Parasols

When you buy a parasol you expect to get the latest style—not a last season's make. We did not carry over one from last summer, consequently the ones you see here have all the style and beauty designed after the latest French patterns.

For the street, there is none more stylish or appropriate than the coaching parasol. We are showing a beautiful line of these—in plain and fancy silks—also beautiful combination effects. Black and white are popular. We have received some new ones in these colors. These are all moderate priced.

24 and 26-inch colored umbrellas, we have a large line for your selection. Good quality silks and pretty natural wood handles. It will be our pleasure to have you see this line.

SPECIAL SILK SALE— Saturday morning—regular, 75c. \$1.00 and \$1.25 silk at 30c. See window.

WE CLOSED SATURDAY AT 4 P. M.

116 N. O. A. BUILDING, COR. 10TH AND DOUGLASS STS.

stated that the country demand a continuance of confidence in the government in order to have continued prosperity. He appealed to the Ohio republicans to do away with all factional differences and stand by the president and a republican congress.

Senator Hanna's reference to the party's tariff policy was in the following words: "If I had time to discuss the economic questions at issue I would simply say we stand by our record upon the tariff question. We stand by that principle which has built up this magnificent country and our great industries, and we will not permit an abridgment of it that will interfere with the labor of the man for one day."

"We are in favor of reciprocity to expand our trade in foreign countries, but underlying that must be a condition that makes it purely a reciprocity, not for the sake of encouraging any nation in closer commercial relations with a profit on one side."

General Charles S. Grosvenor presented the report of the committee on resolutions and the following platform was adopted:

Platform as Adopted. The republicans of Ohio, through their representatives in state convention assembled reaffirm the principles of the party as set forth in the platform adopted at Philadelphia and with supreme satisfaction in its ability to meet every public problem, pledge their loyal and undivided support to the republicanism of the United States throughout this campaign.

The republican party, by its magnificent achievements, has advanced the American nation, and under its administration it has become a world power of the first class. Industries have received capital and labor are employed, plenty has succeeded want and the cry of the hungry and unemployed is no longer heard, but from every quarter comes the demand for more credit above that of any other nation.

his name for renomination and he was renominated by acclamation. A committee escorted Governor Nash to the hall and he gave a rousing ovation. In accepting the nomination Governor Nash stated that as Senators Forsaker and Hanna had ably discussed the national issues, he would consider state affairs only. He reviewed the record of the last ten years, and especially that of the last two years, and held that the showing was such that even their democratic opponent could not fault with it.

When nominations for lieutenant governor were called for State Senator Carl N. Nippert of Hamilton county was nominated without opposition by acclamation. For the nomination of the supreme court there were presented the names of J. L. Price, William B. Crew and Thaddeus A. Minshall, the incumbent. The first ballot resulted: Price, 409; Crew, 317; Minshall, 254; Necessary to nominate, 445. The second ballot resulted as follows: Price, 642; Crew, 273; Minshall, 167. The nomination of Price was then made unanimous.

John M. Sheets, for attorney general, was nominated for a second term without opposition. For the nomination for clerk of the supreme court were presented the names of Newton M. Miller, Alva B. Hall, A. C. Critchfield and Lawson E. Emerson. The first ballot resulted as follows: Miller, 222 1/2; Hall, 33; Critchfield, 171 1/3; Emerson, 181 1/3. The nomination of Emerson was made unanimous.

Isaac B. Cameron, for state treasurer, and W. G. Johnson, for member of the State Board of Public Works, were renominated without opposition. Resolutions were adopted extending sympathy to Secretary Hay in his bereavement. At 1:10 p. m. the convention adjourned.

WORK DAY AND NIGHT

(Continued from First Page.)

been leveled. All operations have had heavy losses and weeks will have passed before they can start on their feet. Heavy damage was done at the Lynchburg operation, mostly to the tracks. Up North Fork branch, ruined houses can be seen, besides a lot of building material, which was lodged against North Fork bridge.

Some Other Losers. The water has changed its course at the bridge by removing the embankment at the same approach. The North Fork operations all sustained considerable damages. Algonia loss houses and tracks and no reliable estimate can yet be made. Elk Ridge lost a number of houses, coke ovens and trestles. The power house and the tracks were washed out. The trestle is also damaged. Loss, \$20,000. Green Tricer lost a number of houses and their bridges were damaged.

At Rolfe the trestle and tracks were damaged. At the Hancock operation the damage to houses, trestles and tracks will amount to \$7,500. At Arlington, bridges are gone above and below the trestle and the loss is estimated at \$10,000. At McDowell the tracks were washed out and houses destroyed. Gilliam's loss is in small houses. Indian Ridge lost a number of houses and the storehouse was damaged. Dr. Workman's house and office were washed away. Loss \$12,000. Ashland's loss is between \$100,000 and \$150,000. Bottom Creek's loss is \$25,000. Tidewater lost heavily.

At Keystone the streets are washed irregularly and debris is everywhere. The floors of buildings standing are covered with mud, as was the case in the other side of the creek; all houses were entirely swept away, including the most of Belcher town. Property is undermined and badly damaged at Burke. The whole fill, on which the two tracks pass through Keystone, is entirely washed away. The bridge and the tracks on the company side are gone and Banks' building, known as the "First Chance saloon," is demolished.

Many persons had narrow escapes and while many men, women and children succeeded in escaping through water waist deep, others were carried away. Mr. Abbott succeeded in rescuing a man named Lockwood on Main street by fastening himself to a post by means of a rope and making a dive in the swift water just as Lockwood was about to be swept away. Many similar rescue were made.

Eight bodies have been found between Burke and Eckman. There is no doubt that many persons lost their lives from being intoxicated. One white man got on a section of the railroad, and was taken with his arms folded, remarking that he was going down below to find out how everything was. His body was recovered. The loss at Peppers is estimated at \$30,000 and at Shawnee \$35,000.

The North Fork operation, while being able to repair their damage sooner, will not ship any coal for thirty days, as the railroad tracks will have to be repaired before anything is done.

Below are given the names of some of the dead so far recovered: Mrs. White, white; Nellie Smith, white; Anna Smith, white; Charles Sheely, white; Mrs. McCoy, colored; Sam Pondexter, colored; John Ballard, colored; Bettie Brown, colored; Trigg, colored; Jacob Riffin, colored; John Hamister, colored; mother and babe, unknown.

The colored man, Trigg, floated down a stream on the roof of his shanty. When near the railroad he jumped and struck his head against the rail, dashing out his brains.

The loss of life, it is now conservatively estimated, will not exceed fifty.

SOME MEASURES OF RELIEF

Norfolk Road Hurries Hundreds of Workmen and Carloads of Equipment to Bluefield.

BLUEFIELD, W. Va., June 25.—Another twenty-four hours has passed and the full extent of the vast damage done by the flood cannot yet be accurately stated. The Norfolk & Western Railroad company continues to make every effort to hasten the opening of communication between devastated places and the outside. Laborers are coming in a continual stream and clearing away the debris gone on night and day, a thoroughly equipped electric light plant installed on three cars having been provided for night work. Working trains completely manned continue to arrive. They have been sent in by connecting lines to aid in clearing the right of way.

A carload of covered wire like that used by the army has been received and is being laid on the ground to complete the telegraph lines. It is a day and a half will be completed inside of forty-eight hours.

General Bogg, private secretary to Governor White, and General Hedgeson are here looking into the necessities of a relief movement. It seems to be the opinion that there will be no necessity for calling on the state guard, as the railroad and coal companies have sufficient systems of policing the devastated district. A great many of the coal mines will have their damages repaired and be ready for shipment some time before the railroad is sufficient to repair to handle the output. The people of the storm-swept section appear terrified and their excitement, so intense that they are really helpless as far as work is concerned. In this section each flash of lightning and a peal of thunder is enough to cause a panic.

BOB COOK PRAISES PENN

Export American Sportsman Thinks Crew May Beat British

YANKEES' CHANGE BEST THEY EVER HAD Climate in the Only Element of Doubt—Ward Stops Ornaments' Tendency to Clip Their Stroke.

(Copyright, 1901, by Press Publishing Co.) HENLEY-ON-THAMES, June 25.—(New York World Telegram—Special Telegram.)—A member of the Pennsylvania crew said today: "Bob Cook, who is going to row for us, is a first-class rower. He hatched our practice in the morning and says we are rowing in excellent form and going very fast. He has not seen enough of the other crews to make a prediction of the outcome of the contest, but believes we have a better chance than any American crew that has ever rowed here. He thinks we can win if we don't let the climate too hard on us."

"We were out twice today and took things pretty easy. In the morning we practiced starts, Ward following us over the course in the launch. He coached us thoroughly for defects in form and paid particular attention to the catch and finish. He said that we showed a tendency yesterday to clip the stroke slightly at both ends. In the afternoon he thought our form showed considerable improvement and said that we were doing well to make quite a difference in our speed. The afternoon practice consisted of a few short sprints, but in the main we did nothing but go over the course at a steady pace."

COLUMBIA SHOWS NEW SPEED

Proves Faster Than When Pitted Against Shamrock I Last Year.

NEW YORK, June 25.—It is safe to say that not since the yacht Vigilant and Alisa were built have they focused so much of the peevish oolop Columbia. It was on the 22d of June that the North York Yacht Club, offered by the New York Yacht Club, and in a strong and steady breeze from the southwest, permitted the carrying of club topails from start to finish.

No better evidence is needed to show that under Edward J. Morgan's management the Columbia is fully up to its old form, and many who watched it today agree that it is its greatest performance in two years ago, when it met Shamrock I.

With such a thirty-mile course Columbia defeated it by 19:50, and Alisa by 2:28, in the first round. The race was stopped at the end of the first round of the course.

Western Association. At Toledo—First game: Toledo, 3; Wheeling, 1. Second game: Toledo, 8; Wheeling, 0. At Fort Wayne—Fort Wayne, 2; Marion, 0. At Dayton—Dayton-Indianapolis game postponed; rain.

Under World's Record. SALT LAKE CITY, June 25.—In an special ten-mile motor-paced race on the Salt Lake course, held at the Salt Lake Yacht and Turville brothers of Philadelphia, the world's record was broken. The fair was won by Vaughan and Chapman in 17:15.

Trainer Kicked and Killed. LEKINGTON, Ky., June 25.—G. C. Ritchie, trainer of trotters and pacers, while attending to the head of a horse, was kicked on the head by the horse and fatally injured.

FAIR SITE IS FAIR INDEED

Forest Park Wins Committee with Its Natural Advantages.

ST. LOUIS, June 25.—At its monthly meeting today the board of directors of the World's Purchase Exposition company unanimously adopted the report of the executive committee, which had selected the Forest park site as its choice for the location of the World's fair, to be held in this city in 1903. A resolution was then passed endorsing the executive committee's report and authorizing the board to ratify the national commission for ratification.

President Carter and other members of the national commission have stated all the effect be made to the national commission. "We have attempted to calculate the cost of the ground and its preparation, not having been guided, however, by a purpose to select necessarily the site which would cost the least, as that which cost the least might not be the best. After taking everything into consideration and holding almost daily meetings for four weeks the executive committee has decided to recommend Forest park as the location for the fair. The committee has not yet taken any definite action as to the effect required for the fair. It recommends that the portion of Forest park which has been set apart by ordinance be selected as the site of the fair and that official report to the effect be made to the national commission."

The site selected consists of 668 acres in the western, or unimproved, portion of Forest park, which contains between 1,300 and 1,400 acres and is the second largest city park in the country. In addition, 400 acres adjoining on the south and west are available. This makes a total of 1,118 acres, or one-third more space than was used by the Columbian exposition in Chicago. More than one-third of the entire site is level ground, the highest point of which is 165 feet above the city level, and two-thirds of the grounds will average sixty-eight feet above the city. It is in the neighborhood of magnificent residences and the grounds of the Washington university. One river and ten creeks flow through the site and there are numerous artificial lakes on it. The park is said to have the most adequate transportation facilities of any in the world and there are guarantees that the present service of steam and electric railroads will handle 300,000 persons a day and that ready work on the Forest park is within easy walking distance of more than 150,000 residents. It is four miles from Union station and five and one-half miles west from the Eads bridge.

President Francis announced the appointment of a four-member executive committee and additional members of the foreign relations committee. The new committee and chairman follow: Committee on supplies, Norris B. George; on sanitation, C. P. Walbridge; on police, Harrison J. Drummond; on ceremonies, C. H. Spencer; on legislation, Daniel M. Hooser; on agriculture, Paul Brown; on mines and mining, W. J. Kissella; on state and territorial exhibits, C. H. Cutler; on manufactures and machinery, George Warren Brown; on fish and fisheries, Seth W. Cobb; on ethnology and anthropology, F. W. Lehmann; on education, John Schroers; on historical, Pierre Chouteau; additional members of the foreign relations committee, J. C. Van Blarcom, Dan C. Nye.

The committee on grounds and buildings held a meeting this afternoon and immediately got down to work.

BOND BETWEEN OLD FAMILIES

Morsman-Buck Wedding is Solemnized at Presbyterian Church with Elaborate Ceremony.

A large gathering of Omaha's representative families filled the First Presbyterian church last evening to witness the marriage of Mr. Edgar Morsman, Jr., and Miss Mary Buck. The union was solemnized at 7:30 o'clock. The prominence of the families of both the young people together with the fact that it was the only large evening wedding that has taken place in the exclusive circle this year added double interest to the occasion, which has been anticipated for weeks as the event which should close the season's fashionable formalities.

A mass of palms and ferns banded the rostrum and these with the bunches of American Beauty roses bound with white satin ribbons to the end of the seats constituted the simple but effective decoration of the church. In the interval, while the guests were assembling, Mr. Butler played several selections. Promptly at 7:30 the white satin ribbons were stretched and to the measure of the "Lohengrin" bridal chorus, the bride party entered, advancing to the altar. The bridesmaids, Misses Georgia Lindsey, Laura Moore and Florence Kilpatrick, followed, all gowned in trailing opera ballote gowns and carrying shower bunches of pink and white sweet peas and white baby ribbons, which scattered almost to the carpet.

Then came the maid of honor, Miss Prudence Shirwin of Cleveland, O., in a handsome gown of lime chiffon and carrying a shower of pink and white sweet peas and white ribbon and following her were the bride and her father. Miss Buck's gown was a splendid creation of white satin, with an overdress of white chiffon and lace. Her long embroidered veil hung to the foot of the skirt. She carried a shower of swansons.

At the altar, the groom, with his best man, Joseph Morsman of Chicago, met the party and before a long white satin cushion, E. E. Jenks performed the ceremony, using the full ring marriage service. The service concluded, the organ pealed forth the Mendelssohn wedding march and the party left the church. The immediate relatives and bridal party proceeded to the home of the bride's parents, Mr. and Mrs. Truman Buck, 323 North Twenty-second street, where an informal reception followed.

Mr. and Mrs. Morsman left last evening for a trip of some or three weeks and upon their return will make their home in Omaha.

RELATIVES TO THE RESCUE

Twelve-Year-Old Dollie Andrews Goes to Her Grandparents.

W. H. Shaffer of Kansas City, Kan., grandfather of 12-year-old Dollie Andrews, who has been in custody of the police matron under charge of incorrigibility, arrived in Omaha Tuesday and is making preparations for taking his granddaughter back with him. Superintendent Clark of the Child Saving institute and Justice Shoemaker have taken an active interest in the little girl since the death of her mother, Mrs. Thomas Chase, who died in the Presbyterian hospital June 17.

Others who have given her attention are Fred Pennington, Mrs. Rilla Clements and Mrs. Sadie Pence. The three last named paid the funeral expenses of the dead woman, who was a performer in the Park theater, with money raised by taking up subscriptions among her friends. The woman's husband deserted her in Omaha two months ago.

Fattest Girl in the World. BARABO, Wis., June 25.—Miss Carrie Brown, aged 22 years, died in Caladonia yesterday of heart trouble. She was considered the fattest girl in the world. She weighed 600 pounds, was 5 feet 7 inches in height and her bust measured seventy-two inches.

CHARITY AND KANSAS CROP

Alderman Goodman of New York Promotes Happy Relationship

WOULD SEND 5,000 PLOUGH TO HELP HARVEST

Algerman Goodman of New York Promotes Happy Relationship. Supply Farmers with Help from the City's Overabundance.

NEW YORK, June 25.—Alderman Goodman of this city wants to send at least 5,000 of the unemployed men and women to the fields of Kansas to help harvest the crop. This matter was discussed by the board of aldermen today. It was decided to hold conferences with the officials of the department of charities to see if the plan could not be carried out at once.

BELLSTEDT CONCERT PROGRAM

Soloists Will Each Play a Number and Then Indulge in a Contest Tonight.

The soloists of the Bellstedt band will each play a number at the concert this evening and all of their many friends will enjoy a show of pink and white sweet peas and white ribbon and following her were the bride and her father. Miss Buck's gown was a splendid creation of white satin, with an overdress of white chiffon and lace. Her long embroidered veil hung to the foot of the skirt. She carried a shower of swansons.

The demand for reserved seats for the last classical concert tomorrow evening, "The Quiliter" will close with "A Comical Content" in which all the members of the band will participate. It is exceedingly funny and was composed by Dan Godfrey, the famous English bandmaster.

The moving pictures, twenty-four in number, all but one or two of which are entirely new in Omaha, are exciting great public interest, as shown by the biograph. The machines in the finest one in this country and the pictures are splendidly presented by the very experienced operator in charge, Mr. S. R. Taylor of New York.

Frontsman Gold Discovery. HOT SPRINGS, S. D., June 25.—(Special.)—A gold strike of considerable promise was made in Pennington county this week. The ledge is over three feet wide and has been traced 200 feet and at intervals has been exposed in several places. It is well defined with walls. The quartz is of a blue greenish color and comes in very large amounts, which will pay handsomely when a mill is erected on the grounds. The new find revives the story of the famous St. Louis prospect in that vicinity, which yielded thousands of dollars in free gold deposits and it is believed this new ledge is an extension of the St. Louis.

Croker's Horse Wins Handicap. LONDON, June 25.—Richard Croker's black filly, Sweet Dixie (J. Reiff), won the Gatwick selling handicap of 100 sovereigns today at the Gatwick summer meeting. Archduke II (L. Reiff) won the Purley plate.

The Duty of Mothers.

What suffering frequently results from a mother's ignorance, or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment, and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham's Laboratory at Lynn, Mass., and secure from a woman the most efficient advice without charge.

Mrs. August Pfalzgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote in January, 1899, saying her daughter had suffered for two years with irregular menstruation—had headache all the time, and pain in her side, feet swollen, and was generally miserable. She received an answer promptly with advice, and under date of March, 1899, the mother writes again that Lydia E. Pinkham's Vegetable Compound cured her daughter of all pains and irregularity.

Nothing in the world equals Lydia E. Pinkham's great medicine for regulating woman's peculiar monthly troubles.
