Corn Market Opens Active Owing to Reperts of Drouth.

VISIBLE WHEAT SUPPLY SHORTER

Bulls Using the Heat as an Agency for Furthering Their Besires-Provisions Easier-Moderate Receipts of Hogs.

CHICAGO, July 9.—The interest of traders in the Board of Trade centered today in the corn market, which was strong and active as a result of the street reports of damage by the dry, hot weather and the Septemoer delivery corn went an even cent higher than yesterday. September wheat closed \$47\cdotse\$ lower, September wheat closed \$47\cdotse\$ lower, September cats were \$467\cdotse\$ ligher and provisions closed weak in face of the strength in coarse grains and trading was duit. The market improved somewhat in the 'trst hour, when, after a little reaction from the opening figures, corn and oats started on a treesh advance. Taking off profits by shorts caused a little reaction from the opening figures, corn and oats started on a treesh advance. Taking off profits by shorts caused a little reaction to succeed the early weakness. September opened \$40\cdotse\$ lower at \$4\cdotse\$ and advanced to \$4\cdotse\$ corn buying by shorts. On selling by commission houses, led by Phillips, prices declined to \$3\cdotse\$ and the close was \$4\cdotse\$ lower at \$3\cdotse\$ supply of \$4\cdotse\$ lower at \$3\cdotse\$ and flour were equal to \$60.00 bushels. Bradstreet's reported a decrease in the world's visible supply of \$4\cdotse\$ lower lower as \$4\cdotse\$ and flour were equal to \$60.00 bushels. Northewestern receipts were \$5\cdotse\$ oushels. Compared with \$7\cdotse\$ oushels. Compared with \$7\cdotse\$ lose is last year. Local receipts were \$1\cdotse\$ cars, against \$1\cdotse\$ as last week and lower as week as profits and prices dropped to around \$4\cdotse\$ cars, \$6\cdotse\$ outleads and the opening was strong with buyers largely in the majority and bidding \$\cdotse\$ to almost le above yesterday's close. The continuation of hot, dry weather was the cause for the additional strength. September opened at from \$4\cdotse\$ cars, \$6\cdotse\$ continuation of hot, dry weather was the cause for the additional

NEW YORK STOCKS AND BONDS. Bankers' Support of Market Chauges

NEW YORK, July 9.—Support for the market from the large banking interests and syndicates which seemed yesterday to have abandorfied it to the effect of forced liquidation worked a prompt transformation in speculative sentiment today. The opening dealings disclosed that there was still urgent liquidation to be offered and some heavy blocks were thrown upon the market at sharp concessions from last night's closing prices, but brokers with supporting orders were present at the same time and were bidding above the prices at which others were letting stocks go. The consequence was some wide openings in the prices of the grangers. Pacine and Southwestern stocks on sales of 1,000 to 3,500 shares of each. The average level of prices was carried a point or more below last night and there were exceptional losses in Louisville of 3%. In Battimore & Ohlo of 3% and in Southern Pacific of 1%. United States Steel received determined support from the outset, and, although the first offerings were of 10,000 shares, the price was held at last night's level. During the rest of the day the market showed steady recuperation and at times developed a tone of positive buoyancy.

The stocks which suffered most acutely Speculative Scutiment.

ket showed steady recuperation and at times developed a tone of positive buoyancy.

The stocks which suffered most acutely in yesterday's liquidation were most conspicuous in today's raily, notably St. Paul, Union Pacific, Missouri Pacific and Atchison. The movement in these stocks was eclipsed by that of Louisville, in which the dealings were on a very large scale. The opening loss in this stock and the subsequent movement gave color to the supposition that it was raided for the purpose of accumulating stock. In the late dealings it spurted to 110½, an extreme rise of 7½. It closed with a net gain of 2½. The recovery in the other leaders from the low point ranged from 3 to 5.

Some special strength was shown by Illinois Central on the declaration of the dividend and the decision to issue new stock and by St. Louis & San Francisco second preferred on the placing of stock on a 4 per cent dividend basis. There was no apparent cause for the recovery in the general list aside from the confidence inspired by the evidence that powerful support was in the market and that the ominous and urgent liquidation of yesterday was thereby checked.

The bond market was moderately active, but only a part of the list recovered in sympathy with stocks. Total sales, par value £2505,000.

United States new 4s declined % per cent and the old 4s advanced % per cent on the last call.

Cotton Market.

Cetten Market.

NEW YORK, July 2.—Operations in cotton were anything but broad today, yet the market exhibited a much better undertone and prices were higher pretty much through the list. While there was no great demand for the staple, offerings were exceptionally light and forced shorts to raise their ideas of values. On the firmer pariods leading bears sold and on weak spots conservative buils bought. The close was steady, July 4 points lower and other months 427 points net higher.

SHEEP—There was a light run of sheep here today and as packers were all anxious for supplies the market ruled very active and all the way from 15c to 35c higher than yesterday. The lambs that sold yesterday for \$4.65 brought \$5.00 today and wethers sold as high as \$3.35, while ewes reached the stuff, even at the advanced prices, and and a result the pens were soon cleared. The prices paid today are the highest for some time past and are much more satisfactory to all concerned.

Quotations: Choice wethers, \$7.5673.50; fair to good wethers, \$2.75673.00; fair to good, \$2.5062.75; choice spring lambs, \$4.7565.00; fair to good spring lambs, \$4.5064.75; feeder wethers, \$2.75673.00; teeder lambs, \$3.5064.00. Representative sales: The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated: Cattle. Hogs. Sheep.

Most Hoes Kansas City Ever Had.

KANSAS CITY, July 2. Receipts of hogs at the stock yards today by the official count were 20,033 head, breaking all records. The big receipts are due in part to the dry weather, which is making feed scarc; and drying up the ponds. There were m re than 17,006 cattle on sale, many of them forced on by the dry weather.

New York Dry Goods Market.

NEW YORK, July 9.—DRY GOODS— There has been no change in the market today. The demand continues quiet throughout for all staple cottons. Prints also quiet. Print cloths have sold at 2%

for regulars. Ginghams quiet but firm.

Hoslery and underwear steady. Silks firm.

MANCHESTER, July 9.—CLOTHS—Dull,
with a moderate inquiry.

YARNS—Steady, with fair demand.

HOUS.—There was just a fair run of hogs here today, but the quality of the offerings was considerably better than yesterday, he market opened with packers bidding a little lower, \$5.80 being the popular price, but only a few loads changed hands that way. They soon raised their bids to \$5.82½ and finally to \$5.82½ and \$5.80, and that is the way, the hogs changed hands. The general market today was just about steady with yesterday and the close was strong at yesterday's best prices. The bulk of all the sales went at \$5.82½ and \$5.80 and a few of the choicer bunches brought \$5.87½ and \$5.80 and as high as \$5.30 was paid. The better top today, however, was largely due to the better quality of the hogs. It was a good, active market after trading was once under way and everything was sold and weighed up early in the morning. Representative sales: Escapes Injury.

WINTER WHEAT HARVEST ADVANCED Spring Wheat Continues Generally in Promising Condition - Hay !-Plentiful-Tobacco and

Cotton Checked.

WASHINGTON, July 9.-The weather bureau's weekly summary of crop cond

tions is as follows: The northern and central districts cast of the Rocky mountains have experienced two consecutive weeks of intense heat and while the average dally temperature excess for the week ending July 8 was not quite so marked as in the previous week in the central valleys, it was more so in the middle Atlantic coast districts. No seriously injurious effects to crop from this period of intense heat are reported from the middle Atlantic states, but from Texas northward to Nebraska, including Missouri, Arkansas and portions of Illinois, Kentucky and Tennessee, crops have suffered to a greater or less extent. The weather conditions on the Pacific coast and in the plateau regions have been favorable, although frosts caused some injury in

Utah and Wyoming on the 5th. In Kansas, Missouri, Oklahoma, Texas and Arkansas corn has been seriously damaged by intense heat and drying winds. although late corn in Kansas is in fair condition. The bulk of the crop in Nebraska and lowa has so far escaped injury except in a few southwestern counties in Nebraska where corn has been slightly injured, while in southeastern lows it is threatened. In the states of the Ohio valley corn has suffered no injury from heat and has generally made good growth, but continues in need of cultivation in portions of Ohio and West Virginia.

Winter Wheat Harvest

Winter wheat harvest is finished in Kansas, Missouri and in the lower Ohio valley and is in progress in the more northerly sections. Rains have interfered with harvesting in portions of Ohio and West Virginia and reports of injury by fly continue from the first named state, as well as from portions of Pennsylvania and New York. On the Pacific coast harvest has begun in Oregon and wheat is ripening in Washington.

In the Dakotas, Minnesota, Oregon and Washington spring wheat continues generally in promising condition, although areas of northern Minnesota have been flooded and the crop has suffered from drouth in portions of South Dakota. In Iowa the excessive heat has probably impaired the quality of the crop by causing it to ripen

too rapidly. The oat crop is the states of the upper Mississippi and Missouri valleys has suffered further injury from intense heat, but in southern Minnesota and portions of South Dakota it is in promising condition. In the

NEW YORK, July 9.—According to a dispatch to the World, there is a general teeling in official circles in Washington that the resignation of Comptroller Dawes has presented a solution of the controversy regarding the continuance of Commissioner Evans at the head of the pension bureau. An impression prevails, the dispatch says, that the president has already determined to appoint Mr. Evans to be comptroller of the currency. This would be in the hature of a promotion, for the salary is more and the term of office longer.
