the feature was the heavy seiling by locals. Commission houses were moderate buyers. Liquidation of July continued and was a powerful influence in bringing about the depression in fluence in bringing about the depression in September, which increased as the day advanced. September opened \$40 ke lower at 674,668c. Under continued liquidation prices dropped to 674c, around which figure there was considerable profit taking. The low point of the day was 56%c, at which the market closed weak. Bradstreet's reported exports of wheat and flour equal to 5.521.000 bushels, against 4,731,000 last week. Argentine shipments were 880,000 bushels, compared with \$24.000 last week and 1,536.000 a year ago. Nine boatloads were taken for tine shipments were 880,000 bushels, compared with \$24,000 last week and 1,536,000 a year ago. Nine boatloads were taken for export. Seaboard clearances of wheat and flour were equal to 731,178 bushels. Primary receipts were 446,941 bushels, against 506,822 bushels a year ago. Minneapolis and Duluth reported 147 cars, against 237 last week and 425 a year ago. Local receipts were 46 cars, 1 of contract grade.

Corn was dull. Selling by longs, mostly for local account, was the principal feature. Most of this corn was taken by commission houses. During the latter part of the session the market was very much affected by weakness in wheat and the lowest prices were near the close. September ranged between 434,67434c and 444c, closing 4c lower at the former figure. Bradstreet's reported 2,425,000 bushels taken for export this week, compared with 2,569,000 bushels a week ago. Seaboard clearances were 241,493 bushels. Primary receipts were 224,988 bushels, against 640,915 a year ago. Local receipts were 160 cars, 2 of contract grade. Oats were weak and dull, but with occasional spurts of activity. The weakness was largely due to sympathy with other grains and to continued liquidation. Buyling was scattered. Commission houses did most of the selling. September ranged between 254c and 2564c, closing 4,678c lower at former prices. Local receipts were 136 cars.

Provisions were weak in sympathy with

Provisions were weak in sympathy with weakness in the grain markets. There was also an apparent desire of outside longs to take profits. Trading was light. September gork ranged between \$1.80 and \$15. closing fice lower at \$18.85. Lard sold between \$8.62½ and \$8.77½, closing 10@12½c lower at \$8.65. Lard ranged between \$8.10 and \$8.17½ @8.20, closing at decline of 5@7½c, at \$8.10@8.210. 8.12%. Estimated receipts tomorrow: Wheat, 45 cars; corn, 200 cars; oats, 150 cars; hogs, 17,000 head.

the result of depressing information from abroad, where values declined 15s, closing easy at £125 15s for spot and at £125 for futures. Later in the day, however, buying orders became liberal, with a resultant rise of about 25 points, closing the local market quite firm and bringing the net loss to a matter of only 15 points. Spot closed at \$25,309.28.00 and still tending upward. A good business transpired during the day. Spelter experienced a decline of 2½ points under lack of support and in sympathy with a lower ruling of values in London. The close here was easy at \$3.32½ \$3.55½ and in London & £17 5s. Domestic iron markets were quiet and unchanged. Glasgow warrants closed at 53s 3d and Middiesborough at the \$45d. LESS LABOR TROUBLES AT SHOPS

Shoe Production is Slightly Reduced -More Exports to China Give Encouraging Aspect to the Dry Goods Trade.

NEW YORK, June 21.-R. G. Dun & Co.'s Crop Situation, as a Whole is Good-Weekly Review of Trade tomorrow will say: Increasing distribution of merchandise, and tells of widespread are carrying more of ndence. The railroads are carrying more of goods that may be classed as fuxuries in than ever before, and in spite of Wall is street's slightly higher money market there is is no fear on this score in any line of legitimate trade. Crop news continues good, there is less trouble from disagreements with labor and the long laggard cotton goods market has recovered slightly with the reduction of unsold stocks of print cloths.

The July interest and dividend payments will be the largest on record, and it is thought that some pressure may be expected and that any expansion of speculation would not be advisable. This seems to have been the chief limitation on the activity of the market.

A feature was the modification of the views held a week ago about the probability of a big deal in connection with the St. Paul road. It now seems that the community of interest principle will be applied in the case of the St. Paul and other western roads, but there will be no exchange of securities at high figures and assumption of control by the Union Pacific.

Cotton Market.

NEW YORK, June 21.—The tone of the money market was easier today. A new version of the St. Paul deal today had it that the block of 250,000 shares of St. Paul stock recently reported sold to Union Pacific interests was in fact to be exchanged for an amount of Union Pacific stock estimated at an equal value, thus furthering the establishment of community of interest. Union Pacific was carried 3 points over last night and St. Paul at one time 2, although the latter stock reacted. Reports that a working agreement had been arranged between Pennsylvania and the Wabash the NEW YORK, June 21.—COTTON—The opening was steady, with prices unchanged to 5 points higher. The market was finally night and St. Paul at one time 2, although the latter stock reacted. Reports that a working agreement, had been arranged between Pennsylvania and the Wabash caused the Wabash securities to jump, the common stock rising 14, the preferred 35 and the debrature B bonds 44. Missour Pacific also rose 2½ later in the day. Canadian Pacific rose 3½, followed by some of its subsidiary lines, apparently on the hope of a strike settlement. The strength of New York Central seemed to be associated with the dividend meetings of the Vanderbilt companies. The local traction stocks were strong, led by Manhattan, and Sugar showed a good gain, bit without explanation. Colorado Fuel selling ex-dividend showed a gain at one time of 4½, but saved only 2 points of the gain. General Electric, after rising 2 points, broke at 8. The market closed quiet and steady. Amalgamated Copper fully recovered its decline which had extended to 1½.

The speculative railroad bonds were generally active and strong. Total sales, par value, 4,185,000. United States bonds were all unchanged on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market was supremely idle and trading drifted throughout the session, with prices still sagging. American stocks were idle with the frest until the last ten minutes of trading, when buying orders from New York in Wabash, Union Pacific and Canadians stocks caused a pronounced jump in these shares. The better feeling was commanicated to the rest of the list, with the result that a fractional rise took place all around. The close was distinctly cheerful.

NEW YORK, June 21.—COFFEE—Spot Rio, easy; No. 7 invoice, 6c. Mild, quiet; Cordova, 8½af12½c. There was a reaction today from the advance of yesterday. The market opened steady, with prices 3 points lower, in sympathy with weakness in European markets. Shortly after the call liquidation set in and created a weak feeling among room traders. Later declines on Havre and absence of outside support caused prices to settle an additional 5 points, from which there was little change to the close. Receipts in the crop country were light and demand in the street market was inclined to drag and there was a report that clique support was not to be depended upon. The close was quiet, 10 points lower. Total sales, 16,500 bags, including July at 5.10c; September, 5.25c; October, 5.3645.35c; November, 5.40c; December, 5.3645.35c; March, 6.65c, May, 5.75c.

CATTLE—There was another light run of cattle here today, but as it was the last end of the week buyers did not take hold with very much life and as a result trading was a little slow.

Good beef steers sold in just about the same notenes they did yesterday, although the market was slow and sellers in some cases found it a little difficult to get steady prices. The less desirable grades were neglected and in some cases they sold probably a nickel lower than they did yesterday. The whole situation could perhaps best be described by calling it slow but about steady on the good kinds and weak on the commoner grades.

Commoner grades.
There were only a few cows and helfer

There were only a few cows and heifers on sale today and the market was generally steady. Heiters, nowever, were neglected and the tenoency was for packers to buy them lower. Buyers feel that they have been paying pretty good prices for heifers in comparison with other cattle and as a result they are trying to pound them down a little.

Bulls, calves and stags all sold in just about the same notches they did last week, although traue was a little slow.

There were only a few teeders in the yards today and no particular change from yesterday was noticeable. Good cattle have at any price. The demand from the country is not particularly heavy, but as the supply has been very light all the week prices have held right around steady on anything at all good. Representative sales:

HOGS—There was about an average run of hogs here today and the market opened about 2½c higher than the close yesterday or about like yesterday morning. The bulk of the first sales went at \$5.90 and \$5.92½ with some of the choicer bunches at \$3.56 to \$6.00. It was not a particularly active market, but still the hogs kept moving toward the scales. It was practically a \$5.90 and \$5.92½ market, as there was comparatively little either above or below those figures.

Along toward the last end the market weakened a little, as Chicago was reported closing with the advance partly lost. The last hogs were sold largely at \$5.90. Everything was sold in fairly good season. opresentative sales: No.
