President Shaffer spent the day at headquarters conferring with his lieutenants, receiving reports and issuing directions to his followers throughout the strike districts. He was not inclined to talk for publication. Several times during the day he expressed his satisfaction with the progress of the contest, but would make no detailed statement. He denied that he had been approached by independent steel men with a proposition to prolong the strike to a point where the United States Steel corporation would lose its rush orders. He said that it was absurd to think that he could talk about any such plan with any one.

Judge Warner, speaking officially, gave it out that the unfortunate incldent was Captain Thompson's own fault and that the judges had no course left open to them but to disgualify the defender. Captain Thompson declined to say anything, except that the judges had disqualified Cadillac.

To impartial observers it was clear that the elever Canadian skipper had outwitted o Thompson and that the latter, when he found he was caught in a trap, with the buoy at one end of the starting line close under his lee and his rival, with the right-of-way, bearing down upon him, tried to force his way through instead of coming O about under Invader's stern.

How They Started.

There was a light breeze from east southeast when the judges signaled the racing captains that the triangular course should be sailed, with the first leg to windward. This leg lies southeast by fiveeighths south from the starting buoy, which marks one end of the line, the judges' boat marking the other end. There was no jockeying between the two yachts before the start. Captaing Thompson stoed off and on beyond the buoy and Captain O method in our brewing -"uniform qual- O Jarvis was content to do the same at the O ity, cleanliness, purity" may be taken O other end of the line

As the first choice was dependent on Captain Jarvis being behindhand it scarcely was worth een sidering, for it was evident that the Canadian skipper would come down upon the before the secretary of state. Among the line on the starboard tack and consequently incorporators is Dwight W. Tuttle of New with the right-of-way. That was what he did, and as he left his end of the line a minute and a half before the gun was due and went along alone, with his sheets eased, it was apparent that he intended to get full way on his beat and did not intend to cross the line until near the buoy. Captain Thompson must have seen

Mr. Shaffer began preparations early in the evening for his trip to Wheeling tomorrow Reports from the affected districts tonight indicate that the good order which has characterized the strike since it began still prevails. Youngstown reports that the announcement of the removal of the Warren plant has been made there. Scottdale reports that Amalgamated organizers are at work among the men there, but the prospecis of inducing them to strike are but slight

The strikers at Connelleville have called an indignation meeting as a result of the threat of the American Tinplate company to operate its mill nonunion or dismantle Advices from Lorain say that an effort is being made to organize an Amalgamated lodge, but that its success is doubtful. A dispatch from Wheeling says that District Superintendent Carter has informed the strikers that Bellaire will remain closed until they are hungry and that if it ever starts again it will be run nonunion. The same dispatch says that the steel men tu the National Tube works at Riverside are the only ones of the 10,000 employed by the steel corporation in Wheeling district who have not gone out. CHICAGO, Aug. 13 .- The steel workers asked to reconsider their action in refusing to comply with the order of President Shaffer to strike. Information has been received from Piltsburg that the supreme ficer of the Amalgamated association has dispatched Assistant Secretary M. F. Tighe west in an attempt to get the Federal' Sfeel company's men here to follow the example of their eastern co-workers. Mr. Tighe is well acquainted with many of the representative members of the lodges here and for this reason was chosen by President Shaffer for the mission. He will arrive in Chlcago this afternoon and his orders are to seek audiences with the officers of Lakeside lodge No. 9 and Commercial lodge No. 4 at once and arrange for meetings where the subject again will be gone into detail.

W. C. Davis, the district vice president who resigned a few days ago before the strike order went into effect, has gone to Jollet to consult with the lodges there which have not yet announced whether they will strike or not.
