Fair Trade in Leather Goods.

Fair Trade in Leather Goods. Boot and shoe jobbers also have a word to say regarding trade conditions. Retail-ers are doing a nice business and are sending in quite liberal sizing-up orders. A few weeks ago retailers were rather and are no longer doing much complaining. Their stocks are going to pieces at a rapid they hope to be sold out in good shape. Traveling men have been meeting with good success of late in landing fall orders. A the good outlook for crops has given near to make them place their orders. Col-lections are in good shape and very few fallures among retailers are being reported. Fruits and Produce.

Fruits and Produce. There has been an active demand the past week for fruits and vegetables. The hot weather apparently has created a good appetite for fruits. The supply on this its market has been large, but none too bis to meet the demand. Strawberries are new about out of the market, but blackberries and raspberries are still on sale. The quo-tations will be found in another column. California fruit is also in good supply and prices about the same as they were a week ago. Watermelons and cantaloupes arrived nut receipts are rather small. The demand for lemons was very heavy, as would natu-rally be expected as a result of the hot weather. Prices on a number of lines of vecesion. cash, 27c, RYE-51c CLOVERSEED-Cash, prime, \$6.50; Octo

Prices on a number of lines of vegetables went down at a rapid rate last week as a result of the increased receipts. There was not much change, though, in the variety of lines offered. Butter and eggs are selling in just about the same notches they were a week aco, the supply and demand keeping about even. Foultry is also the same with the exception of spring chickens, which are a trifle lower.

Louisville Turf Congress.

LOUISVILLE, Ky., June 29.-The pro-posed turf congress and fail race meet at Louisville will begin, according to present plans. October 5 and continue for eighteen days. The meeting will run a month or longer if the attendance justifies an exten-sion of time. The meeting will be held at the Louisville trotting track. NEW YORK, June 29 .- The imports dry goods and merchandise at the port

CATTLE—There were not enough cattle to a sale today to make a market. For the week the supply has been fairly liberal, a good gain having been made over the previ-ous week, but the supply is short of the corresponding week of last year. The table of receipts above will show the comparative receipts for the month of June as well as for the last several weeks. The tendency of prices has been down-ward all the week and particularly is that true of the commoner grades. The choicest bunches of corn fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or on fed steers are probably not over 5c or better. The cattle selling now for 5.550 or better. The cattle selling now for the sirable the cattle the greater has been the decline. The range of prices between the strable the cattle the greater has been the from and the choice cattle is now the greatest that has been experienced in a long Time. The market on cows and heifers has also

Buy FRYER HILL OF LEADVILLE AS Se a share; Company controls 17 claims in the heart of the District; property being

decline. The range of prices between the common and the choice cattle is now the greatest that has been experienced in a long time. The market on cows and heifers has also been going down at a rapid rate. The same as in the case of beef steers the decline is greatest on the commoner grades and also on the grassers. As compared with the high time the choicest heavyweight cattle are probably not over 1547% lower, but the less desirable grades are from 40c to 60c lower. The market for the last two weeks or more has been very uneven and for that reason it is difficult to make comparisons between present prices and those in force a week ago. Light heifers have perhaps slumped the most of all and next to them comes the ordinary run of grass cows. The tendency of prices on bulls, calves and stags has been downward the past week in sympathy with the decline on steers and cow stuff. The supply of stockers and feeders has been very light all the week and the best kinds have held right around steady. Any-thing but the choicest stuff, however, is slow sale and lower. HOGS-There was a good Saturday's run of hogs here today, but still the supply for the week is considerably short of the pre-ceding week. There was a good demand on the part of local packers, and as a result been very light all the supply for the week is considerably short of the pre-ceding week. There was a good demand on the part of local packers, and as a result be market opened a good 2% chigher than yesterday. The long string sold at \$5.90, with the bulk from \$5.874, to \$5.924. Home of the choicer loads soid at \$5.95 and as high as \$6 was paid. It was a fairly active market and practically everything was sold in good senson. The hog market the last week has been in fairly good shape. The market was the highest the first of the woek a shade higher than the close of last week and about 20c higher than the first of the month. As compared with a year ago values are about 80c higher, and as compared with two years ago there is an advance of \$2.25. Repre-sen
