Mountains of Congealed Water Chipped Away Weekly in Omaha.

MILLIONS OF POUNDS ARE PACKED IN CARS

Ice Dealers Suffer Immense Loss from Melting and Other Handicaps -Packers Store Away and Use Their Own Product.

How would you like to be the iceman who supplies 8,000,000 pounds of ice every week to pack the refrigerator cars that leave Omaha and South Omaha loaded with every manner of merchandise from beer to

That vast amout of ice is actually leaving these two cities in cars every week of this hot weather. It represents an enormous bulk of the congealed moisture. If Cut Off lake were frozen solid over its whole extent a foot thick there would be just about a month's supply of ice on it at this rate. Think of a lake full of ice being melted

every month. But there is no money in it for the ice man, or not very much, at the most generous outside margin. In the first place the vast majority of this refrigerator business is done by the packing houses at the South Omaha stock yards. They own their cars and their ice, which they have packed away in straw in their own ice houses.

It is only at the local freight houses of the railroads that the iceman gets in his in other parts of the country. work, and even there he does not make such a heap of money. He does the work of packing cars by contract, being party to a business agreement with each road.

Now all the lines here run out about 100 cars a week during this hot weather and some besides this they "re-lee" in Omaha about twenty-five more each week that have run low on ice during transit through this city. This ought to mean a considerable ice business, and it does. Five hundred tons of ice a week is not such a small matter. Profit Melts Away.

But there is the waste and leakage to aceffect that there will be six cars ready to servation all the time. cars that are coming through town at that ple come to me with big things in Colorado even been talked over, much less planned. time will want re-icing.

wagons loaded. Six cars means twenty-four in every part of the country except Omaha. tons of ice and he can by no means keep I invariably tell them that my experience the trains waiting or delay the railroaders. shows that there are many men of means But they can keep him waiting all they will, and they do.

heavily laden wagons at the depot just on that it is only where long chances are to be are still under way with the Homestake time, 3 o'clock in the afternoon. If the cars taken that it is necessary to go away from Mining and Milling company, which owns are there and ready, well and good, and the home to find money to float industrial enter- the line ice goes in apace. But suppose the train is prises. Some of these long shots turn out place or ready for the icing.

away on the ground at the rate of a dollar halrbrained schemes so far away from home tively, wrings his hands in despair while gain, while all of the chances for loss are he watches the profit on the sale running in the background." away in simple little streams of water.

Ice Chunks Look Like Dice. And this hot weather it does not take long for the sun to make heavy inroads upon a few tons of ice in a wagon. With short order. So the iceman does not make | route so much money off the refrigerator car

business where they are doing it for the railroads. Private corporations, however, pay them well. A big beer house or merchandise concern which owns its cars and has them iced as it needs them gives a good chance to get even on the day, for there is no delay in such cases. The cars are there vacation. Board and lodging \$14 to \$20 a in the yards and the ice is dumped in as

fast as it can be smashed and salted. Moreover, 8,000,000 pounds of ice costs while somebody else hands it out and

It is only at the packing houses in South Omaha that the loading of refrigerator cars day. with ice is reduced to a great system. Other places in town the stuff is dumped in any old way. But is is generally broken up everywhere, especially in such hot weather. Big hunks would not melt fast enough, and so would not produce coldness in sufficient quantities per minute.

Cold Air is Radiated. But shaved or pounded ice will melt like snow almost, and when salt is added to help it along even more there is a grist

of anti-caloric produced each second that would freeze a bot spring. At the packing houses it is a pleasure to see the workmen ice the cars. There is no tossing from wagons or hiking up in buckets. The cars stand along in a row under a steel single track, which carries im-

mense buckets on hooks.

The hooks are on rollers and by this trol ley system they can be slid along the whole length of the track, dangling the buckets beneath them. These latter are just the shape of a coal scuttle, greatly magnified, with a sort of spout or scoop at one end They hold thousands of pounds of ice, but one man, walking along the top of cars beside them as they sway on their hooks, can tip them up over the teebox holes in the car roofs and slide the contents down below with ease.

MILK DEALERS FORM UNION Meeting of Dairymen at Which it is

Agreed that Prices Must

Be Increased. The retail milk dealers met Thursday evening at Washington hall and took steps to organize a union to control the price of

Sixteen quarts for \$1 was established, to become effective August 1. D. P. Brown was elected president of the organization and D. E. Fyock secretarytreasurer. Another meeting will be held Wednesday evening, at which time the organization of the union will be perfected.

In support of their action the members of the prospective union say that never in fifteen years have such conditions confronted the dealer in milk. The pastures are exhausted. The price of grain has advanced beyond all precedent. Those who handle milk from the farmers are forced to pay so much for it that half of the dealers would be driven out of business if there was no advance in the price to the con-

BIDWELL IS NOT WORRIED

Sale of Black Hills & Fort Pierre Road Causes No Anxiety.

Manager Says Traffic Arrangements Will Not Be Materially Affected by Sale of Black Hills Line to the Burlington.

Northwestern and Elkhorn officials are uffering no anxiety over the reported purchase by the Burlington of the Black Hills & Fort Pierre road, despite the fact that the line has for years been extensively tributary in traffic to the Elkhorn at Piedmont, the point of interception and the southeast terminal of the hill road.

Since the deal became a matter of general credence the newspapers of that sec tion have been giving much space to stories of how hard the Elkhorn was hit by this sale, how it would lose all its transfer traffic at Piedmont and how it would be We will give them proper legal insertion. compelled to build at once a track of its Telephone 238. own from Central City, the nearest point into Lead in order to get a hand in the traffic from there. It has even been published broadcast throughout the hills that the Elkhorn had already surveyed up Poorman Gulch in anticipation of this purchase, "I do not see why we should be particu-

which it had been expecting some time. larly worried," said General Manager Bidwell of the Elkhorn. "It will certainly not affect us to any great extent. We have always had considerable traffic at Piedmont with the Black Hills & Fort Pierre line, both passenger and freight, the latter being investments I could mention which largely mineral. This business will continue, no matter who owns the road. As long as we can offer to any road at a junction 50 per cent more than it can give in Two years ago there was a man in this city return it will be glad to continue the relations. No matter who owns or operates the railway stock. The stock at that time could Black Hills & Fort Pierre line, we shall be purchased at \$40 a share. Since that still have much more trade to give them time it has paid dividends equal to 10 per than they can deliver to us, and they will cent on the investment, and the stock to- not withdraw their own under such circumstances.

"There is no truth in the statement that the Elkhorn has any intention of building up to Lead at once a line of its own. Such a project is not in existence and has not

there with this scheme in view. No Word from Holdrege.

No word was received at Burlington headquarters this morning from Mr. Holdrege here whether it has yet been consummated.

After this deal is concluded, Mr. Holdrege late of the cars on the track not yet in all right, but the majority of them fail, will continue on westward over the line, You do not hear of the failures, but you do going as far as Sheridan. He will not be There the wagons of ice stand in the hear of the successes. Then there is a back in Omaha for a week. people who don't care how things SATURDAY WE'LL SELL LAWN KIMONAS AT \$1.50 that look right because cut right and well made in handsome patterns and appropriately trimmed. We have

other thin goods ready to wear that

will save you money, work and worry

Would afford no more satisfaction to

the wearer. Occasionally you'll find

SCUFIELD CLOAK&SUITCO.

The moon tipped over And had a ring around it. Prof. Hicks says we're going to have great cyclen's disturbances in the next few days. Perhaps this was the cause of the mon getting off its troiley. We advise the man to the moor to be more careful in the future. For more particulars about the moon call on us.
