BAD REPORT FROM NORTHWEST

Impelled by Hopeless Tone of Reports from West, Corn and Oats Score Sensational Advances and Close Strong — Provisions Active.

CHICAGO, July 22.—In the grain pits the was a wildly bullish day. Impelled by to hopeless tone of advices from the parched prairie west, corn and oats score sensational Advances and Close pringers in the price for spot tin benden, with the bid price at 116 and nominally unchanged with A1714 and hominally unchanged with A1714 and hominally unchanged at 12 is 30. Spelter was 41 from 18 and 18 from 18 f

exerted great pressure, but the masker yielded stubbornly and the cose was exected and strong. September 37sc over Saturday at 72%0721c.

The visible supply decreased 288,000 bushels. World's shipments last week were 7,615,000 bushels, while the quantity affoat showed a decrease of 1,934,000 bushels. Frimary receipts figuregated 5,15,000 bushels. Minneapolis and Duluth reporter 134 cars against 474 last week and 359 a y. ar ago. Local receipts were 247 cars, 1:1 or contract grade.

The bulk of corn handled changed hands at prices at least 3 cents better than Saturday's level. There was a demand so frantic that it would have seemed almost unreasonable had it not been that traders were again confronted with unlimited reports of withered crops throughout it corn belt and a weather forecast promising no relief. September opened with a chorus of bids from 57c to 58c. Selling by local longs influenced an early reace, on to 58c, but here the sweeping demand from the country as well as local caught the market and kept it advancing until 59%c had been paid for a small lot. The close was strong, 4%c higher at 59%6594c. One of the reports which was influential said a railroad was carrying back to Kansas 200,000 bushels of corn from Minnesota. It was said there were 5,000,000 bushels of corn from Minnesota. It was said there were 5,000,000 bushels of corn from Minnesota. was said there were 6,000,000 re-re of the Kansus grown corn awaiting re-rement to the drouth-stricken districts

It was said there were 5,000,000 bushels more of the Kansus grown corn awaiting reshipment to the drouth-stricken districts. Receipts were 260 cars.

The oats market advanced actively in sympathy with carn. It was a wild market all day and difficult to trade in as sellers were few and far between save at the best figures of the day. An enormous business was transacted, both for the local and country account. Receipts were 91 cars. September soid between 364c and 384c and closed 3634c higher at 286334c.

Provisions were moderately active. There was a sharp demand for January largely in sympathy with September. September pork closed at 514.57½. September lard 5c up at \$8.70 and September ribs 10c up.

Estimated receipts for tomorrow: Wheat, \$800 cars; corn, 300 cars; oats, 145 cars; hogs, 15.000 head.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS.

Speculative Mind Unsettled When Market Opens with Bad News.

NEW YORK, July 22—The unsettled condition of the speculative mind was clearly manifest when the stock market opened this morning with a fresh batch of unfavorable news regarding the corn crop and affecting also the chances of the spring wheat crop. The grangers and Pacifics and Southwesterns were all acutely depressed and heavy blocks of shares of each of those roads were thrown upon the market, opening sales reaching as high as 10,000 shares for Union Pacific. Conditions were much like those of last Monday and the trading contingent was inclined to look for such effective support to the market as was offered last Monday by the powerful capitalists who have a paramount interest in keeping up the prices of their properties. The selling on the short side after the opening dip was therefore conducted with signs of timidity and caution. There was, in fact, effective support offered at the opening low level.

But the inciplent rally was checked when the corn market opened and the excited condition of affairs there was observed. The present market is largely influenced by the close proximity of the brokers in stocks and grains, the Stock exchange being in temporary quarters on a portion of the Produce exchange floor with only half a wall dividing them. Not only are the proceedings in one exchange to be seen from the floor of the other, but brokers are constantly passing from one to the other and operating on both. This personal contact exaggerates the sentimental effect of the grain market on the stock market. There were occasional rallies on the down grade, due to the covering of board room bears, who took quick profits. The loaning rate for stocks does not indicate a widely extended short interest beyond the in-and-out transactions by the board room traders. The bearish operators are in constant apprehension of some maneuver or announcement by those interested in supporting the market which would cause a sudden rally and cost the shorts heavy losses. There was no evidence of any such ma Market Opens with Bad News.

United States bonds were all unchanged on the last call.

Commercial Advertiser's London financial cablegram: The markets here were upset by the flatness in the American department, which is exerting considerable influence here, although sentiment was favorably disposed toward a current rumor that Lord Kitchener is about to resign his post in South Africa for one in India, his successor being General Bindon Blood. This is regarded as an indication that the end of the war is rapidly approaching. Americans opened "sick" on the weakness in New York last Saturday. There was an early raily for about ten minutes, followed by renewed depression. Then New York came in as a seller, finding few buyers here, and the close was at the lowest on the disappointing crop rumors and vague statement that a rather important Wall street house was in trouble. Home railway dividends continue a depressing factor. The market is now clear of indebtedness to the bank. Paris exchange, 25.18.

The following are the closing prices on the New York Stock exchange:

LIVERPOOL, July 22.-COTTON-Scot moderate business, prices unchanged: American middling, 419-32d. The sales of the day were 7,000 bales, of which 500 were for speculation and export, and included 6,200 bales American. Receipts, 3,300 bales, all American.

NEW YORK. July 22.—COFFEE—Heaviness was a prominent feature of today's coffee market and closing prices showed further concessions on the part of sellers. The opening was steady with prices unchanged to 5 points lower. For the rest of the day business was on a basis about 5 points under Saturday's closing. Heavy Brazilian receipts and unfriendly European market news and weakness in the spot market caused room operators to take a bearish view of the situation. The market closed with prices net unchanged to 5 points lower. Total sales were 35,000 bags, including September at 5.8574.85c; October, 4.96c; December, 5.0565.10c; January, 5.10c; March, 5.2565.30c; May, 5.35c; spot Rio, dull; No. 7 invoice, 5 Il-16c; mild, quiet. which was a good advance over last week's quotations. There were only a few buncars of swes, and they also brought more morey than the same kind sold for last week.

There were no strictly choice lambs of fered, but still as high as \$1.75 was paid. Prices did not improve as much on lambs as they did on sheep, but still the market could be quoted strong to a dime higher. Everything at all desirable was sold in good season.

There were quite a few feeders offered today and the market was lower, as the demand from the country is very light and prices in Chicago and other markets have been going down at a rapid rate. Commission men say that anyone why can use feeders at the present time can get them worth the money.

Quotations: Choice yearlings, \$3.6573.85; fair to good yearlings, \$3.4093.65; choice wethers, \$3.6623.75; fair to good serings, \$3.4093.55; choice wethers, \$3.6623.75; fair to good spring lambs, \$4.2592.465; feeder wethers, \$2.5073.00; choice spring lambs, \$4.2592.465;

INDIANS MAKE FINAL FIGHT

Former Owners of New Country Want Injunction to Prevent Any Settlement.

KANSAS CITY, July 22 .- A special to the Star from El Reno, Okla., says: The final struggle of Lone Wolf and Judge William M. Springer, attorney for the disgruntled Kiowa, Comanche and Apache Indians to prevent the opening of the new country to settlement, was begun in the supreme court at El Reno today. A petition filed asks for a temporary injunction restraining William A. Richards, assistant commissioner for the general land office, and the register. for the general land office, and the register and receivers of the land offices here and at Lawton from proceeding in any way to carry out the provisions of the proclamation. The petition asks further that upon final hearing the injunction be made perpecual. The substance of the petition is that the act of congress ratifying the Jerome treaty, upon which the president's proclamation was based, is void, the claim being that that treaty was obtained by fraud. The hearing will take place at El Reno next Saturday. Judge Willis Vandeventer will probably come from Washington to represent the government. Commissioner Richards said today that nothing short of sending him to jail would

interfere with the work which he has been sent here to do.

Men to Conduct Drawing.

WASHINGTON, July 42.-The secretary of the interior today announced committees to supervise the drawing of the lands of the Kiowas and Comanches as follows: Ex-Governor Richards of Wyoming, as chairman; ex-Chief Justice Frank Dale of Oklahoma and ex-United States District Attorney D. P. Dyer of St. Louis. This committee has been instructed to report at El Reno not later than July 26 to arrange details for the drawing to begin

Henry Lausse Duthiers. PARIS, July 22 .- The French zoologist, Henry Lacaze Duthiers, is dead. He was born in 1821.

Hudson Building, New York. Hudson Building, New York.

Chaffee, recently held here, will probably result in radical economical and administrative reforms in the army of occupation. It is estimated that the total cost of maintaining the American army in the Philippines can be reduced by 60 per cent in the course of one year.

The principle change will be the reduction of the present force to between twenty and thirty thousand men. The abolishment of the present army districts is contemplated, and three brigades, with permanent headquarters at Manila, Degupan and Iloilo or Cebu, will be instituted in their stead. The troops will be concentrated at three points selected, abandoning all minor posts. Thesa changes will result in an enormous saving in the transportation of supplies and the CHICAGO LIVE STOCK MARKET, paying of rental for barracks for the soldiers.

At present, in most towns the troops are quartered in churches, convents and public and private buildings, for the use of which considerable rents are paid. In the majority of other cases, where the troops do not occupy public buildings, it is be-lieved rental should be paid for the soldiers' quarters if their occupancy is continued, since these regions are pacified and their inhabitants have sworn allegiance to the United States.

Some Large Savings.

Adjutant-General Corbin and General Chaffee have decided upon the construction of barracks at the pumping station (about six miles from Manila) and the source of the city's water supply, to accommodate three regiments of infantry, one of cavalry and eight batteries of artillery, as well as a general commissary and quartermaster's storehouse to cost \$100,000. The erection of this latter building will reduce expenses by \$20,000 a month, being the rentals paid for the commissary and quartermaster storehouses in Manila alone. An electric railway connecting the docks on the river and the new storehouse will be constructed. Generals Corbin and Chaffee have also decided upon one single general military

hospital to replace the seven military hospitals in Manila and vicinity. One of the latter buildings will be converted into a hospital. . The reduction of the great fice of government launches and small government steamers has already begun. Permanent barracks have been erected at Dagupan to

accommodate all the troops necessary to northern Luzon. Gevornment vessels will carry supplies for the southern brigade from the United States direct to Iloilo without change at

Manila. The insular constabulary is now being organized. It will be maintained by the insular government and is expected to be amply able to preserve peace and enforce the law. This constabulary will as a general rule be armed with rifles, but its members have been given 5,000 shotguns and 2,000 ponies relinquished by the army, The telegraph system throughout the archipelago, established by the signal corps has been taken over by the civil

government.

NEW YORK, July 22.—The statement was made unofficially today that if a quorum can be secured, the new directors of the Northern Pacific will be formally elected tomorrow. It is doubted, however, if President Mellen will reach this city before Wednesday.
