NEW YORK STOCKS AND BONDS. Business on Small Scale, but Dealings

NEW YORK, Aug. 13.—Business today was on a small scale, but there was a wist distribution of the dealings. Strength was shown by many important stocks, but the general movement continued irregular, incorporating movement was higher on a resumption of yesterday's strength and the good tone of the London market. The forinightly settlement abroad was arranged sails actorily and arbitrage houses bought more liberally here than for some days. First prices were not long maintained, as traders realized, but when a demand arose for the eastern trunk lines and b.tuminous coal road stock the market all railled sharply. Sugar was about the only notable exception to the day's strength, the bears lowersing it 2 points at one time and teling steadily when it railled. There was little news of importance bearing on either the crop conditions or the steel strike and the influence was less marked. Frequent relapses in prices were made, causing the Pacific stocks to sag temporarily unceryesterday's close. When pressure relaxed prices railled easily and as there were large purchases of St. Paul and the east rustocks, shorts covered more generally in the market. The improvement in the trunk lines and the soft coal stocks was pairtly due to the benefits expected to accuse from the recent formation of a bituminous coal combination. better.

St. Paul wes taken in good amounts and advanced 3½ on reports that there might be an increased dividend declared nex month. Short buying was considered to be responsible for the improved tone of the market, but the waning influence of the crop conditions and the steel strike w s also considered. Western and Pacific stocks followed pretty closely in the wake of St. Paul on its advance and the grain-carrying roads were helped by the heaviness of the Paul on its advance and the grain-carrying roads were helped by the heaviness of the grain market. The Coalers, Tractions and some of the low-priced industrials showed good strength at various times, the strong rise in international paper being on expectations of a very favorable annual statement. But little interest was manifested in the United States Steel socks

# Wool Market.

Wool Market.

BOSTON. Aug. 12.—WOOL—There was a steady tone to the wool market this week, with general conditions not materially changed. Manufacturers are disposed to buy freely and with machinery well employed this makes a very liberal business. The market is in good shape, taken as a whole, with conditions firm. The bost feature is that the wool taken goes immediately into us. The goods market is yet the controlling factor of the situation and to the cheerful position of the latter is due the strength of the wool outlook. The sales made yet run largely to territory grades. Choice fine wools are costing 14046c, with generally fine lots of territory at 14046c, choice staple wools are quotable at 46048c, cleaned, with offerings small. Fleece wools continue quiet, but prices are held steady in the absence of much business. Fine Australian wools are quiet but firm, with cross-breas moving moterately at steady prices. The following are the quetations for leading descriptions: Ohio and Pennsylvania fleeces—XX and XX and above. 23024c; XX and XX and

## RECEITS—Wheat, 125.00

1 cow ..... 890 210 HOGS-Frices continue to spread between choice and common grades and while the former were free sellers the latter were more or less neglected throughout and the market on such ruled slow and closed weak. Buyers were looking for the better grades and prices on best were strong to be higher, the top touching \$6.00 and general bulk selling at \$5.700.85, against a bulk yesterday of \$5.0000.80.

of \$2.000.50.

The market was not particularly active, but the better grades were cleared up in good season, although the extreme close was rather easier all around hight and common offerings were hard to move throughout the day at prices unevenly lower and the market on anything but destrable grades closed decidedly weak, with a few hogs unsold at the close.
