What are Humors? They are vitiated or morbid fluids coursing the veins and afflicting the tissues. They are commonly due to defective diet, but sometimes inherited.

How do they manifest themselves? In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor and general debility.

How are they expelled? By Hood's Sarsaparilla which also builds up the system that has suffered from them.

It is the best of all medicines for all humors.

ANIMUS BEHIND THE WRIT

Seize Ecomes Arbitrator of Morn's to Force Payment of Illegal Claims. CHIEF DONAHUE MAKES A STATEMENT.

Ready to Comply with Order of Court, but Refuses to Allow Seizure to Make Public Official a Private Collection Agent.

All Out of Jail. From Wellsville, O., the following report is made: "The last four of the striking steel workers who were arrested Saturday, charged with riot, were released from jail late this afternoon upon bail. There are seventeen more of the strikers. The officers, for some reason, seem to be afraid to serve the warrants. Henry B. Henderson, a potter, for whom the police have a warrant, has been trying to get himself in the way of the officers all day to have them arrested, but they do not do it for the reason that Henderson is backed by the National Brotherhood of Operative Pottery, and the officers fear the vengeance of the potters once they are aroused, as they would be if one of their number were put under arrest. Secretary Duffy of the potters, when told that the contractor who had had any intention of calling its members out in sympathy with the steel workers, though he said the brotherhood would extend them both financial and moral aid.

There were four new men brought into the mill from Scottsdale today and four of the strikers, who were not doing any work, had any intention of calling its members out in sympathy with the steel workers, though he said the brotherhood would extend them both financial and moral aid.

To the Venezuelan Patriots: The sacred territory of the fatherland has been invaded by an army of Colombian mercenaries, led by the traitor, Carlos Rangel Garribas and they have entered by Urena and San Antonio.

In rebelling against the republic, which affects the honor and peace of the republic, I inform you that the man primarily responsible for the fact of Venezuela and its people has been taken to rebel this grave attempt.

In order, therefore, to facilitate the exercise of the national authority as commander-in-chief of the Venezuelan army and at the same time to enable me to fulfill my duties as president of the republic, the national executive has made use of its power conferred on it by section 21 of article 88 of the national constitution and has suspended those persons who guarantee the exercise of which may be incompatible with the duties of the public order.

At the same time I have ordered 10,000 troops of the army of the republic to be immediately to San Cristobal to support the authority of the president of the state and to defend the integrity and the integrity of the national territory to be respected.

The government and the army are both prepared and informing you of this I swear by both and in the name of the republic that I will not be satisfied until the traitors who are the cause of this state of affairs are removed from the country and have their right notions of honor and duty.
