PROPOSITION TO THE COUNTY THEY THANK MRS. TILDEN

Effort to Compromise German Savings Bank Indebtedness.

FIFTY CENTS ON THE DOLLAR IS OFFERED

Commissioners Will Receive Proposition at Regular Session of Board-Nothing to Indicate What Action Will Be Taken.

At the meeting of the county commissioners today a proposition to settle the indebtedness of the defunct German Savings bank to the county at 50 cents on the dollar will be submitted. It is not known what action the commissioners will take on the proposition.

If Receiver McCague's offer is accepted there will be a consequent net loss to the county of \$13,889, aside from the loss of day. Savings bank failed in 1896 it had on deposit \$39,685.14 of the county's cash. Since then the receiver has paid the county treasurer the sum of \$11,907.10, leaving a balance of \$27,778.64 due from the bank. 50 per cent, in full settlement of the claim.

On May 6 of this year Receiver McCague defray the expenses of the receivership parted. there was still owing to the depositors the sum of \$203,783.30. Judge Fawcett then made an order requiring the receiver to colsum sufficient to pay the balance due depositors in full. The capital stock of the bank amounted to \$500,000, but only \$100,-000 had been paid in, leaving \$400,000 due the bank from its shareholders.

Posttion of Stockholders.

Several weeks ago Receiver McCague reported to the court that some of the stockholders of the bank were dead, others had moved out of the jurisdiction of the court. others were insolvent and a number of the solvent ones had offered to pay in the sum of \$105,335.98 on condition that they be relieved from further liability in the case. He stated in his report that it would be to the best interests of the bank and its creditors to accept this compromise and applied for an order of the court authorizing him to accept the \$105,335,98 and relieve the stockholders from further liability.

On July 6 there was a hearing on this application, at which the attorneys for the receiver and for the stockholders were present, but the county, which is by far the largest creditor of the bank, was not represented. Judge Fawcett issued the order applied for by the receiver.

Considerable surprise has been expressed that the county attorney was not present at this hearing to protect the interests of the county, whose claim against the bank amounts to \$27,778, without counting in the interest at 3 per cent since 1896.

The constitution of Nebraska provides that stockholders in all corporations are liable for the full amount of their shares to meet the valid claims of creditors, and Douglas county is therefore not forced to relieve the German Savings bank people upon payment of only 50 per cent of its claim.

The county's claim is further protected by a bond given to secure its deposit in the German Savings bank. The bond is in the sum of \$100,000 and is signed by Charles J. Karbach, Lorenzo D. Fowler, W. Segelke and William Krug, all of whom were stockholders in the bank.

COMPLAINT AGAINST MORGAL

Mary Marks Swears that He is the Man Who Assaulted Her.

Mary Marks, the 12-year-old girl who is said to have been assaulted by Edward who was arrested Thursday, appeared at the county attorney's office yesterday and swore out a complaint against the prisoner. The girl again scrutinized Morgal's horse and buggy, which are at the ounty jail, and again declared they were

the same as were used by her assailant. Morgal is safely lodged in the state pents tentiary at Lincoln. He will be brought here for arraignment in the county court, after which he will be immediately re turned to Lincoln. The authorities refuse to state when the arraignment will take place, as they are taking every precaution

against mob interference Morgal's aged mother appeared at the Council Bluffs police station yesterday and inquired whether she could get possession of her son's horse and buggy from the Omaha authorities. She said her son had left home last Wednesday and the rig be drove was his own. When asked if she thought Ed guilty of the crime charged against him she said: "He must be, by what is in the papers." Mrs. Morga wanted to know if the county would support her son's wife and two children while he is in the penitentiary. She was disappointed when told that she could not get the horse and buggy and that the county

would not support her son's family. EXCURSIONISTS SEE SIGHTS

Four hundred visitors from Iowa and Missouri thronged Omaha and South Omaha all day yesterday. They were brought in on a special train by the Omaha & St. Louis ratiroad at 10:30 o'clock in the morning and did not start on the return trip until nearly midnight.

The party filled eight cars and is comprised of people living all along the line from Pattonsburg, Mo., to Omaha. The excursion was a special one to the South Omaha street fair and it began at Pattons burg, 146 miles from Omaha.

This trip had been extensively adver tised and the low rate brought throngs of new recruits at every station. Missourians were in the party from Pattons burg, McFall, Whittan, Evena, Darlington McCurry, Stanberry, Conception, Maple Leaf, Bedison, Maryville, Wilcox, Roseberry and Burlington Junction. The lowans were from Dawsonville, Elmo, Blanchard, Coin, Bingham, Shenandoah, Summit, Imo Solomon, Strahan, Malvern, Silve

Novel Call.

Dwellers in the vicinity of Nineteenth and Douglas streets were doubtless sur- WORRY prised last evening when a crowd of something like 200 young women invaded the neighborhood, marching in groups and pairs and singing as they went a refrain that ran something like this:

Zig-zag, zig-zag, zig-zag, za' Y W. Y W. Y W. C. A' Peanuts, popcorn, lemonade, That's the way our money's made. That's no joke, that's no bluff, We made the money and that's the stuff.

It developed that the singing crowd was composed of the members of the Young Women's Christian association and the patrons of their lunch rooms who had assembled to express in this manner their appreciation of the kindly services of Mrs. George W. Tilden prior to her departure for an extended trip in the east next Tues-Their song related to the profits about \$400 in interest. lect from the stockholders of the bank a A Pretty Way of Serving Creams and Sherbets.

> A heatess need not wholly depend on the caterer for attractive devices in the serving of food, especially creams and sherbets. A little ingenuity and definess of hand sometimes go a great ways. There is no prettier home-made shells in the form of roses-American Beauties preferably, although those of different colors are scarcely less attractive, and for a large entertainment lend variety of hue.

> The making of the paper shell is a very simple matter. Select a thin-edged drinking glass, having an opening about as large as the circle, Fig. 1. Cut out of heavy unruled writing paper a circular piece about half an inch larger than the openin the giass and mould the shell over the top as shown in Fig. 2. This is very easily done by having a round piece of thick cardboard the size of the opening, putting the palm of the hand over the glass and pressing the cardboard down while you mould the edges of the paper with your thumb and fingers. By turning the glass with your other hand, backwards and forwards, you can very easily press the paper into the required shape.

> Let the glass set on its bottom with the paper shell covering it, cut a quantity of rose leaves, like Fig. 3, out of crepe or plain tissue paper of the desired color, and with a little flour paste and a small brush touch the lower edges of the rose petals and stick them on the paper shell, putting the first row around the edges and the secend around the bottom of the shell.

It is a good plan to have several drinking glasses, and when the paper shell is drying on one to mould a new one on another glass. By doing this the shells retain their shape better and you can progress more rapidly with the work

When the petals have dried sufficiently to hold tight to the paper shell, they can be lated the state saloon law. The complaints slightly curled by running them between a are made by Charles H. Long and L. F. knife blade and your thumb, until they take DeLorimer. on quite a natural appearance (Fig. 4).

To further carry out the pretty concelt, all the more realistic.

Either white or pink cream is pretty for white or pink roses, while lemon cream, or do not stick to their promises. lemon and orange sherbet, may be used with good effect in yellow roses.

These shells should be lined with confectioner's oiled paper. Cut out a circular piece a little larger than that used for the shell, mould it also over the drinking-glass and it will fit very neatly within it.

These linings can be easily lifted out of the shells after cream has been served in them, and fresh linings put in, so that the roses can be used for several occasions. When cream is to be served in these

shells it should be made quite hard, and taken out in little pyramids, by using moulds, such as are kept by confectioners. If these cannot be had, two large spoonfuls of cream pressed together will make a very nice looking pyramid.

Ices thus served become a pleasure to the eye as well as to the palate.

UNTIDY GIRLS ARE RARE.

But This Fact Makes Those of that Kind Particularly Conspicuous.

From infancy the majority of the girls n this country are taught lessons in neatess. They learn that the minor details of their toilet are the important parts of it and that if they are to be considered well dressed they must not overlook even the slightest incident that may contribute to a symmetrical whole. There is one young woman, however, who seems to have set at naught all such conceptions and has not suffered in consequence. She is a very lovely girl, too, who because of a slim purse, does the greater part of her summer sewing herself. And she hasn't whipped seam in her whole wardrobe More than that, she doesn't own a shirt waist that is hemmed around the bottom or a veil that hasn't ragged edges, nor a hat that hasn't the flowers pinned on it, nor a heavy skirt that hasn't the binding merely basted on, nor a thin freck that, to use her own expression, isn't blown together without a particular regard for the

ooks of its interior. Yet when that young woman makes grande toilette, when she has arranged her hair nicely and donned one of the hastily made gowns with many a pin to hold it together to be sure, but with a fascinating knot of ribbon placed here and a bit of lace attached there, she's just the most elegant looking young creature in town. She's superb and enough to make anyone abjure forever the tiny methods they have observed all of their lives as right and roper and to take to pinning things and

leaving them unfinished themselves. Of course, the effect wouldn't be ame on anyone else, for there's only one of her, but just the same she's a living tempter to the young to become slovenly and see if they can't look an empress by

dint of their carelessness too. It's not because of her untidiness, but in spite of it, that this young woman is so good to look at, but who, wanting an excuse to neglect things, stops to reason

In all probability the city officials will be able to furnish to the purchaser of the late \$50,000 bond issue the much desired and long since demanded certified copy of the South Omeha charter, H. L. Cohn. who went to Lincoln yesterday to secure this, was informed by Secretary March that the copy would be immediately made and forwarded to South Omaha without deiny.

The finance committee of the city council has worn a werried look ever since this matter first came before it. The demand by the attorneys of Mr. Hoobler for this copy was a surprise to the persons having the matter in charge, although at the time they did not anticipate any trouble in securing the certification from the secretary of state.

Ever since the first demand was made for the copy there has been much correspondence over the securing of this dociment, until the city, tired of the delay, sent Mr. Cohn to Lincoln to see if the matter could not be hurried through. It seems that he was successful in his work and the copy will be forwarded today. At east he was so assured by Secretary

The twenty special police who were appointed to work during the time the street fair was in progress will be let out either tonight or Monday and the old force will have to look after the town's safety alone. The police department says it could have handled the crowd all right alone without the assistance of these deputies, but that more excitement and a much larger crowd than has appeared was anticipated when the specials were appointed. Chief Mitchell seems well satisfied with the energy which has been displayed by his officers and says their work has been commendable.

Fair Draws to a Close. If there was an disposition on the par of any great number of people to visit South Omaha yesterday the extreme heat kept them away. Whatever may have been the reason, during the afternoon the usual South Omaha crowd did not even appear while in the evening not many showed up on the streets. During the day the Midway was entirely deserted. The high fences kept out what little breeze was blowing, while the sun, beating down upon the paved streets enclosed, made it more like a furnace than a pleasure resort. The bull fight was held in the evening, but, contrary to expectations, only a few people appeared. About the same kind of an exhibition as had been given took place. Today the fair will close. Many of the booths are already preparing for the exit of out-of-town people and are making plans for the tearing down of their exhibits. The last bull fight of the carnival will take place at 7 o'clock tonight.

The receiver states that his estimates of the value of the assets is, of course, only approximate He estimates the amount which will finally be recovered for the depositors from the assets, including stockholders' assessments. at about 80 cents on the dollar.

The receiver states that his estimate of the value of the Marquand collateral is less than is claimed by the directors of the bank and it is possible on this account that the final collections may be somewhat better than the receiver's estimate.

Comptroller Dawes stated today that all transactions connected with the advance of cash to the bank just prior to its failure are being carefully investigated by competent counsel and that all legal rights of the depositors will be protected in this connection. Comptroller Dawes ordered oday an assessment of 100 per cent on the \$500,000 capital stock of the bank. The report of the receiver contains no

LARGE ASSESSMENT LEVIED RATE CUT IS DECLARED OFF

Santa Fe Boad Recedes from Its Original Position on Freight Reduction.

SETTLEMENT IS MADE IN CHICAGO

Order of Reduction is Revoked and All is Now Serene Among Freight Trame Managers-Local Officials Attend Chicago Meeting.

No cut in freight rates will be inaugurated on July 15 by the Santa Fe or any other Chicago-Missouri river or transmissouri railroad. Traffic departments of the lines interested have reached an agreement to this effect. The old rates are reinstated and the former basis is to be maintained.

This result was accomplished by freight agents of the different systems in Chicago Thursday after a long session. Undaunted by their failure to get together on last Tuesday, the traffic men returned to the Windy City after a day's intermission, and this time they were successful.

At the first meeting the transmissouri lines had been unable to accomplish any thing because the Chicago-Missouri lines could not agree, and on their action depended all the rest. But Thursday every one was willing, and it all ended in the Santa Fe recalling its announcement of the now famous 50 per cent cut for July 15.

Santa Backs Up.

Not many days were left, and this road hustled its notices to this effect out in a great baste. It is said that they were already printed before the Thursday meeting. as the traffic men of the Santa Fe road decided after Tuesday's session that they had been foolish not to agree at that time to an understanding that would obviate the cut.

So they knew just what they would do the next time and got their circulars out in advance in order that there might be no delay in their wholesale distribution as soon as things were settled at the meeting. Many other roads which intended to meet the cut had already got out their announcements of it, and this later action comes just in time to stop distribution of them. There will now be several thousand useless ratecutting statements consigned to boiler room fireboxes.

General Freight Agents E. H. Wood of the Union Pacific, George T. Crosby of the Burlington and J. A. Kuhn of the Fremont, Elkhorn & Missouri Valley attended Thursday's meeting. They returned yesterday and are jubilant at the result. None of them were anxious for a cut, though to just what extent it would have affected the west Missouri traffic is not known.

COWBOY WAS MADE A BUFFALO.

But He Didn't Understand the Initia-

An attempt on the part of a barkeeper in a Chicago saloon recently to initiate a cowboy from the Montana prairies into the mysteries of the buffalo organization came near causing a raid on the place not unlike those conducted in Kansas by Mrs. Nation. and it was only the prompt arrival of the

police that prevented probable murder. The big ranchman was doing the sights of Chicago and early in the evening strode into the crowded saloon, and, throwing \$5 on the bar, called for a drink. The barkeeper winked at his friends, rang up the money in the cash register and served the The cowboy gulged down the liquer and then for a moment expectantly watched

the man behind the bar. 'Where's my change?" he finally remarked in a quiet tone. "Change?" remarked the barkeeper, extending his left hand to the stranger.

A squad of officers orrived just in time to prevent the man from the west hurling a chair at the plate glass mirror. The cowboy explained the trouble, and then to save further difficulty the saloon man returned the change. Later the joke was explained to the cowboy, but even
