

Kodol

Digests what you Eat

Dyspepsia Cure

The process of digestion is simply explained. In the mouth, food is masticated and mixed with saliva containing a digestant called ptyalin. In the stomach, it is acted upon by gastric juice containing pepsin, which digests albuminous foods. In the intestines, pancreatin is added to digest fats and starches. Indigestion always indicates an insufficient amount of one or all of these digestants. At first thought it seems proper to abstain from foods not easily digested; but reflection shows us that while this affords relief by giving the weakened organs less to do, it only makes them weaker by giving them less nourishment. If you suffer from indigestion, the only right thing to do is to eat a generous variety of food and digest it by using such a preparation as KODOL DYSPEPSIA CURE, which contains all the known digestants, and completely digests what you eat.

ISOLATE NEBRASKA CAMP

Adjutant General Colby Expects to Find a Cool and Quiet Site.

FISH COMMISSION TO ENFORCE LAW

Supreme Court to Act Today on Several Motions - Chancellor Andrews on Parity - General State News.

(From a Staff Correspondent.)
LINCOLN, July 8.—(Special.)—Adjutant General Colby will make a trip in northwestern Nebraska late this week for the purpose of visiting several sites that have been proposed as suitable and desirable for the next annual encampment of the Nebraska National Guard. He will leave the railroad at Valentine and travel southward through the cluster of lakes near Evergreen creek, in the eastern section of Cherry county, and from there he will go westward along Snake river and other branches of the Niobrara river. This territory includes the wildest and most secluded scenery in the state. It is about midway between the main northwestern lines of the Elkhorn and Burlington railroads. Several wooded spots along Island creek, which flows through Blaine, Hooker and Thomas counties, have also been suggested and General Colby may visit them before he returns.

"We wish to locate the encampment where it will not benefit one railroad to the exclusion of all others," said General Colby. "The places suggested in Cherry county meet all requirements that cannot be found anywhere else. They are isolated and far from the centers of habitation. There are numerous lakes all along the creeks in Cherry county and the scenery is always clear and cool and invigorating."

Enforcing New Game Law.
Members of the Nebraska Fish commission met in the office of Deputy Warden Stimpkins this afternoon and outlined plans for enforcing the provisions of the new game law, which went into effect July 1. So far as known there will be no organized efforts on the part of market hunters to violate the law, but all of the under deputies have been instructed to be on the lookout and if anyone is found shooting or attempting to shoot for the market he will be promptly arrested and vigorously prosecuted.

Under the new law the deputy game warden is held responsible for the management of the state fish hatcheries. Several changes in the administration of this institution have been proposed and the commission will probably meet next week to give them consideration. The complaints against Superintendent O'Brien will also be given attention at the next meeting. Governor Savage and Deputy Game Warden Stimpkins refuse to disclose the nature of these complaints until after the accused has had a hearing.

Court and Commission Meet.
The supreme court and commission will meet in consultation tomorrow morning and it is likely that all of the close of the session opinions will be delivered in many of the cases recently submitted. Today nearly all of the commissioners were at the state house conferring privately regarding decisions which will be submitted to the court tomorrow.

It is possible that a few motions may be passed upon by the court, but no new litigation will be taken up. The chief object of the court in assembling tomorrow is to hand down decisions in important cases. The suit involving the legality of the tax commissioner section of the new Lincoln charter was submitted at the last sitting and an opinion in the case may be among those delivered.

Organization of Charity.
In an address before the congregation of the first Baptist church last night, Chancellor Andrews declared that organization of charity is the most significant modern event in the history of the world. There are many tendencies and events, he said, to which too much importance is attached from a religious, as well as a political point of view, but there are others which are really of momentous significance, which do not receive so much general attention. Of these he said systematic charity is the most notable. The growth of state universities is another event or tendency whose importance has been misunderstood, said Chancellor Andrews.

Even now, no mention of the past, some people regard these institutions as things of evil, and hardly a person who fails to appreciate their good. As a matter of fact their influence on the growth and spread of the gospel has been and is most deep and momentous. In them is more religious significance than many dream. But foremost of all the Christian signs of the times is the organization of charity. It is part and parcel of the work of the gospel. Today it is the idea that to save men is to save souls. Church charity of old did not see that end. There was no thought in its work and it had the horrible effect of breaking down character, pauperizing some and neglecting the worthy. It was a work in which however well the intent fraud was rife.

To Compel Salary Warrant.
It is said on good authority that Robert E. Les Herdman, clerk of the supreme court and state librarian, will soon commence mandamus proceedings in the district court to compel Auditor Weston to issue a warrant for his salary, which he waived during the legislature as an inducement for killing the bill designed to take away from him the fees of his office. Mr. Herdman, as has previously been explained, took advantage of a technicality and filed a claim for salary as supreme court reporter. But the legislature failed to make an appropriation for his salary and therefore Auditor Weston rejected the claim.

Competitor of Standard Oil.
The Republic Oil company of New York City, which is believed here to be a competitor of the Standard Oil company, has incorporated under the laws of Nebraska and within the next few weeks will open a state office in Omaha or Lincoln. The capital stock of the company is \$500,000, all of which is held by George B. Wilson, F. A. Turill and James H. Taylor of New York City. The articles of incorporation were received by mail from the New York office and as no intimation was given as to the course proposed to be pursued it is not known whether or not the entrance of the new concern will have any effect on prices of oil in Nebraska.

Cattle Rustlers in the Pen.
Lewis Cochran and Fred L. Denny, two cattle rustlers from Cheyenne county, were lodged in the city jail last night and this morning taken to the state penitentiary by Sheriff King, in whose jurisdiction the crime was committed. Cochran will serve a term of a year and a half and Denny of one year. Both were until this trouble favorably thought of by their neighbors. They pleaded guilty to the charge against them and received short sentences.

Shot by a Playmate.
John Sizer, 13-year-old son of Edward R. Sizer of this city, was brought home from Kearney this afternoon, suffering from a gunshot wound, which resulted from an accident. One of his playmates

was holding the gun, a 32-caliber affair, when it was discharged unexpectedly, the ball passing through the hand and into the fleshy portion of his leg between the knee and hip. The bullet has not been located. Although painful the wound is not considered serious.

Kilroy's Hearing Postponed.
The preliminary hearing of Mike Kilroy, the Raymond farmer who is charged with shooting Jesse Rodgers with intent to kill, was postponed today to August 7 and his bond was raised to \$2,000. The complaining witness is expected to recover sufficiently to face the accused at his preliminary trial.

ACCUSED OF FORGING NOTE
Borough Repeals Signature and Burdard Bank Causes Arrest.

HUMBOLDT, Neb., July 8.—(Special.)—George W. Cox, who has been making his home in this city the past year, was arrested here Saturday night to answer the charge of forgery in the district court of Pawnee county. The arrest was on complaint of the Bank of Burdard, which April 7 cashed a \$250 note for Cox. The paper also contained the name of Alvin Cox, a brother of the accused, who is a responsible farmer near this place. He said he knew nothing of the transaction.

The note had run about three months, the banker spoke to Alvin about it and he denied the signature. Legal action was then instituted. After borrowing the money from the bank Cox closed a deal for a barber shop at Dawson, paying \$250 for it. This shop he sold within a couple of months for \$100 and had nothing with which to take up the note at the bank.

TAKE NO SUBSTITUTE!

The great popularity of Peruna as a catarrh remedy has tempted many people to imitate Peruna. A great many so-called catarrh remedies and catarrh tonics are to be found in many drug stores. These remedies can be procured by the druggist very much cheaper than Peruna. Peruna can only be obtained at a uniform price and no druggist can get it a cent cheaper.

Thus it is that druggists are tempted to substitute the cheap imitations of Peruna for Peruna. It is done every day without a doubt.

When a patient calls at a drug store to procure some Peruna and the druggist recommends something else that will be just as good, it may be that he does not always recognize the responsibility that he is taking upon himself. Such a substitute is always sure to result in failure.
