

BURGLAR'S EAST PARADISE

Marauder Finds All Modern Conveniences at Smith & Bro's Grocery.

LATCHSTRING TO SAFE HANGS OUT

Reads Combination Which is Appended to Knob of Strongbox and Gets Away with \$100-Smasher the Cash Register.

Turn to the left several times and stop at 90; turn to the right, passing 20 twice, and stop at 20; the third time turn to the left, passing 90 once and stop at 90; turn to 100 and open.

This is the combination of the safe in the grocery store of Robert Smith & Bro., 1403 Douglas street. Early yesterday morning a burglar prowling about in the store found it printed neatly on a card hanging to the knob of the safe.

Then he resumed his foray upon the store. Following the directions on the card, the burglar opened the safe, took from it a canvas bag containing \$100 and added it to the pile of plunder next to the rear door.

Then he resumed his foray upon the store. Following the directions on the card, the burglar opened the safe, took from it a canvas bag containing \$100 and added it to the pile of plunder next to the rear door.

"I don't think that burglar can complain of the treatment he received at my hands," said Mr. Smith yesterday. "If he had let me know when he was coming I might have had one of my clerks here to hand him the combination on a platter with a slice of lemon and a garnishment of parsley around it, but as he took me by surprise he couldn't expect anything better."

"I suppose you're going to change the combination to your safe now?" "By no means. What's the matter with this combination?" "Why, after it's published in the newspapers, you know, it's efficiency might—"

"By no means. You can have my picture and a picture of the safe to run with it if you like."

"What's the combination for, then?" "Merely to keep the doors of the safe from slamming in the wind. You see we don't pretend that this is a burglar-proof safe. It's a fireproof safe, that's all. As a general thing we don't keep money in it. It's intended for our books. The combination is left hanging to the knob so that any marauder who chances along, being curious as to the safe's contents, will use the combination instead of trying to pry open the door, as the explosive might prove deleterious to both books and safe."

"It is reasonable to suppose that if Mr. Burglar hadn't found this combination last night he would have blown the safe and my books and safe as well as the store. He would have had a sad mess here in the office. So you see there's method in my madness after all."

Detectives who are at work on the case have found that the burglar entered the store by climbing up an iron fire escape on an adjoining building, whence he crossed to the ledge of an open window in the Smith establishment. They have no clew as yet to his identity.

EACH SALE REQUIRES STAMP

Live Stock Bills of Sale Must Always Show Payment of Government Taxes.

A firm of commission dealers at South Omaha submitted to the collector of internal revenue a question as to their liability to the stamp tax under the new law. They stated that they bought cattle as speculators, and upon the original bill of sale given by the commission dealer stamp to the value of 1 cent for each \$100 of value of the stock were placed, said tax being paid by the stock raiser. The firm asked if under these conditions stamps should be placed upon bills of subsequent sales of the same stock.

The question was referred to Washington and the reply, received yesterday, is to the effect that every sale requires a stamp, regardless of the number of times the same stock is transferred.

A Balloon Ascensionist Killed.

A balloon ascensionist was recently killed while making one of his daring trips. Life is too valuable to trifle with in foolhardy adventures. It is better to employ ourselves in peaceful pursuits where we may be secure. Then if we take care of our health we can live to a good old age. The best means of promoting health is Hostetter's Stomach Bitters. This medicine cures dyspepsia, indigestion, constipation, flatulency and insomnia. Be sure to try it.

RELIEF FOR THE POLICEMEN

Mayor Issues Order Permitting them to Dispense with Uniform Coats.

Mayor Moore yesterday afternoon issued an order to Chief of Police Donahue, instructing him to allow policemen to discard their uniform coats and go in shirt sleeves until the hot spell is over.

"This heat is something terrific," says the mayor, "and it is torture to compel a man to wear a heavy uniform coat in such weather. Some people may not like the idea, but there are trains leaving Omaha every hour and the fastidious can go to the woods till the summer is over."

IS NOT WORRYING DEEVER

Some Things About His Appointment of Which Critics Are Not Advised.

D. Clem Deaver of this city, who has just been appointed receiver of the United States land office at O'Neill, Neb., is not very much disturbed at the criticisms of partisans in Holt county who have questioned the wisdom of the appointment.

"Yes, I have read the dispatch. It was certainly ill-advised. So far as I am concerned individually I do not care to say anything in reply, for there are so many things in connection with my appointment which Mr. Dickson does not know that I do not think it competent to express an opinion on the matter. I have no apologies to make for my conduct in the recent state campaign. I notified Governor Foynter and his friends just what I intended to do and they know why I did it. Indirectly my work was of great benefit to the republican camp and Senator Dietrich, who made the campaign for governor, appreciated what I did; in fact, my appointment to the land office was one of the first applications taken up by him and he made of it a personal matter with Senator Millard, who did not know prior to his election, and with President McKinley as well. Every republican state officer endorsed my application, as did Hon. R. B. Schneider, republican national committeeman. In fact, every factional leader of the republican party endorsed me for the appointment, which of course includes Chairman Lindsay of the state committee. This being the case it was not a difficult matter for Senator Dietrich to obtain the assent of Senator Millard, which was cheerfully given."

Mr. Deaver said he would perfect his bond in a few days and expects to assume the duties of his new position about August 1.

OFFER ALIBI FOR DEFENSE

Morgan Undertakes to Show Court that He Did Not Assault Mary Marks.

The preliminary hearing of Ed Morgan, charged with criminally assaulting 13-year-old Mary Marks June 13, is now in progress before Justice Shoemaker. Witnesses for the prosecution were being examined yesterday forenoon, and when court adjourned for luncheon the state rested. At 2:15, when court reconvened, Morgan's attorney announced that the defense would attempt to establish an alibi.

The most important witnesses for the state yesterday were Mary Marks, the alleged victim; Chief of Police Mitchell of South Omaha, Mrs. Malvina Addy, Almont Lombard and Mr. and Mrs. Martin Tibke. All of these except Chief Mitchell identified Morgan as the man they had seen in a buggy near Fifty-first and Cuming street June 13. The Tibkes testified that they had seen the girl in the buggy with him.

There was no evidence of emotion in Morgan's conduct during the hearing. He sat beside his attorney with his little 4-year-old son asleep in his lap most of the time.

Keep your system in perfect order and you will have health, even in the most sticky seasons. The occasional use of Prickly Ash Bitters will insure vigor and regularity in all the vital organs.

NO DANGER OF ICE FAMINE

Mr. Talbot Says Supply Will Be Equal to the Expected Demand.

David Talbot of the Reservoir Ice company says there is no danger at present of an ice famine. The local ice crop was fairly good last winter and there is a sufficient supply on hand at present to last through the summer, unless the term of extreme heat continues for some weeks.

NEW ASPIRATION OF REDELL

Former Chief Hopes to Superintend Insurance Salvage Corps.

MAYOR DOES NOT REGARD PLAN FAVORABLY

Chief Executive Does Not Consider That Good of Fire Department Will be Furthered by Presence of Redell.

"It is announced that John Redell, former chief of the fire department, is to be placed in charge of a salvage corps, to be organized by insurance companies propose to establish in Omaha. While I have anything to do with the fire department Redell will not be allowed to do salvage work," said Mayor Frank Moore. "A salvage corps must be under the direction of the chief of the fire department and the men in such a corps must be agreeable to the members of the fire department."

"In the fire at Hardy's store the Fourth of July Redell tried to run things in spite of the fact that he had been discharged by the mayor and council. There would be many repetitions of that scene if he were to be put in charge of a salvage crew. He is not responsible for his actions when he gets excited and I will not have the work of the department hampered by the presence of such a man."

"Furthermore I do not think Redell would be safe in such a position. The men in the department dislike him so thoroughly that they would not hesitate to even up old scores if he were to make any effort to direct their movements. It would be necessary to send policemen to every fire to protect Redell. He has turned hose on his men and abused them. They have not forgotten his mistreatment and would be only too glad to get a chance to pay him back in his own coin."

"I have no objection to the organization of a salvage corps which will do the work Redell compelled the firemen to do. Such a corps is necessary, but there is no reason why John Redell should be put in charge. There must be a few men in the United States who are as competent as Redell and who would not be objectionable to three-fourths of the Omaha firemen."

"The department is finally rid of Redell. He lorded it over Omaha firemen too long and there is no good reason why he should be put in a position where he would renew the friction that kept the fire department stirred up all the time."

"I hope the supreme court will reverse the decision of Judge Estelle and make it possible for the Board of Fire and Police Commissioners to try Redell on the charges preferred against him. I do not think that Redell will appear before the board, but his refusal to make a defense will not prevent the board from airing the charges."

WINTER MAY COME AGAIN

At Least Uncle Sam is Providing Cold Weather Clothing for Indians.

Uncle Sam does not permit the torrid weather to cause him to forget the freezing time and he is now making preparations to protect his red wards from the inclemencies of the winter months. The United States Indian supply depot has received instructions to prepare to receive a large quantity of blankets and blankets which will be shipped to Omaha in a few days. The winter supplies will be issued almost immediately upon receipt to the different agencies within the districts reached by the depot.

White Man Turned Yellow. Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was yellow jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured. A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c. Sold by Kuhn & Co."

WOMAN THREATENS SUICIDE

Declares She Will Commit Suicide Because of Husband's Trouble.

Joseph Dalton, charged with assault with intent to do great bodily injury, was held to the district court under \$500 bonds, after a hearing yesterday in police court. The complaining witnesses was Claude I. Cooley, a neighbor of Dalton's, whom the latter attacked because he thought Cooley was harboring a step-daughter of the defendant and affording her an opportunity to meet a sweetheart of whom Dalton did not approve.

Immediately after the hearing Mrs. Dalton, who was in the court room, announced to several of her friends that if her husband had to go to jail she would commit suicide. This was reported to Captain Hayes, who directed the police matron to take charge of the woman and search her. One day last week Mrs. Dalton made a similar threat and when searched by the matron a phial of carbolic acid was found concealed in the bosom of her dress. No poison or weapon was found today.

Joseph Dalton is the man who made his stepdaughter kiss him at the muzzle of a pistol.

BOATS MUST SHOW LIGHTS

Federal Government Insists Upon Manawa Craft Showing Colors at Night.

The United States is beginning to take an interest in the sailboats on Lake Manawa and now insists that every boat wear upon its mainmast a light of a color to specify the character of the boat. All sailboats, irrespective of size, must carry a white light forward. The president of the local boat club desires uniformity in the matter of carrying lights, and while the regulations require them to be at least six feet above the deck, some certain place will be determined upon and enforced by the representatives of the government. Steam, gas and gasoline launches must carry lights of red and green.

HEAT INTERRUPTS SURVEY

Party Which began Inspection of Creston-Winterset Line is Driven from Field by Hot Weather.

Lyman Waterman and party, who started out to survey the proposed Creston-Winterset electric line in Iowa, have returned, having been driven from the field by the heat. Two of the members of the party were prostrated, but not seriously injured, and it was found impossible to secure the needed men in the country, as every man who is available is at work in the harvest fields.

The party discontinued work Saturday night and returned to Omaha with the intention of returning Monday with additional men, but the continued warm weather caused them to delay their departure until Wednesday, as by that time they hope the weather will have changed.

The first week's work carried the party over half the distance and the work will be completed next week.

FAKE HAIR PREPARATIONS

Do Hair No Good, but often Cause it to Fall Out. Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle and finally lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes cuticle scales as it digs to the root of the hair, where it destroys the hair's vitality, causing the hair to fall out. To cure dandruff the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ, thereby leaving the hair to grow luxuriantly.
