Nebraska Authorities Revoke Certificate of Security Mutual of Omaha

CHARGE AGAINST OIL INSPECTOR GAFFIN

Successful Raid Against Unlawful Fishermen-Rules Formulated for Adjusting Contests in Laneaster County.

(From a Staff Correspondent.) LINCOLN, Aug. 3 .- (Special.) - Auditor Weston and Insurance Deputy Babcock this afternoon issued an order revoking the certificate of authority, which was given the Security Mutual Fire Insurance company of result of a report submitted by Insurance company was insolvent and that it was transacting business in violation of two sections vention assembles.

of the law under which it was organized. Attorney General Prout said this afternoon that he would begin proceedings in the 13. They will be voted upon the following district court of Douglas county next week to compel the officers or members of the ballots. In all precincts where there is company to appear and show cause why a a contest for the delegation the candidates receiver should not be appointed to close will be elected by the Australian ballo

The order issued by the auditor will compel the company immediately to suspend business. In the insurance department it was said today that the officers was run down by a horse and buggy las were notified that they would have to night and seriously injured. He was rid change their methods of doing business or ing a bicycle and was rapidly speeding suffer the consequences of revocation of authority to write policies. No effort was made to comply with the law and several days ago Examiner H. S. Wiggins was sent to Omaha to make a thorough examination of the books and records of the company. The result of the examination is given in the following communication from Insurance Deputy Babcock to Attorney General

Officire Report.

Some time ago we directed Mr. H. S. Wiggins, our examiner, to examine into the affairs of the Security Mutual Fire Insurance company of Omaha and report his findings to this department when he come idented by the week. indings to this department when he com-pleted his work.

I herewith hand you a copy of his report, which, after examination, we are of the opinion that this company is not doing busi-ness in accordance with the provisions of chapter 45, session laws of 1857, the law under which it was incorporated and his had authority to transact business. The report shows:

had authority to transact business. The report shows:

1 That the company is insolvent, the liabilities exceeding the assets by \$1,280.19.

2 That said company has, since January 15, been writing business in violation of section 10 of the act above mentioned which says: "It shall be lawful for such companies to insure property only within the corporate limits of cities or villages 1 the state of Nebraska." Of the 127 p lices written since January 15-193 are upon property outside of the state of Nebraska and four of this number are marine risks covering steamboats engaged in inland navisation.

H. Kuhns, Reed Dolan and R. C. Burke. Treasurer Stuefer today issued a call for \$75,000 of state warrants, payable August 15. The call includes all warrants registered from 71924 to 73551.

Governor Savage today appointed Levi C. Fisher of Geneva special bee and honey inspector for Fillmere county.

An invitation to address the reunion of the Nebraska department of the Grand Army of the Republic at Hastings on August 29 was accepted today by Governor Savage. That said company has violated section

3 That seid company has violated section 3 of the law above mentioned, which says: "All persons who effect insurance in any company organized under the provisions of this act shall thereby become members of such company and continue to be during the period their insurance is in force, and no longer. All persons so insured shall give their obligations to such company in an application, binding themselves, their heirs, executors, administrators or assigns to pay all legal assessments made upon them by such company. They shall also at the time of effecting the insurance pay such an amount in cash as is provided for in the bylaws." It appears that most of the business for some time has been with the insurance brokers of Chicago and New York, who cannot become members of the company as above provided, and are not required by the company in "give their obligations to such company in an application" and they have not been assessed like members of the company.

4 That the organization of the company seems not to have been in the best of faith. July 2 1900, authority was granted 175 incorporators to commence business. The first aspessment was called October 23, 1910, and out of the 175 incorporators, who wanted

first aspessment was called October 23, 190, and out of the 175 incorporators, who wanted insurance, only seven paid the first awarshment and none of the officers of the company. By this it is clearly shown that the organizers and incorporators were not organizing the company for their own insurance.

5. That the object of the organization seems to have been for profit to the management. The officers and managers have used for expenses and salaries more than has been received from the policy holders, as shown by the report of the examiner, as follows: Total expenses and salaries, \$2,28.32 received from members, \$2,365; expenses in excess of receipts from members, \$22.212.

We are of the opinion that the condition

We are of the opinion that the condition of the company does not justify its continuation and recommend that proper proceedings be commenced for an order requiring said company to show cause why a receiver should not be appointed to close up its affairs.

The Security Mutual Insurance company is not a large concern and the suspension of its business will affect only a small number of persons. The policies were held mostly outside of Omaha and were for small amounts.

Gaffin Notified of Shortage.

An investigation of the books and records of the state oil inspector's office has shown that former Inspector Gaffin received approximately \$700 as fees, which were not properly accounted for nor of which any portion was turned into the treasury. Mr Gaffin has been notified of the shortage and if he fails to make a settlement within a reasonable time proceedings to recover the money will be instituted in court. One instance of misappropriation of funds

is found in the item of office expenses. Mr. Gaffin entered a charge of \$50 monthly for the salary of stenographer, but evidence obtained shows that only a portion of this money was actually paid as salary, the remainder being unaccounted for except as charged on the books. Mr. Gaffin was appointed oil inspector by

Governor Poynter and he held office until May 1, when he was relieved by E. R.

Older Law.

The officers of the Security Mutual Insurance company, against which the state officials took action yesterday, are given on the state books as follows: D. P. Teter president; A. L. Mr. Wernimont is at Carroll, Ia., on business and the other two had heard nothing last night of the action of the state auditor in bringing the company's affairs to a

officer or member of the company. In explaining his reasons for wishing to withdraw from the company Dr. Teter said that it was organized under the 1897 law and that every member of the company is held to be a stockholder in the sum of his insurance and is responsible individually for the company's losses up to the amount

of the face of his policy. "It was our intention to reorganize the company under the law of 1873 or rather to establish a new company under the law o that year and take all the business of the Security company," said Dr. Teter. "Under the law of 1873 policy holders are not liable for more than the amount of their premium. I know of only one loss of the Security company which is unpaid and supposed there was plenty of money to pay that. It was disputed for some reason. In January the company was carrying about \$300,000 worth of insurance. I don't know what

amount it has at present." New Opera House at Columbus.

COLUMBUS, Neb., Aug. 3 .- (Special.)-The contract for the new opera house was awarded to O. J. Scott of this city. When the bids were opened last Monday, it was found that the lowest bid was \$1,800, above the means of the company and that amount was raised among the stockholders by extra subscription. Architect Voss explained that the difference was caused by the advance in both material and labor since the plans were drawn. The building will cost when completed \$23,000. The work will be commenced at once. By a unanimous vote of the stockholders, it will be named the 'North Opera House" in honor of James E. North, a pioneer resident of this part of the state and one of the chief promoters of the enterprise.
