Not Much Increase in Business, but Feeling Decidedly Better.

GROCERIES ARE ADVANCING RAPIDLY

Hardware Market Very Unsettled Owing to Strike and Local Jobbers Find Themselves Unable to Secure Stock.

There was not much change last week in the volume of business transacted by local jobbers. There was, however, a decided improvement in the feeling existing among all classes of business men. It can mafely be said now that confidence in fu-ture business is restored and that jobbers and retaiters in general are convinced that their fall and winter business will be fully up to their earlier expectations. Their hopes were, of course, temporarily shattered by the dry, hot weather, but now that they have had time to give the matter careful

have had time to give the matter careful consideration and to look into the resources of the state they find that in reality they have no cause for complaint. Farme, they say, have more money in the barks of the state than they ever had before, there has been the biggest wheat crop on record, which it is thought will bring exceptionally good prices, and the corn crop, while probably considerably below the averue yield, will, nevertheless, bring to the farmers or sconsiderable revenue owing to the high prices. Taking everything into considerably below the averue of the considerable revenue owing to the high prices. Taking everything into consideration jobbers and manufacturers figure that there is enough purchasing power in the gitter of Nebraska to make business as good this year as it was last. They are conducting their affairs on that basis and sie making extensive preparations for a big trush a little later in the season.

Advance orders are still being shipped out at a rapid rate and a number of the wholesale houses now have the big end of their orders filled, as they have been working their men overtime tor several weeks. In a short time now they expect to have those all out of the way, when they will be ready to handle immediate business in first class shape.

There were two important features to the is their men overtime for several week,
i a short time now they expect to have
tose all out of the way, when they will
b ready to handle immediate business in
ret class shape.
There were two important features to the

chere were two important features to the general market list work which should be noted. One is the effect the dry weather is having on the grocery market, and the other is the effect of the strike of the metal workers on the hardware market. As defrom those the general market has been just about steady, though prices are being held good and firm.

Canned Goods Still Advancing.

A week ago the grocery market was reported as advancing at a rapid rate, owing to the dry weather, which had materially reduced the amount of vegetables and small fruits that were available for packing. The same conditions still exist, only perhaps in a more marked degree, as the true conditions are now better known than perhaps in a more marked degree, as the true conditions are now better known than they were a week ago. There is no doubt now but that the pack of corn, tomatoes and small fruits will be exceptionally light and many predict that prices during the coming season will be the highest ever known. Already many lines have reached the highest market reported in a long period of years. Sweet corn was seriously damaged all over the country, as that is earlier than the field corn, and for that reason felt to a marked degree the effects of the drouth and heat. Prices on corn have been going steadily upward and have now reached \$80000 per dozen for standards. Tomatoes have also advanced sharply and standards are held at about \$1.05. Canned peas are in a very strong sharply and standards are held at about \$1.05. Canned peas are in a very strong position, though they have not advanced as rapidly as some other lines. All small fruits are much higher than they were a week ago and are still advancing, and the same is true of wax beans.

California canned fruits are also on the up grade, owing to the shortage in eastern fruits and to the present for higher prices.

fruits are much higher than they were a week ago and are still advancing, and the same is true of wax beans.

California canned fruits are also on the up grade, owing to the shortage in eastern fruits and to the prespect for higher prices. Gallon apples are very strong and higher prices are new quoted than those in force a week ago.

The dried fruit market is also going up. The California Cured Fruit association withdrew from the market on prines last week entirely. California evaporated apricots were advanced ½c last week, peaches le and pears 1½c. Even at those prices good stock, it is claimed, is difficult to obtain. Dried apples are also scarce and hard to secure at any price.

Nearly the entire line of farinaceous goods is higher than it was a week ago. Rolled oats advanced very sharply the first of the week, but receded a trile later on, but prices are still 10%15c higher than they were a week ago. Sago and taploca are also considerably higher than at last. they swere a week ago. Sago and taploca are also considerably higher than at last report and the same may be said of nearly all kinds of farlnaceous goods. Owing to the reported shortage in the potato crop, hand-picked navy beans went up at a rapid rate last week.

Syrups of all kinds are higher and the same is true of starch. The dry weather injured the pastures of Wisconsin to a considerable extent and as a result cheese is advancing, owing to the reduction in the supply.

ne supply. Sugar and coffee are two of the few taple lines that have not changed during the week.

A Shortage in Sight.

A Shortage in Sight.

Local hardware jobbers report business for the last week as being fully as good as they could reasonably expect. Retailers are now sending in quite theral orders and they all seem to be counting on a good fall demand. The one item, however, which hardware men are laterested in is the strike, which promises to create a shortage in many lines of manufactured goods. The effect is already beginning to be felt by local jobbers to a considerable extent, as they are unable to get many lines of goods fast enough to fill their orders. The strike off course ties up the sheet iron, timplate and bar iron mills, which influences the market on all the goods manufactured from those lines. Not only does it affect the more common lines, but a thousand and one articles that would, ordinatily, be classed as products of bar iron, sheet iron and timplate. For example, the manager of a local jobbing house said that he was unable to get a shipment of grindstones simply because the strike had cut off the supply of one little piece of metal used in the framework. In the same way haves are affected, so that it may be said that almost the entire hardware market is more or less influenced by the strike. Those who are best posted are predicting a shortage in goods, even if the strike as settled in the near future, that is, if the dem nod keeps up to what is now expected. Mills were having more than they could so to meet their requirements before the sirile and now they will be so far behind that there is no telling when they will catch up. It may be said that the general market is in a very strong position, with the tendency decided in a hover of higher prices. Galvantzed from advanced by time would cause no surprise.

Rusbiag Out Fail Goods.

Rusbing Out Fall Goods.

There have not been very many dry goods merchants on the market this week, but they are expected to arrive in the near future in large numbers. Reports from traveling men are very encouraging and they all indicate that more merchants will be the company to how their fall stocks. they all indicate that more merchants will come to Omaha to buy their fall stocks this year than have done so before. Jobbers for that reason are rushing out their advance orders at a rapid rate, so as to be in shape for the buyers when they do come. Merchants were a little uneasy, to be sure, before the rains, but now they are feeling good and are going to carry good, liberal stocks. Buyers from the far year are still coming in and are beying still coming in and are baying

west are treely.

There is no particular market news this week, as all thos remain practically the same as they were a week ago. Eastern markets are in good shape and manufacturers are holding their lines at good, firm prices, so that the outleack for a healthy, firm market for some time to come is very encouraging.

Making Their Usual Rounds.

Traveling men for local boot and shoe houses are once more making their usual rounds. They find merchants much more willing to place their orders than they were a short time ago and are in fact meeting with very good success in landing the late buyers. They are going after the few merchants who cancelled their orders and as a general thing are bringing them back into line without much difficulty. difficulty.
Several of the jobbing houses report that they have shipped the bulk of their advance orders and that is a short time the will be through with that part of the fall

Fruits and Produce.

There has been a very fair demand for fruits and vegetables of late, so that prices are still at a high level for this time of year. A few lines have declined a trifle, owing to the rains, but as a rule prices are very near as high as they were a week ago. The quotations at which the different lines are selling on this market will be found in another column.

There was an active demand all the week for fruits, but prices did not show much variation. Berries are now out of the market.

Oil and Rosin. last report, spring chickens being down to OIL CITY, Pa., Aug. 3.—OILS—Credit bal11@12c and here selling at 61-c. Eggs are ances, \$1.25; certificates, no bids; no runs quoted at 10@104c, the same as last week, or shipments reported.

CONDITION OF OMAHA'S TRADE and the quality is very poor, as the hot weather stock is still ceming on the market. There is no change in butter. OMAHA WHOLESALE MARKET.

St. Joseph Live Stock Market.

Stock in Sight. The following table shows the receipts of cattle, hogs and sheep at the five principal live stock markets August 3:

Cattle. Hogs. Sheep.

Coffee Market. NEW YORK, Aug. 3.—COFFEE—Today's market was a small and bearish one. The opening was dull with yesterday's prices in force, but prices soon settled in the absence of bull support and under pressure from the bear side until a decline of 5@19 points was noted. Cables were about as extended, showing improvements in demand and loss in Brazilian demand. Receipts in the crop

The spot altuation locally was practically unchanged. The market for futures was finally quiet and net 5910 points lower, with sales of 12,750 bags, including September at 4.30c; October, 4.30c; November, 5c; December, 5.15075.20c; January, 5.25c; March, 5.30c; May, 5.4045.50c;

Duluth Genin Market. DULUTH, Aug. 3.—WHEAT—Cash. No. 1 hard, 714c; No. 1 northern, 69c; September, 684c; August, 684c; October, 684c; December, 694c; No. 2 northern, 64c, OATS-35c.

OF BEAUMONT.

CLOSE OF OFFERING AT 60c AUG. 10.

The amount of stock allotted for sale day at 60c having been nearly subscribed for, the offering at this price will be closed as above, and the price will

ADVANCE TO 75c PER SHARE.

All who wish to secure stock in this company at the lowest possible figure should send in their subscriptions without delay. Applications by mail must bear date AND POSTMARK not later any corporation doing business in Texas. than August 10th; those by wire must reach our office by the close of business. 6 p. m., on that day.

The right to reduce or decline any subscription is expressly reserved. All applications will be stamped with the exact time of receipt, and allotments

made accordingly, until only 5,000 shares remain. In order to give all a fair and equal chance to secure an interest in this company these 5,000 shares will be reserved to be allotted pro rata among

applicants whose orders arrive too late

to secure the full number of shares

The Export Company's Spindle-Top Heights well is now down nearly 600 feet, with 10-inch casing. Driller Sharpe expects to finish with 8-inch pipe, making it the largest well in the field.

This is the well which the Heywood Oil Company (which has already brought in

three gushers for itself) offered to drill and guarantee a gusher or no pay.

It is on the land of which Mr. W. T. Campbell of the Citizen's National Bank, Beaumont, writes: "In my opinion you are as certain of a gusher as though the well was now drilled and spouting oil."

The average gusher flow is 45,000 barrels a day. In all the company's calculations of profit

they have based their figures on a flow of only 10,000 barrels. ONE such well means a million dollars yearly income. The company has ample room on its Spindle-Top Heights property alone for SIX wells.

ONE well, with a 10,000 barrel flow, will pay dividends of 80 per cent on the present price of stock, 60c per share.

The company has over 11,000 acres outside of Spindle-Top Heights, including sulphur lands at Sulphur La., which are believed to centain enough sulphur to pay back its en-tire capitalization. Its capital stock is \$2,000,000, divided into 2,000,000 shares, of the par value of \$1.00 each, full paid and non-assessable.

cach, run paid and non-assessable.

It is officered and managed by men of the highest ability and integrity.

Its president is Hon, Charles A. Towne, ex-senator from Minnesota, and among its directors and largest shareholders is Hon, Benton McMillin, Governor of Tennessee.

No company outside of those already producing oil offers a greater certainty of rich returns in the Texas oil fields than the Export Oil & Pipe Line Co. Comparing its present condition and its prospects with those of other successful oil companies, we see no reason why its sharea should not be worth 10 times par at least.

We believe it is the best investment be-fore the public today. Subscriptions should be sent either to the company at Beaumont. Texas, or to its Fiscal Agents as below, with check or drafts payable to the order of. Sanford Makeever

Gen'l Agent for Nebraska. If so, speculate successfully, Send your
