CLOTHES FOR MEN MAN WOMEN The Monterey (Mexico) News in a recent Handsomely trimmed read-to-wear hats The Monterey (Mexico) News in a recent insue has this to say on the subject: A short time ago the mayor of South Omaha came to Monterey and sent the porter of the hotel out to get him some buil fighters. He explained that South Omaha was to have an international cele-bration of some kind, and a buil fight was to be one of the attractions. They were to have a buil fight every day, and keep two or three buils in reserve so that if one got tired a fresh toro could be brought in. Of course the Society for the Prevention of Crueity to Animals would not permit the buil to be tortured, but as there is in the United States no society for the prevention of Crueity to Animals would be duite possible to have a pantomime buil fight in which the skill of the Spanish torero would be shown, along with his gorgeous costume, without danger to the buil. However, there would be an element of danger to the buil fighter which could be depended upon to attract the crowd. The hotel porter brought in some real Spanish toreros and the mayor of South Omaha was well pleased with their ap-pearance, but when they told him their price he fainted. When he revived he told them that even congressmen did not get such salaries in the United States. The espada explained to him that his costume had to be made in Spain and would e st a plie of money, but the mayor insisted that he knew a tallor in South Omaha who could build as good costumes as any torero ever wore for \$27. So the trade was issue has this to say on the subject: have a personal acquaintance with Davitt and shirtwaist hats, reduced from \$1.50 to THE Easy payments if desired. and will spare no pains in his reception. 25c each, in the basement. A., the charitable and social church work. Her home life was a model of devoted, gracious womanhood. Surviving her are her husband. Richard Maher, three sons and two daughters.

ASPHALT PAVEMENT.

The Idea that is is Not Adapted to Heavy Traffic Not Held Now.

New York Sun, June 2, 1901. Broadway is now paved with asphalt from Fourteenth street to its northern extremity. The belief so generally held a few years ago that nothing but granite. blocks could stand the wear and tear of heavy trucking in New York has almost entirely disappeared and at the present rate of change it will not be many years before practically every public highway in It Did the Business the city will be paved with asphalt.

The paving of Fifth avenue in General Collis' term as commissioner of public works seems to have turned the scales in favor of asphalt in thoroughtares where traffic is heaviest. The test was most sewere, inasmuch as the smoothness of the new pavement rendered Fifth avenue more popular than ever with the drivers of all kinds of vehicles, from the victoria to the four-horse truck, with its many-ton load. The result is that traffic has increased to such an extent that the roadway is choked from morning to night. Still the pavement bears up well under the strain and there is no indication of any desire to go back to the rough and noisy blocks of stone.

Attention, Red Men!

You are requested to be present at Red Men's hall, Labor temple, Sunday, June 30, at 1 o'clock sharp, to attend funeral of the late Brother L. B. Smith. All members inwited. Degree of Pocahontas also invited SAM ALBIN, Sachem. HARRY N. YAPP, Chief of Records.
