GRAFTERS' GAME IS FOILED Find Hotel Clerk Unwilling to Give Up Cash Without Good

Reason.

Council Bluffs in the wake of Buffalo Bill's show tried to work Chief Clerk Annis of the Grand hotel yesterday to the tune of \$12.50, but their play was a trifle coarse and they failed to get the money. The game they tried to work was a new one here, but Mr. Annis has had several "experiences" since coming to Council Bluffs which have made him more than usually cautious. "Once bit, twice shy," is a favorite axiom with Clerk Annis and the fact that he is not out \$12.50 in hard cold cash is due to this.

About 2 o'clock yesterday afternoon a young fellow, fairly well dressed, called at the hotel counter and told Mr. Annis that Colonel Cody was expecting a package from a well known clothing house in Omaha on which there would be \$12.50 charges and that Colonel Cody would be obliged if Mr. Annis would pay it and charge it in his bill. Clerk Annis was busy at the time and did not vouchsafe the young man an immediate answer. When he turned around

he front door. young fellow turned up with a package which he said was for Colonel Cody. Mr. Annis took the package, when the young fellow remarked that there was a charge of \$12.50 on it.

"Where is the bill?" asked Clerk Annis. "Inside the package, I presume," anwered the young man.

"Well, I can't pay the bill until I see it," said Mr. Annis and he made as if to open the package. He partially succeeded in opening it when the young fellow grabbed it, saying: "I guess I had better deliver it at the show grounds." Snatching the package out of Mr. Annis' hands the young felunable to follow him.

From the appearance of the package Mr. were confirmed later when on making inquiries he learned that no package had been delivered to Colonel Cody at the grounds and that the colonel was not expecting any such package from Omaha.

DRAWS PLANS FOR THE CAMP

Engineer Judson Designs to Have State Soldiers in Comfortable Quarters.

Assistant City Engineer Judson completed yesterday the drawing of the plans for Lieutenant Seth Dean for his approval. Lieutenant Dean of Glenwood has been directed by Adjutant General Byers to lay out the camp for the brigade encampment and will be in the city Friday for this purpose. He is in the engineers' corps of the Iowa National guard and at his request Mr. Judson, who served with the Fifty-first lowa volunteers in the Philippines, has enlisted as sergeant of engineers and will assist in laying out the camp.

The camp will occupy seventy acres of grassland one mile south of the city limits and about half a mile from Lake Manawa. The camp proper will be located east of the county road to Manawa and will occupy about forty acres. The parade and drill ground will be west of the county road and will comprise about thirty acres. A surface pipe line for supplying water will be laid due south from the Wabash roundhouse at

the city limits. The camp will face west. Facing the road and nearest to it will be the brigade headquarters. After issuing the official call for next 700 Saturday night President Shaffer said: "At noon today I called out all the men employed in the Newcastle mills of the National Steel company. They will stop work at 12 o'clock tonight. My purpose in doing this was that I learned that the trust has been piling up union-made bars in the old housings in the dismantled Jennings mill for the purpose of supplying the non-union mills when the plants shall be shut down. It was a clever trick, but it did not work. The trusts will need what bars it has stored now bad enough before they are through with this strike. After sending this telegram to Newcastle I received a reply which read as follows: 'Mill will close. Men are all firm.

"This will bring about 1,500 men out that plant of the National Steel plant in that town. You see, we have to be on the watch for just such moves by the trust as this was. We know what is going on just as well as they do and are fully prepared to meet every move they make."

All Classes Affected. Discussing the feature of the strike that would bear directly upon the prosperity of the country, President Shaffer said:

"The closing of all these mills will b felt by all classes. It will stop production and this will stop commerce. The effect will be bad and no one realizes it more tried to avert by every means in my power the carrying out of this project, but it was of no use. Right must triumph, however. It will triumph in spite of the trust saying that union men cannot exist in their mills. TAMPA, Fla., Aug. 6 .- The strike situation tonight is one of bewilderment on the part of the strikers and immovable detetrmination on the part of the citizens. No word has been received from or about the Resistencia leaders who were deported been fighting for a nine-hour scale. The last night, as the vigilantes are sworn to Buffalo men have rebelled and, knowing secrecy, further than that they admit the men will never return to Tampa. The exact lodges which were dissatisfied with O'Connumber of the men deported is not yet known, but every prominent leader of the strike is missing . It is said that others are marked and that deportation may take place

brough the streets and snatched the men from the crowds. They were placed in carriages that had been provided, between heavily armed guards, and driven away. The captured leaders were at once driven to the county fail, where they remained on the outside under guard for a few minutes. Then they disappeared and have not been seen or heard of since. Various rumors as to their disposition have been circulated in the city today, it being most generally reported that they were taken into the gulf in an unknown and mysterious vessef. All of the deported strike leaders were Spaniards and Cubane. The boldness of the whole affair and the accomplishment

of the remarkable features. It develops tonight twelve more strikers who were among the sub-leaders were deported this afternoon and tonight. Some of the strikers have held a number of meetings secretly and have conferred with the lawyers with a view of taking some action. No one would take the case. They have also appointed new committees and in the case of each committee five different ones were created. A proclamation was issued here this afternoon signed "The People of Tampa." It says in part:

SAN FRANCISCO, Aug. 6 .- The only de velopment of importance in the labor situation today so far as the extension of strikes is concerned was the walkout of more than 400 union box-makers who had been employed at the various box factories of the city. The men assert that they were so often urged to sign an agreement which meant their resignation from the union that they decided to no longer brook the menacing attitude of their employers and o join the forces of the idle.

Mayor Phelan declares that as far as be s concerned peace negotiations are at an end, he having done all that he could to bring about a conference.

The Municipal league is hopeful that a conference can yet be arranged and it has been suggested that Governor Gage be urged to assume the role of mediator. There were the usual daily assaults on nonunion workers. Two came near ending

Samuel Cole, a striking teamster, was shot in the breast and badly injured by Henry Davis, a nonunion teamster. According to Cole's story he was arguing with Davis, who drew a revolver and shot him. J. Watt, a nonunion teamster, when going to work was met by a union man, who tried to dissuade him. On Watt's refusal the union man struck him in the neck with a rock. Watt drew a pistol and shot at his assailant. Watt was watching the man run when two shots were fired by some one in crowd on the other side of the street at Watt. Do Not Intend to Give Steel Strikers More Than Offer of Financini Aid.

INDIANAPOLIS, Aug. 6.—The national executive board of the United Mine Workers confined itself today to a consideration of labor troubles affecting the organization. The continued absence of President Mitchell, made necessary on account of the illness of his child at Spring Valley, Ill., prevented the board from taking up any discussion of the steel workers' difficulties. The members of the board are unanimous, however, in their assertions that this action, whenever it comes, will not be of a strike nature. At the farthest, it will be merely the proffer of financial assistance

and moral support. The board acted upon the local troubles at Belleville, Ill., where 200 miners have been out on strike for a fortnight. The miners were ordered to return to work and await whatever adjustment may eventually follow. The board found the miners to be die in error in going out on strike and at the

same time found the mine superintendent | took to be in the wrong. The board also considered the strike conditions in the Thacker field of West Virginia, where 400 or 500 miners have been out on strike for the last five months, and decided to send tents to the strikers, who are now being ejected from the company houses by the coal operators.
