Will Accept Renomination.

Charles H. Morrill of this city gives authority for the statement that he will accept renomination for regent of the University of Nebraska if tendered to him by the convention. State Rights Not Denied.

An Omaha newspaper falsely announced this morning that Auditor Weston had denied the State Life Insurance company of Indiana the right to do business in Nebrasks. The report asserted that because the company issues what are known in insurance parlance as "special contracts" it was refused the privilege of entering the Nebraska field.

"The publication of such a statement does an injustice both to this department and the insurance company," said Insurance Deputy Babcock this morning. "The State Life Insurance company of Indiana is doing business now in this state and has been for several years past. Some time ago it requested the privilege of issuing special contracts, but this department refused to make any exception to our ruland the request was not granted. The right of the company to do business in the state, however, has not been denied."
