#### THE OMAHA DAILY BEE: MONDAY, AUGUST 12, 1901.

the situation in Wheeling district tonight, 10 per cent for the benefit of the strikers. "At the Riverside plant of the Na- All the mills in these cities are independent | FIRE SWEEPS OVER PILCER smid: of the trust. tional Tube company the plate and tube

mills will be off Monday morning and possibly the steel departments. Already we have taken into membership in the Amalgamated association 650 of the 800 skilled men at the Riverside and the remaining workers in the steel departments have asked us to call a meeting, at which they may organize a lodge. This request has been granted and the meeting will be held Monday evening at 7 o'clock at Mozart hall In South Wheeling. At this afternoon's meeting of the Riverside men at Mozart hall we took in 109 new members from the tube and plate departments.

"We have succeeded in tieing up the Bellaire steel plant of the National Steel company. We organized 250 of the skilled men Saturday and at a meeting this afternoon there were more accessions, though I have not yet received my deputies' reports as to the exact number. But even without a single accession this afternoon we have enough to keep the plant idle.

"The La Belle plant of the American Tinplate company is closed tight, as are the Aetna Standard mills of the American Sheet Steel and American Steel Hoop companies. The Mingo Junction plants of the National Steel and American Steel Hoop companies also are closed.

'We are arranging for a great strikers' rally to be held at the West Virginia street fair grounds in Wheeling next Wednesday or Thursday. President Shaffer will be the principal orator."

At the meeting of the Ohio Valley Trades and Labor assembly this afternoon resolutions were passed denouncing Andrew Carnegie and calling upon the labor people of Wheeling to vote against the acceptance of the \$75,000 Hbrary he has offered Wheeling.

#### Events of First Day.

Pittsburg passed the first day of the strike in a spirit of calmpess. There are strong under-currents of sentiment and sympathy ruuning through popular feeling, but there were few surface indications of them. It was a bright, clear day and the pleasure Steel corporation, inasmuch as the trust is places were filled with holiday crowds. There seemed to be a general agreement to throw off the worry and evils of the serious labor conflict for the time being. The strikers and their leaders kept a ing of bar steel.

close watch on the strike situation, how-The early reports were unfavorable to them, for they showed the responses to the general order to go out had not been as large as they had been led to expect.

They seem confident, however, that more men would decide to strike today and that the showing Monday would be satisfactory to them. The strikers did not congregate in force at any point and there was not a holding this extra money on the ground half of the county. Small grain threshsuggestion of disorder anywhere. The police authorities reported at 5 o'clock that they had no word of prospective trouble anywhere.

at his home in this city. He received reports from a number of his lieutenants, but during the day denied himself to callers. He holds rather strict ideas as to Sabbath observance and throughout the strike has insisted that as little as possible be done on that day. When an Associated Press representative called at the house today he met today to consider the question of renwas received by Mrs. Shaffer, wife of the dering financial and moral ald to the Amalstrike leader. gamated association strikers, but as the

He will be at the Amalgamated association headquarters toother meeting will be held. morrow and can be seen there by anyone wishing to see him."

The day at McKeesport passed without any startling developments. The indications are that the Demmier plant of the American Tinplate company will start up soon. Superintendent Pitcock, who had just started on a two weeks' vacation, has been recalled from Virginia and work is being pushed rapidly on high board fences around the plant. Steam is being kept up in the bollers and all indications point

to an early resumption. the mills here will run as usual, starting to-Many meetings were held today by the morrow morning workers, but no results are made known except the announcement by the strikers that many new members were taken into the organization. The rolling men of the National Tube company have been ordered to report for work at 3 o'clock Monday morning. The strikers make the boast that but few will respond. The company officials, however, seem to have no doubt of their success.

CHICAGO, Aug. 11.-There will be no strike of the Amalgamated association in South Chicago. At a meeting of the local lodges this afternoon, presided over by a representative of Vice President Davis of the Fourth district, it was decided by alto the striking brothers in other mills. In Whole Populace to the Rescuea statement to the public defining the position in the struggle between the associa-Salt and Blankets Spread Over tion and the United States Steel corpora-Roofs in Hopes of Checktion, the men claim that in justice to them selves and the Illinois Steel company they are compelled to disregard the order of President Shaffer, as they have no griev ances and have contracts signed that will PILGER, Neb., Aug. 11 - (Special Telenot expire for another year. #### Fortify New Castle Plants.

At New Castle there are now 5,700 men out of work through the strike. Four thousand of these quit work when the Shenango and Greer tin mills were closed and 800 more went out when the steel and bar mills of the National Steel company closed in response to President Shaffer's FAIR MONDAY AND TUESDAY second call last week. The stopping of the two latter plants caused the local furnaces to close, as there was no place for their product when the steel mill is off. But one furnace, the Neshannock, is now in operation, the others having been blown out. This indicates a long strike, as they would simply have been cooled down if the intention was to resume soon. The striking Amalgamated men will hold

an open air mass meeting Wednesday afternoon. The local situation is now quiet and it is not known whether or not any attempt will be made to operate the New Castle plants by nonunion men.

The American Tinplate company this afternoon began building high picket fences about the Shenango and Greer plants. These mills were closed down at the first northeasterly winds. strike order issued by President Shaffer. The fences are sufficiently high and strong to resist any attempt made at onslaught and their erection now seems significant. However, General Manager George Greer today that this has no connection with the strike, but that the company has intended for months past to build fences. Even with this statement, crowds of strikers watched from a distance the work with scowling faces.

#### Furnace Men to Organize.

A meeting will be held tomorrow for the purpose of organizing the furnace men into the American Federation of Labor. Nearly 50,000 furnace workers have been thrown out of employment by the strike and they will affiliate with the American Federation of Labor. A second meeting to complete the organization will be held tomorrow night at the same place. The furnace men will also be affiliated with the Mahoning Valley Furnace Workers' union, which was formed the first of this year. This embraces Youngstown, Niles, Girard, Struthers, Sharon, Middlesex and all points in the Mahoning and Shenango valleys but New Castle. E. J. Mullen of Youngstown, O., a Federation organizer, is now here for this purpose. The local furnace men have never before been organized and their present step will strengthen the forces of the strikers here.
