Northern Germany, Norway and Sweden are attracting a good number of Omaha tourists this summer and not a few are making pilgrimages to the far east, but, according to the debutantes, a certain army post in Kansas or the lakes of northern and otherwise interesting places in the

took precedence over everything else socially last week and on Wednesday afternoon and evening "everybody" was there.

Miss Dewey, Miss Doane, Mrs. Wheeler, Mrs. Sprague, Mrs. Redick, Miss Gore, Miss McShane, Miss Ellen McShane, Messrs. Foye, Kilpatrick, Kinsler, W. A. Redick, Martin, Fred Hamilton and T. R. Kimball were the participants in yesterday afternoon's game at the Country club and this, perhaps, attracted something more than the usual attendance at dinner, but the enthusiasm that tdok people out to witness the game itself died with the arrival of the warm weather, and it matters little what may be going on out there, few can be induced to arrive before 5.30.

The hop last evening was well attended, but the majority of the people seem to prefer a promenade about the grounds rather than participating in the dance.

Among those who entertained at dinner last evening were: Mesdames A. B. Kinsler, H. H. Baldrige, E. L. McShane, C. J. Greene, G. W. Wattles, H. H. McCord, Frank Colpetzer, R. W. Baxter, E. W. Gannett, Hull Remington, Kirkendal, G. H. Palmer, E. H. Scott, D. H. Wheeler, jr., and

Avoiding Heat Effects.

The most essential thing in hot weather is to keep in good physical condition. It is very easy to become tired and nervous and soon, as a result, you do not sleep well at night. This is apt to lead to a general break-down, particularly among women

who are not constitutionally robust. Exercise and restful sleep will do the work, but regular exercise this hot weather is almost impossible and in a nervous condition real rest is hard to get. The Renstrom bath treatments at the Bathery in the Bee building is the quickest and most pleasant way of regaining physical strength. The baths are so invigorating and the massage and electrical accompaniment so beneficial that one is built up and rested in a healthful natural way. After the bath treatment the hour or so of sleep in the dainty little resting rooms is worth seven nights' fretful tossing about. Call any day and look through the institution or tele-

phone 1716 for an appointment. DAKOTA DEMOCRATS They Repudiate the Action of Ohio Convention and Rally Round

Bryan. HURON, S. D., July 20 .- (Special.) -After discussing matters political as they affect the democratic party in South Dakota, democrats from various sections of the

state adopted the following:

We, democrats of the state of South Dakota, deplore the recent action of the democrats of Ohio, in state convention assembled, in their attempt to discredit Hon. William J. Bryan and the great living and eternal principles which he and the democratic party in times past have always stood for. William J. Bryan is the greatest living exponent of democratic principles; he stands for the maintenance of the government and the interpretation of the constitution as established and understood by Washington and Jefferson, and as upheld by Jackson and Lincoln. We believe him to be recognized the world over as a fearless leader and an honest man. The time is now upon the people of the United States to say whether or not such men shall be cast aside. We, as democrats of South Dakota, will never lend our ald or countenance such action or be parties thereto. state adopted the following:

Prices for Water in Drouth

District.

ST. PAUL, Minn., July 20 .- E. O. Armstrong, a stockman of northeastern Missouri, arrived in St. Paul today and conferred with the general freight department of the Omaha railway with a view to arranging for the shipment of trainloads of stock from his country to the grass district of northern Wisconsin. He told pitiful tales of the conditions in his neighborhood, where, he said, water is so scarce as to command a high price. He that he had worked on the case solely related one instance where a farmer owning 125 head of cattle paid a neighbor, who was fortunate enough to have a pond, \$40 for watering his stock once. Other farmers, he said, are cutting down trees that their stock may eat the leaves.

These stock-raisers find it cheaper to ship the cattle to northern Wisconsin. where thousands of acres of land are going to waste and where water is abundant, instead of sacrificing them at a small price in a summer market, their idea being that the cost of two or three dollars per head for shipping stock to this northern country will enable them to sell the stock in the St. Paul or Chicago market in October or November at a great profit. The Omaha railway people are arranging

with the owners of large tracts of wild land along its line in northern Wisconsin for the practically free use of this land for grazing purposes.
