BRITISH DETERMINED TO END MATTERS

King's Government Declares Nev Tactics Justifiable by Present Desire of Majority for Peace.

LONDON, Aug. 9 .- A parliamentary paper has been issued containing the proclamation issued by Lord Kitchener August 7, in accordance with instructions from the imperial government, the governments of Cape Colony and Natal concurring. The

All commandants, field cornets and leaders of armed bands, being burghers of the late republics and still engaged in resisting his majesty's forces, whether in the Orange Colony, the Transvand or other portions of his majesty's South African dominions, and all members of the late governments of the Orange Free State and the Transvand, shall unless they surrender before September 15, be permanently ban-shed from South Africa. The cost of the maintenance of the families of all burghers in the fields who have not surrendered by September 15 shall be recoverable from such burghers and shall be a charge upon their property, removable and immovable, in the two colonies.

Preliminary correspondence shows that the proclamation is based on suggestions which the government of Natal forwarded to Colonial Secretary Chamberlain, July 24, and that the date, September 15, was recommended by Lord Milner. The reasons of the government for the proclamation of Lord Kitchener of August 7 are set forth in a preamble to the proclamation, as follows:

Reasons for Decree.

Whereas, The late Orange Free State and South African Republic have been annexed to his majesty's dominions; and, Whereas, His majesty's forces are and have been for some considerable time in complete possession of seats of government for the aforesaid territories with their public offices and the whole machinery of administration as well as all the principal towns and the whole of the railways; and, Whereas, A great majority of the burghers of the two late republics, to the number of 55,000, exclusive of those who have fallen in the war, are now either prisoners or have submitted to his majesty's government, and are living peaceably in towns and camps under control of his majesty's forces; and, Whereas, The burghers of the late respectives will be arms are not only few in Whereas, The late Orange Free State and

Doubts That This Will End War.

The afternoon papers comment approvingly upon the proclamation of Lord Kitchener. Even the Westminster Gazette says there is no fault to find with it, nor is there any objection to make on the score of justice. It thinks, however, that it is extremely doubtful if it will have any effect in shortening the war. Most of the fighting Boers are already completely ruined and nothing distrains them, owing to the devastation of the country. The Globe says the proclamation is at

State Department Receives Long Letter from Consul General at Panama and from J. Edward Simmons.

9.—The Venezuelan government announces that a new Colombian invasion occurred yesterday morning near Colon.

WASHINGTON, Aug. 9.—The situation in Colombia and Venezuela continued to occupy much of the attention of officials here today and, while it was not felt that affairs had assumed a serious aspect, yet it was appreciated that both the official and unofficial advices indicated a condition of Colombia and Venezuela, complicated by revolutionary outbreaks in both countries. During the day the State department received a rather lengthy mail communication from Consul General Gudger at Panama and, though this was dated nearly a month ago, it told of the landing of a revolutionary expedition and expressed the current belief held at Panama that this would be followed by other expeditions. The department also received a letter from J. Edward Simmons of New York, president of the Panama Ratiroad company, confirming his communication of yesisthmus and stating that the superintendent of the road had advised him as to the depredations of an insurgent band, which did not number over fifty men

Mr. Herran is expecting almost hourly to hear from the Colombian consul general at New York and also hopes for some news to shed light on the situation in the isthmus from the incoming Colombian mail, which is expected soon to arrive.

Mr. Herran discussed generally the war with Venezuela. He pointed out that Colombia has a population of 5,000,000 army of about 40,000 men, who have been for the most part in active service against revolutionary bands for the last year. He expressed his earnest hope that a condition of actual war would not result from the present troubles, but believed his country to be fully able to take care of itself in that omergency.

The beer and whisky were consigned to Hobo and other fictitious names in Winfield and Ponca City and had just been unloaded when the officers arrived and asked the agent for the key to the depot. He refused and they then broke in with axes, seized and hauled the goods away.

DEWEES-WOOD PLANT TO BE REMOVED

mal Order to Dismantle the Great Works at McKeesport-Town Still Doubts.

PITTSBURG, Aug. 9.-There were gravely important developments in the strike situation today. The United States Steel corporation moved decisively in its strike campaign with a peremptory order directing that the great Dowees-Wood plant at McKecsport be dismantled and removed to the Kiskiminetas valley. President Compers of the American Federation of Labor, after a two days' consultation with President Shaffer and his associates, issued a formal statement tonight specifically pledging the federation to the moral and financial support of the Amalgamated association. His written review of the train of

sustains the course of the Amalgamated association and declares that nothing remains for labor but to battle for the cause of unionism. The official announcement of the order to dismantle the Dewees Flam came this afternoon toward the close of an otherwise un eventful day, and its importance was such that it claimed the serious consideration on either side of the great industrial conflict now being waged here. Persifer F. Smith, district manager for the American Sheet

events leading up to the industrial quarrel

Steel company, made the formal announcement in the following statement: I have orders from President McMurty of the American Sheet Steel company to at ence tear down the Dewees-Wood plant at McKeesport and remove same to Kiskimi-netus valley. This I shall proceed to do immediately.

Great Surprise at McKeesport. The publication of the order was a great surprise and McKeesport received it at to appear of a better quality than it really first with doubt. Actual preparations were made later in the day for the dismantling of the mill and there is little room for doubt that it will be torn down and taken a law against this practice and the de- apart, piece by piece. The strikers heard the order in a spirit of defiance. They simply said that it showed the steel corporation was convinced that it could not Strike leaders here said that the order eas a bluff that had been worked up successfully before and declined to take it seriously. A representative of the press showed the statement to President Shaffer but after reading it he declined to talk

The steel officials declined to give any here that the pronounced sympathy of citizens and city officials at McKeesport with the strikers is responsible for the order It is also said that the plant of the National Tube company at McKeesport will be abandoned and the old Carnegie plant for a tube plant at Conneaut, O., revived. The National Tube company had in contemplation improvements at McKeesport of an extensive nature, but it is now said that owing to their disappointment at the fact that their men have been drawn into the Amalgamated dispute and the policy of the people at McKeesport they are seriously considering a plan to remove. No official

statement on the subject could be obtained from any of the local officials. The Dewees-Wood plant was founded about forty years ago and is one of the best known plants in Pennsylvania. Its yards and mills cover between twelve and fourteen acres; it has employed 1,200 men at its busiest times and its cost is

placed at \$5,000,000 by officials of the steel corporation.

Gompers Tells Why. President Gompers of the American Federation of Labor was at the strike headquarters again this afternoon with Secretary Morrison and was closeted with the advisory board of the Amalgamated association for more than three hours. Beise to support the strike, but it was not

lowing statement: "Since the arrival of Secretary Morrison of the American Federation of Labor and myself we have been in almost continual conference with the advisory board of the Amalgamated Association of Iron, Steel and Tin Workers. We made a thorough investigation of the present strike, of its members formerly in the employ of the United States Steel corporation and its constituent branches; the causes which led to the strike: the present situation of the country, and we unhesitatingly declare our judgment that the position of the Amalgamated association is absolutely justified and essential to its continuance and effectiveness as a union of the workers in the trade, as well as the protector of the rights and interests of its members.

"It is true that the Amalgamated asso clation in the first conference asked that the United States Steel company sign the union scale of wages for all the mills operated, owned and controlled by that company, but it is also true that the request was withdrawn and another substituted, so that the union scale should apply to those mills only in which the members of the Amalgamated association are employed; in other words, which are well known to be triasgow and Londonderry; Auguste Vic-toria, from Hamburg.
