WHITE MEN'S BLOOD BOILS AT BARBARITY

Meanwhile the Empire Wastes Ten Millions a Week and the Enemy Gets Nearer to Capetown Than Ever Before.

(Copyright, 1961, by Press Publishing Co.) LONDON, Aug. 3 .- (New York World Cablegram-Special Telegram.)-Colonial Secretary Chamberlain has succeeded in bringing the long smouldering Maltese language question to a dangerous crisis. After negotiations extending over two years with the local Maltese authorities, marked by the same irritating arrogance as in his dealings with Kruger, he has decreed that English shall in future be the only language the Maltese courts, and that the biflowual system in the schools shall be abol-

As one of the chief grievances of the Uttlanders was that Dutch was the only language of the Transvaal courts, Mr. Chamberlain's inconsistency is startling. The Maltese assembly has retorted by refusing supplies and Mr. Chamberlain, as in South Africa, is raising money by uncon-

stitutional expedients. Malta, which for a century has been a loyal dependency of the British crown, has been driven into a passive revolt after two

years of dealing with Secretary Chamber-

South Africa's Black Ontlook.

The South African outlook continues to be unrelieved of gloom. Chancellor of the Exchequer Beach has been forced to admit not \$65,000, as was estimated by the War slightest encouragement that it will end be-

It is believed in military circles that the entered upon their most obstinate stage. The rebellion in Cape Colony is steadily betion caused by the inexorable treatment of the rebels. The Boers have been nearer Capetown in the last fortnight than at any time during the war.

Civilized Warfare Abandoned. Though Commander Kritzinger's shooting of General French's native acouts

arouses a furious protest here, the avowal that England has enlisted savages to aid exterminating the Boers has given the nation a nause. This is not only a violation of the war, but it is contrary to all civilized usages. Still the natives have rendered service

after their kind to the British forces on the Swasiland border. They were employed both in the relief of Mafeking from the north and by General Baden-Powell in defense of that place.

None know better than the British in South Africa that when you put arms into returning from a series of conferences the hands of the natives and send them with the pope in Rome, says the sovereign to fight it means that every rule of civilized warfare will be abandoned, that no quarter will be given, that the wounded will be murdered and that other nameless horrors will be perpetrated.

For This French Was Shifted.

General French himself sent Zulus to harass the Boers in northeastern Transvaal by raiding their cattle. He was shifted from that command in consequence of it, owing to the protest from the Natal government

Both sides have used natives with their transport trains, but General French has been the first to acknowledge that he em ployed them as scouts. The Boers think they have enough to face England's 250,000 hordes of black barbarians.

Another British Blunder. The British policy of replacing regulars

by yeomen proved disastrous. Lord Kitchener has sent home a large percentage of the yeomen recently shipped to him because their inveterate habit of surrendering.

Forest Fires in Germany.

BERLIN, Aug. 3 .- A terrible fire is raging in the extensive pine forests near Kalden Kirchen, on the Dutch-Prussian frontier. Firemen from all the neighboring villages, aided by the inhabitants. headed by their burgomasters, are at work trying to check the flames, but so far with out success. Several thousand acres of valuable timber have been destroyed. Train service through the district has been suspended, as the fire has reached the rallway track. The damage so far amounts to about 1,000,000 marks. A stiff north wind is blowing and it is feared that the fire will reach the extensive forests in the Aix-la-Chapelle

A glance at the total amount of building permits for the three months and the amount of dwelling house permits for the same period shows that the permits for residences make up two-thirds of the entire amount. For the corresponding months of 1900, the value of the residence permits was only one-third of the value of all permits

issued. Thy new dwellings are not confined to any particular section of the city. A resume of the improvements shows that the growth is quite uniform throughout the only event of importance being the residence sections. Kountze Place, Bemis Hill and other well known localities, all

There is an unusual activity, however, in inside property and many flats are building within walking distance of the postoffice. Within the fire limits the residences in ourse of construction are few. A change in the fire limits is contemplated that certain districts which are now at a standstill

Present Strike Makes the Way Appear Long. SAN FRANCISCO, Aug. 3 .- A settlement of the labor trouble in this city seems reto bring the Employers' association and has placed itself in a position to extend the strike, and if no peace basis is established before Monday that body will assume control, with the power of calling out every union in the city, involving nearly 40,000 men. The Employers' association is firm in its determination to deal with employes directly and not through the unions, and the employes insist on a full recognition of their unions. The difference over the question of unionism seems irreconcilable and the indications are tonight that the controversy will be prolonged, settling down at length to a question of physical

endurance. In accordance with the recommendations f the Typographical union the president of the council has been authorized to appoint committee to ascertain the names of the nembers of the Employers' association and to institute boycotts against them. The attitude of the Draymen's association toward the Brotherhood of Teamsters is unchanged and unless the striking teamsters yield to the association the privilege of ignoring the union at any and all times the hope of a reconciliation seems slight. The 'Longshoremen's union has appointed

fifty extra pickets and adopted resolutions censuring all persons who have engaged in quarrels with nonunion men or the police during the strike and calling upon all union men to do all in their power to preserve the peace. WITH TREASURE
