STANDARD OIL IN DEFENSE

Vice President of the Company Replies to Monnett's Attacks.

WASHINGTON, Aug. 6.—A special committee of the industrial commission met today to begin work on the draft of the report to be made to congress at its next session. Several affidavits were received and formally accepted by the committee for inclusion in its report. John B. Archbold, vice president of the Standard Oil company, in an affidavit vigorously attacks the affidavits submitted last June by former Attorney General F. S. Monnett of Ohio, Charles B. Matthews, M. L. Lockwood and J. W. Lee, declaring that Mr. Monnett in his reiteration of charges reflects on the purity of the Ohio supreme court. He characterizes as false the charges of attempted bribery by Mr. Monnett against Standard Oil company, and Mr. Monnett's sworn statement that instead of the trust court investigation, it deliberately evaded and suppressed an investigation of these proper charges. He says Mr. Monnett "did give notice that he would take testimony before a notary public, a proceeding he knew to be illegal, preposterous and contemptuous."

Schlitz The beer that made Milwaukee famous

You drink some beers that cause bilious headache. Perhaps you think that all beers do. The cause of biliousness is the lack of age—too much haste to put the beer on the market. To ferment beer thoroughly requires a process of months. Without it the fermentation takes place in your stomach. That is the cause of biliousness.

Never Causes Biliousness
