> Governor Allen personally read a message before the assembly, in which he exhaustively reviewed the financial situation of the island and showed that Porto Rico possessed abundant revenues for its needs without drawing upon customs receipts. Mr. Hollander's report on the island's resources from which revenue could be derived was considered sufficiently definite to warrant the joint resolution in favor of free trade. The resolution was introduced in the house by Senor Morales. Mr. Hollander, in a long speech, reviewed the workings of the new tax law and explained the new system of taxation. He said: "Present conditions make this joint resoluion possible and the insular assembly can henceforth dispense with the revenue accruing from Porto Rican customs."

> Several other lengthy speeches were made. The resolution passed at 12:45 and was signed by Governor Allen. Today's action of the assembly is considered to be the most important taken by it since the inauguration of Governor Allen.
