"I do believe that prayer will bring rain. I think that you can pray in faith for rain. If I could look through the church history a little I could find two or three columns with instances in which people prayed for rain and had their prayers answered. I do not recall them now, but they are matters of history. People must humble themselves, confess their sins and ask forgiveness and their prayers will be answered. Rain is a blessing and we are told that what we should have we must pray for. There is no reason why we should not pray for rain the same as any other blessing. BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with

the proper action of the skin. To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of assenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove per-manently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion

Status of the Court.

A court of inquiry differs from a courtmartial in that it has no power to inflict a sentence. It is organized simply for the purpose of investigating questions of fault, but it has ample authority to make th inquiry complete and exhaustive. The nava regulations say courts of inquiry "shall have power to summon witnesses, adminoaths and punish contempts in the same manner as courts-martial; but they shall only state facts and shall not give their opinion unless expressly required to do so in the order for convening."

Recent congressional enactment conferred upon these courts ample authority to compel witnesses to testify, including civillans. An important officer of the court will be the judge advocate and recorder, who interrogates the witnesses. Secretary Long will undoubtedly take unusual care in the selection of this officer, who may be chosen from the list of captains who participated with Dewey in the Manila battle. Under the naval regulations Admiral Schley will be allowed the attendance of counsel, who will have the right to suggest questions to the judge advocate. It is not known whether Sampson will ask the priv-

flege of being also represented by counsel The sessions of the court undoubtedly will be open, although its members have the right to prevent this. There is no appeal from the decision of the court as to the exclusion or admission of testimony, questions arising as to the relevancy or propriety of which are invariably decided be-

hind closed doors. Schley Says "Tis a Pity.

NEW YORK, July 23 .- The Herald will say tomorrow: Rear Admiral Winfield Schley has asked Secretary Long to appoint a court of inquiry to determine the facts in regard to his course in the Santiago compaign. While Rear Admiral Schley will not discuss his determination, or even admit that he has asked for an inquiry, since he could not do so without a breach of naval etiquette, the Herald is nevertheless n a position to announce the fact that the application has been made.

In a small village like Great Neck, L. I. where Admiral Schley is staying with his son-in-law, R. M. S. Wortley, his presence is a matter of pride to all the townspeople, and naturally little that he does passes unnoticed. The admiral drove from Elm Point, where the Wortley cottage is situated, to the Great Neck postoffice yesterday (Tuesday) afternoon and a few minutes before 3 o'clock mailed a letter which was addressed to John D. Long, secretary of the navy, at Washington. Though the admiral would not talk of this letter, the nature of its contents was known to others in Great Neck and there is no doubt that Secretary Long, when he opens it today (Wednesday), will find in it a request for formal and official inquiry.

When Admiral Schley was pressed to make some statement of his position he wrote the following sentences:

"I really think that, as this matter i liable to take the form of a judicial investigation, I ought not to be subjected to interview. I think that action is preferable to words and I have decided to act. More than this I ought not to be expected to say. but I will add that it is a very great pity that there should be any controversy ove matters wherein everybody did his best."

The officers of the corporation as originally formed, with one or two possible inquiry from Admiral Schley he will name exceptions, will be continued by the comits personnel and issue an order for its pany and the incorporators all seem to think that the bridge will mean a grea deal for South Omaha.

It seems to be a matter of general belief that when the ferry gets to going and when the pontoon bridge is completed a certain opening up of further improvements s assured. Many believe that it will mean the immediate opening of N street or some other principal thoroughfare, while the consensus of opinion is that a Burlington station, so much talked of, and other improvements on the east side will surely follow.

THE TOMBOY.

A Kind of Girl Who Became Extinct in the Last Century.

It's a far cry from the sampler-working maiden of a hundred years ago to the athletic girl of to-day. The girl of a hundred years ago did not dare to be original in thought or action, or if she did was at once stamped as eccentric and strong-minded. Her mind was formed on safe principles. She was trained to household duties, and to accept the narrow limits in which she was to move as natural, intellectual and physical bounds of a woman's capacity. revolted from cup and ball early in the century, or later from the mild delight of croquet and wanted to run and romp, she was invariably set down as "a regular tomboy." That was a very familiar term only a few years ago. Now one hardly

her, but it was of no use. It seemed as though nothing could reach the trouble. We tried different patent medicines, but no use. When she began to complain she was quite stout; weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I must say, doctor, that only for your Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established, and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well ...

IT MAKES WOMEN WELL AND KERPS THEM WELL.

Dr. Pierce's Favorite Prescription not only gives the young woman health to begin with, but it preserves the womanly health whenever it is attacked. Under

certain conditions cold may derange the womanly health; ex-citement, shock, great grief and many another thing may be the cause of womanly disorders. At such times Doctor Pierce's Favorite Prescription may be relied on to re-establish perfect health. " Favorite Prescrip-

tion" establishes regularity, dries weakening drains, heals inflammation and ulceration. and cures female weakness. It makes weak women strong and sick women well. "It gives me much

pleasure," writes Miss Ella Sapp, of James-town, Guilford Co.,

N. C., "to thank Dr. Pierce for the great good received from the use of his 'Favorite Prescription' Golden Medical Discovery. suffered for three years or more at monthly periods. It seemed as though I would die with pains in my back and stomach. I could not rise to my feet at all without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better, had better appetite and slept better. Now I have taken two bottles of 'Favorite Pre-scription' and one of 'Golden Medical Discovery,' and am happy to say I am entirely cured, and all done in two months' time when all other medicines had failed to do any good at all,"

Sick women are invited to consult Dr. Pierce, by letter, free, and so avoid the offensive examinations, indelicate questionings and obnoxious local treatments which the home physician often deems necessary. All letters addressed to Dr. Pierce are treated as strictly private and sacredly confidential. Addrsss Dr. R. V.

Pierce, Buffalo, N. V. "Favorite Prescription " has the testimony of thousands of women to its compiete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

MANY OTHERS THINK SO.

"I think that your 'Medical Adviser' is a fine book," writes Miss Flora I. Greer, of 107 Howe Street, Akron, Ohio, "and a book that every one should own. If more girls would read it there would be healthier women and children than there are to-day."

This great work, Dr. Pierce's Common Gense Medical Adviser, containing more than a thousand large pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. There is no better popular medical work than the "Medical Adviser." Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buf-
