"American Sheet Steel Company Com-pany should sign the scale for all the mills of this company that were signed for last year, except the Old Meadow mill and the Baltsburg mills." Strikers' Proposition.

The strikers' proposition:

We desire to preface our proposition by directing attention to the fact that it is a modification of that which was offered originally. At the last conference, as at those preceding it, we required the signature of the scales for all the mills owned and operated by the United States Steel corporation, while in the proposition given below we ask that the scale be signed for none but those mills which are organized and where the men ceasing to work have signified their desire to be connected with the Amalgamated association.

(This modification has been made because the trust officials declared that we wish to force men into the organization against their will and desire. We therefore asked that the scale be signed for only those men who desired it.)

Association's Proposition.

Now comes the proposition of the Amalgamated association:

We, the members of the executive board of the Amalgamated association, hereby present the following proposition as a reply to that received from the United States

#### Can Keep Cool

If You Know How to FEED YOURSELF.

(Reasons below.)

Try GRAPE-NUTS.

#### HOT WEATHER FOOD.

The selection of food for hot weather is an important question. We should avoid an excess of fats, cut down the butter ration and indulge more freely in fruits and food easy of digestion. One meat meal per day is sufficient during hot weather.

An ideal breakfast is Grape-Nuts, treated with a little cream (which, by the way, Totals .. 7 11 36 18 0. Totals .. 4 9 36 25 6 supplies the necessary fat in a very digestible form) a cup of Postum Cereal Food Coffee, hot, or if cold, it should have a little lemon juice squeezed in; then some fruit, either cooked or raw; also perhaps two slices of entire wheat bread with a very thin spread of butter. A breakfast of this sort is so perfectly adapted to the wants of the system that one goes through the heat of the day in comfort as compared with the sweaty, disagreeable condition of one improperly fed. Once put in practice, the plan will never be abandoned during the hot days, for the difference in one's personal comfort is too great to be easily forgotten.

## Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system-clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous,

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement. "We regard it a

great tonic and bloods

purifier."-J. F. Dupp, Trinceton, Mo. is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates

through all parts of the system. S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice anted. No charge for medical advice.
