"There appears to be no escape from the conclusior that one or more persons employed in the mint has been faithless to the trust reposed in him or them. Thirty thousand dollars in gold was not taken at a grab. It was not taken at a grab. It was not taken at a grab. It was not taken by an outsider, but by someone who was able to enter the vault. Only one man was supposed to have the combination to the lock and that was the cashier, but possibly others did have it. I see no possibility of error in what is descripted against Coates. Error from Saline. Reversed with directions. Ocidham, C. Department No. 2.

1. The grantee in a sheriff's deed executed on a confirmation of sale in a proceeding to foreclose a tax lien may maintaining by foreble entry and detainer being a cumulative and not an exclusive remedy for such relief.

2. The office of a description in a sheriff's deed in a proceeding to the lands described therein; the proceeding by foreble entry and detainer being a cumulative and not an exclusive remedy for such relief.

3. Extrinxice evidence is admissable to locate lands conveyed by a sheriff's deen containing an accurate but general description. Plaintiff in an action of ejectment must rely for a recovery on the strength of his own title and not on the want of title in his adversary.

4. Where the plaintiff's claim of title is founded on a sheriff's deed made on an order of sale, in a proceeding to foreclose a tax lien may have the lands described therein; the proceeding to foreclose a tax lien and exclusive remedy for such relief.

2. The office of a description in a sheriff's deed to locate lands conveyed by a sheriff' the cashier, but possibly others did have it. I see no possibility of error in what was charged to the cashier, for his own books agree with the other departments, but there is a possibility of an overpayment to a depositor. It is improbable, however, that so large an overpayment could be made."

The Spanish war had brought Americans together and that alone had paid for all the blood and money expended.

WASHINGTON, July 4.—A telegram has been received at the mint bureau from Director Roberts, who is in San Francisco, confirming the report of the disappearance of government funds from the mint in that city is \$30,000 short, but gives no particulars of his investigation and ventures no surmise as to the cause of the shortage. As Mr. Roberts is on the ground, the mint officials here decline to speculate as to what course may be pursued for the protection of the government.
