Shest Steel company

While Wellsville is the strike center now

St. Louis addressed the congress on " provement of the "Mississippi River." Charles J. Moore held the close attention of the delegates while he dilated upon the formation of Cripple Creek and Leadville gold mining districts. Chester I. Long of Medicine Rock Lodge, Kan., spoke on the subject of "Our Trade Should Go With Our

the battleground will be shifted to Mg-Keesport next week, if the report be true that the W. Dewees wood plant of the American Sheet Steel company will resume operations. This would afford one of the most trying situations of the strike. It would necessitate the importation of non-union men from other places and the bitter feeling engendered by such a move would be hard to control. The report from Wellsville, O., tonight says:

Seems Largely a Bluff.

The attempt to start the Wellsville plant of the American Sheet Steel company this morning resulted in partial success. As a result one mill was in operation today with an incomplete force. Boys are doing men's work and receiving men's pay Helpers are taking the places of skilled workers and confusion reigns. Although steam is issuing from every smokestack and the management says three mills are working, millmen laugh at the claim and say there are not enough men imide the plant to operate one mill properly.

At Monessen, Pa., about 500 men of the steel mill are out. Pressure is being brought to bear on the \$00 tinplate workers. and it is considered likely they will refuse to quit. Notices were today posted in the tin mill granting a voluntary advance of 10 per cent to heaters and catchers and 8 per cent to the rollers. Percy Donner. superintendent of the tin mill, said today "As far as I have been able to ascertain after a close observation, only four or five men talk of quitting."

The Monessen tin mill has a greater output than any other mill in the combine and all efforts will be made to keep it running. Repeated efforts to organize the men in the tin mill have proved futile.

New York Busy Guessing. NEW YORK, July 17 .- The highest offclais of the United States Steel corporation were unanimous today in saying that there were no new developments in the stee strike situation. Charles M. Schwab, pres ident, called at the office of J. P. Morgan shortly before 11:30. Fifteen minutes later Mr. Morgan joined him. Mr. Schwab was accompanied by a stranger whom several persons believed to be John Jarritt, secre tary of the American Sheet Steel company. but at the office of the latter company I was said that Mr. Jarritt had not arrived from Cambridge Springs, Pa.

A report was quickly circulated in the street that a secret conference was under way at Mr. Morgan's office, but this rumor could not be confirmed. When announcement was made of the settlement of the Northern Pacific fight by Mr. Morgan's letter to his associates the rumor concern ing the conference was generally dis credited. President Schwab left the office of the bankers shortly after 11 o'clock When asked to reply to President Shaffer' alleged statement that the strike would be ended at once if the manufacturers would allow the Amalgamated association to organize the non-union plants, Mr Schwab shook his head and begged to be excused. Warner Arms, vice president of th

American Tinplate company, held a conference with several of his colleagues, but refused to divulge any part of the proceed ings. It was reported that a formal conference would not be called between the principals until the strikers approach the manufacturers with a view of setlement.

Contractors Give In.

ROCHESTER, N. Y., July 17 .-- After nearly nine weeks idlenees the striking laborers engaged in municipal contrac work resumed work this morning. Nine bosses signed the agreement, only two of the contractors remaining firm in their St. Louis railroad at Quincy, but the date declarations not to grant the men their de- of sale has been postponed until October. mands. The men are granted 20 cents an It is still held that the Kansas City Northholidays

Unfavorable Condition.

LONDON, July 17 .- According to a telegram from Tula, European Russia, dated yesterday and received today by H. Tchertkof, Count Tolstol's representative in Great Britain, the count's fever is said to Flag." be violent, but improvement in his condition is perceptible.

BERLIN, July 17 .- "Count Tolstol's strength is gradually sinking," says a dispatch from St. Petersburg, "in conse quence of a disease of the stomach from which he has suffered for years. Recently he has been subjected to violent cramps. His physicians have no hope."

Fear Invasion of American Shoes.

VIENNA, July 17 .- Deputy Bauman has whole country. been commissioned by the representatives of the boot and shoe trade to question the Stanthalter in the lower Austrian Diet as importance to the state and to those adto what that body intends to do with regard joining. He told of the improvements to to the threatened invasion of the Vienna which they are susceptible and declared market by an American syndicate. The local boot and shoe men consider that the expense. American competition menaces the very

London Broker Insolvent.

LONDON, July 17.-B. P. Marshall, a small broker in the American market, was declared insolvent on the stock exchange this afternoon.

LIGHTNING KILLS A HORSE One of the Incidental Expenses of Grand Island's Welcome

Rainfall.

GRAND ISLAND, Neb., July 17 .- (Spetial.)-During the second shower last evening, a total of thirty-two hundredths, of an inch of rain falling, lightning struck the barn of Judge W. H. Platt, setting fire to the barn and instantly killing a horse valued at \$100. The fire was extinguished with several buckets of water. When the bolt came Mr. Platt was half way between the barn and the house, having just fed

the horse. The lightning cut a hole through the roof and splintered up the master-at-arms, F. W. Marshall of lowa; barn to a slight extent. NORTHWESTERN HOME AGAIN Kentucky.

Steamer Completes First Trip from Chicago to Europe and Return, Getting Noisy Welcome.

CHICAGO, July 17.-The steamship Northwestern, first of a regular line to

make the trip from Chicago to Europe and California to press a claim against the sureturn, entered the harbor here today amid | preme tent, has consented to a settlement. a deafening salute of whistles from other crafts. The round trip took eighty-four

days, but it is expected this time will be greatly lowered the next voyage. The boat was in good condition, despite the ice encountered on its outward trip in April.

Reported that Rain Has Been Failing at Columbia for Several

Hours.

ST. LOUIS, July 17 .- A special to the Late planted corn stands the drouth well. Post-Dispatch from Columbia, Mo., says throughout Boone county since 3 o'clock vesterday afternoon. It has not yet reached sufficient depth to be of much avail to crops, owing to the remarkably dry condition of the ground, but that is expected. and it is believed that the end of the drouth

is near. The authorities at the government experimental station here now take a hopeful view of the situation.

and two fatally ill is the result of the heat here today. William Barada, one of the best-known grocers of this city, comnoon, refused to leave his store when ordered by a physician and ten minutes later was dead. Thermometers registered 106.

ENGLAND'S DROUTH CONTINUES

There, too. Farmers Rush Their Cattle to Market from the Dried-Up Pastures.

LONDON, July 17 .- While Scotland and Ireland have recently enjoyed thunder- tral and southern Illinois, central indiana, storms, there is no prospect for rain in the middle and southern parts of England, and a eastern Ohio. The only stations reporting steady increase of heat for several days is amounts exceeding two-tenths of an inch predicted. The sunshine is everywhere in the forty-eight hours ending at 8 a. tu. greatly in excess of the average, the temperature is above the mean and the rainfall Tex. 46; Beaumont, Tex. 84; Russellville, is below the average. London has not been Ark .. have boomed it along at a tremendous rain-washed in weeks. Strokes of apoplexy Arbor. Mich., 42; Flint, Mich., 2.20; Proand heat prostrations are frequent and the ris, 58; Rantoul, 111, 50; Streater, hospitals are busy. The live stock market is unusually crowded, as owing to the failure of pastures, farmers are forced to sell their cattle.

NEW YORK July 17 .- It is reported in looks about as well as the stand ordina- London, according to a dispatch to the practically ruined by the blasting heat trated by the heat and consequently arrangements for her visit to London were upset. The extreme weather affects even the dignity of the judges of the high court. who have been obliged to remove their

ponderous wigs. Their example was followed by barristers and for the first time the absence of wigs during court proceedings has shocked the more conservative visitors, while it has added greatly to the comfort of bench and bar.

only one-tenth of an inch. Stillwater, Okl. and Muskogee, I. T., are the only two

ent very favorable weather conditions con-

The manner in which corn has held its own during the drouth was something remarkable and is a source of wonder to the farmers. In some places it has had no noisture for over two months. It has madalmost no growth, but the leaves have been kent green and the tassel kent off Woods could not flourish in the dry spell any more than the corn and they were easily eradicated. The fields are therefore clean and have a new lease of life since the rain NORTON, Kan., July 17 .-- (Special) -- The

west half of Norton county has a fine wheat crop. Corn all over the county will make good half crop if rain comes soon.

PHILLIPSBURG, Kan., July 17 - (Special.) -It is very dry and hot here, with no rain for something over two weeks. Wheat and other small grains are farly good and threshing is in full blast. If rain does not ome in ten days corn will be a failure

Rain has been falling in Columbia and GOVERNMENT RAIN REPORT

Chief Moore of Weather Bureau Makes Official Statement of Precipitation.

WASHINGTON, July 17 -At the request of the Associated Press Prof. Willia Moore, chief of the weather bureau, today pre-ST. JOSEPH, Mo., July 17 -- One death pared a statement of the rainfull throughout the drouth-atricken region covering the time since the data were collected to the special weekly report which was proplained severely of the heat this after- mulgated yesterday by the bureau. That report closed at 8 o'clock Monday and the statement now made covers the forty-eight hours from 8 o'clock Monday morning to 8 o'clock this morning. The statement is as follows:

"During the forty-eight hours ending 8 a. m. this morning, the 17th instant, scattered local showers, mostly very light in limited areas, have fallen in southeastern Texas, western Arkansas, southeastern Nebraska, over the greater portion of the Dakotas and Minnesots, in northwestern lows central and northern Missouri, cen southern Michigan and central and souththe 17th are: Reeville, Tex., 94; Brenham, .24; Texarkana, Ark., 1.26; Ann 111 44; Cambridge City and Farmland, 46 Jefferson City, Mo., 40; Hillsboro, 111, 56; Mount Vernon, III., 22 Toron o, Kan., 116, Owneshoro, Ky., .24, Grand Meadow, Minn. .34; New Ulm, Minn., 32; Mitchell, S. D. 1.08; Storm Lake, Ia . 20; Stillwater, Okl.

20; Muskogee, I. T., 24. The temperatures continue excessively high over the lower Missouri. Mississippi and lower Ohio valleys and from central Texas northward over Oklahoma, Kansas

and Nebraska. The maximum thermometric readings of the 16th were, however, somewhat lower than these of the 15th in Texas, Oklahoma, Kansas, southern Nebraska and central Missouri, while they were higher in the central Missouri and lower Ohio vallevs.

in addition to the precipitation at Rus-

selville and Texarkana there was light rains

at Malvern, Pine Bluff and Helena, but at

each of the two last named places there

was only a trace of rain and at Malvern

points in those two territories which re-
