Eyes of Bailroad Men Center Upon Meeting in Chicago.

RESULTS OF THE SANTA FE CUT

Traffic Managers of Lines Throughout the Country Are Interested in Outcome of the Chicago Conference.

All eyes in railroad circles are turned upon the special meeting of the freight representatives of all the transmissouri roads in progress in Chicago This conference resulted from a special call and is intended to settle definitely just what the roads will do in relation to the big cut in freight tariffs announced for

This movement was inaugurated by the Santa Fe, which scheduled a slash of from 30 to 50 per cent beteen Chicago and Kansas City, setting the railway world agog by its action. It meant that every line would meet the cut not only between those two terminals, but also from Chicago to Omaha and all Missouri river points, and also that all overland through rates would then succumb on the same basis of per-

The two weeks interim between the time of the announcement and the proposed beginning of the movement allowed ample time for the traffic men to get together and accomplish the abolishment of the cut if they could agree to carry things back to the old basis and stick by it. For that purpose they are meeting in Chicago and therefore they are the center of railroad

It seems to be an open question as to what the result will be and no railroader bere will even hazard an opinion of the outcome. That is because there are several different phases to the situation. First, the Santa Fe openly stated that it was cutting purely in selfdefense, that its competitors were cutting secretly all the time below the agreed rates and were therefore taking from it all its business. If this is true, it is cutting in common with these rates. In that case the meeting now in session and the agreement which is hoped will result was just by its radical move.

But other lines instat that the Santa Pe was just as much in the secret cutting as any of them and in that case it is difficult to understand the meaning of its action. However, Santa Fe traffic men are held in bigh repute as operators in their own line reason for doing what they did, with a elever scheme behind it.

It is understood that a definite alignment of roads exists on the proposition to reach sale cutting on July 15. Omaha's general treight offices are all represented by the this year. head men. General Freight Agents Elmer H. Wood of the Union Pacific, George T tended in person the important meeting and R. M. Allen has it figured out as a cerlines they represent are standing hard for other roads interested, however, are more beets are in splendid condition." Inclined to let the thing go through as planned.

Whatever other result is accomplished. this agitation will undoubtedly be the end of secret cutting for a little while, six weeks man said that it took some big bluff like that at least once every two months now to keep the rates from be ing clopped clear out of sight by the weaker lines.

Coming, as a company of the coming of the common can least afford to lose sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of

time when it is used as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by all druggists.

Summer Resort.

Judging from complaints received at police headquarters, pickpockets did a landoffice business at Lake Manawa last Sunday night. The latest to complain is A. \$45 in cash and a check for \$10, drawn on a South Omaha bank. The job was done, he thinks, as he was getting on a car to cross to the Omaha side of the river. Two women called up the station by

Army Paymasters Take Great Precautions Against Robbers.

Major Brad Slaughter Now Engaged in Putting Soldiers' Salaries in Envelopes to Be Sent to the Various Posts.

Payment of the troops in the Department of the Missouri is now in progress and the office of the chief paymaster, where Captain Brad Slaughter is counting the funds and placing them in envelopes to be given to the soldiers, looks like the salesroom of a gun store from the number and size of the revolvers displayed to protect the cash while in his hands.

A few years ago the government changed the method of paying the troops and now only in exceptional cases does the paymaster visit the different posts. In most cases the money is sent to the post commander by express and is paid to the soldiers by him, but before it is sent the money due each man is placed in a separate envelope by the paymaster, and all deposits which the soldiers desire to make with the government are taken out and credited upon the books. By reason of this system the paymaster has for several days during the term of payment many thousands of dollars exposed in his office and the utmost care is taken to protect the funds. Usually while the work of counting the money is in progress the outer door of the paymaster's is to be gained only by application to the limit of fifteen days from date of sale. custodian of the building, who admits those and who are known to him. MAY ORDER STREET CLOSED

Mayor Moores Declares North Sixteenth Street an Unsafe Thoroughfare for Public Travel.

"If some steps are not taken immediately to have the asphalt paving on Sixteenth street repaired I will order the street closed between Farnam and Cuming streets," Mayor Moores remarked. "The street is now in a dangerous condition and it cannot remain open to traffic much longer.

The truth of the matter is that the paying on Sixteenth street is worn out. should be entirely resurfaced. Where paying is in such bad condition repairs are only a temporary relief. The same expense must be met again next year. "Although five of the councilmen have ex-

pressed a determination to spend \$15,000 in repairing asphalt streets, I am not sure that I will approve of such action. The council and mayor must take a stand coner or later on the question of repairing paving. The city cannot go on forever repairing old paving at a great expense when it is clearly the duty of the property owners to have new paying laid." "Sixteenth street should be closed up.

It is dangerous, and the only way we can get it repayed and put into first-class condition is by fencing it in. This plan was adopted in Buffalo, N. Y. It did not take property owners long to decide that they must make repairs at their own expense," said Councilman Hoye. "I will never vote for a resolution which will make it possible to spend any more money in repairing Sixteenth street. Every yard of the paving should be torn out. Enough money has been spent on paving that is worn out."
