sees in Wheat Fit.

STRONG AT OPENING, BUT SOCN BREAKS

Corn Starts Strong, but Soon Weaken and Large Quantities Thrown on Market-Oats Follow Other Grains.

Cflicago, Aug. 14.—Heavy signification by longs caused weakness in the wheat pit today and September closed \$27% lower. September corn was he lower and oats he today and September closed \$22\\$c lower. Beptember corn was \$c lower and oats \$c lower, while provisions closed unchanged to be lower. Higher cables gave wheat momentary strength at the opening, but this feeling was quickly displaced by a decided break in prices, occasioned by the weakness in corn and realizing by outsiders. Considerable long stuff came on the market, but support appeared lacking, commission houses being the most active buyers. September opened \$25c to \$40c higher at 74\\$674\\$c, but heavy selling on the part of locals soon brought the price down to \$25c, The close was steady and \$45c lower at \$3c. The seaboard reported \$4 boatloads taken for shipment, while clearances of wheat and flour were equal to \$37.00 bushels.

Frimary receipts were 1.175.00 bushels, compared with 1.027,000 bushels a year ago. Receipts of \$20 cars were reported at Minneapolls and Duluth for today, against 120 cars last week, and 212 cars a year ago. Local receipts were 181 cars, with 20 of contract grade.

tract grade.
Under the influence of higher prices for Under the influence of higher prices for wheat corn opened strong. The advance was not se marked as in wheat and on the first sign of weakness in the latter heavy quantities of the yellow cereal were dumped on the market, and prices declined. September opened \$20 to \$

range and the market was without any special features. September ranged between 30% and 37% closing % lower at 26%. Receipts were 227 cars.

Frovisions opened unchanged, but the market soon developed weakness on heavy receipts of hogs. The decline in grains was also a bear factor. September pork sold between \$14.07% and \$14.22%, closing with a loss of 5c at \$14.15. Lard ranged between \$2.70 and \$3.77%, closing 5c lower at \$3.72% and \$3.77%, closing 5c lower at \$3.72% at \$3.05%. Estimated receipts for tomorrow: Wheat, 165 cars; corn, 15 cars; oats, 335 cars; hogs, 25,000 head.

NEW YORK STOCKS AND BONDS. Trade is Spirited, with Bulls Resum

NEW YORK, Aug. 18—Trading at times today was spirited and commission houses reported an increase in outside orders. Developments over night did not shed much light on either the crop or strike situation and as these influences are rapidly lesing their earlier importance, buil traders resumed active operations. With the course of the day there was a revival of increasin some usually dormant stocks, which gave rise to reports of pool manipulation, especially in the United States Leather issues. Current rumors regarding the dividend status of St. Paul made that stock the feature of the day and its fluctuations governed the movement of other stocks clesely. Generally speaking, the properties which were notably strong yesterday te umed their advance today, but the average rise was not so pronounced.

The great bulk of the day's dealings were transacted during the forenoon, when the high prices of the day were made. London was again a buyer of the general neternational list and shorts covered contracts in the grangers and Pacifics. A wide opening was looked for in St. Pau', owing to the active inquiry for the stock in London, where it was 2 points higher. The first sales were 7,000 shares at 1624/201624, a gain of 14. Opening advances otherwise were mostly fractional, but a strong und roone prevalled and there was heavy buying in the day and the bears were disposed to sell the market on account of its pr tty general steady improvement since Monday's opening. These offerings reduced and in some instances wiped out altogether the initial advances. Sugar, which had started off 1½ higher, was depressed sharply, and the Steel stocks were rather heavy. Prices soon worked upward again, however, the trunk lines, grangers, Pacifics and coalers being taken freely and establishing advances of from 1 to 2 points. St. Paul ran up 2% to 164% and the preferred gained 34 points. After midday the market worked slowly downward, but there were occasional rallies, which were in a measure due to the timidity of the short interest on indi ing Active Operations. NEW YORK, Aug. 14.-Trading at times slowly downward, but there were occasional railies, which were in a measure due to the timidity of the short interest on indications of inside support to special stocks. The demand for stocks died out pretty well in the late afternoon and the bears made a successful raid against the market, dapressing St. Paul 2 points from the highest and putting the active list generally down a point or over. The United States Steel stocks, which had made gains at the outset of only %, each fell into neglect during the course of the day and were heavy. The common sold ½ under yesterday's close and the preferred %, but were consistent y supported in the late drive and did not exceed their early low level. In the final dealings buying to cover caused a general rise, St. Paul going back again to 160%, the highest figure of the day, and the entire market closed steady. The closing raily

brought United States Steel common up to
44. its best price, and the preferred rose to
35 points.

The bond market today was generally
firm, but business continued in larger voling.
States bonds were all unchanged on the
last call.

The Commercial Advertiser's London
financial cablegram says: The market is
still very slack but firm. American shares
were far from brisk, but were confident
from the very start. London, for once, led
the way, feeling that the worst is now
known. New York seemed to be anxious
to check the speed of the advance, but we
continued to buy in a narrow market, causing prices to close at the best. The Bank
of England has received £4.670 gold in bars
'and has bought on the steamer Venturia,
salling from Sydney for San.

Condition of the Treasury.

reserve in the division of redemption,
shows: Available cash balances, \$174,303,523; gold, \$105,046,769.

NEW YORK, Aug. 14.—COTTON—Opened
steady, with prices 4 to 6 points under last
night's close, but later recovered the loss
and closed very steady. The early weakness vas due to surprisingly weak English
cables and to reports of more rains where
needed in the southwest. It was apparent
from the first that the pit contingent was

Reports that a windstorm was working its way up through the Mississippi valley led to some misapprehensions, as did a rumor that exporters were more willing to consider offers from spot cotton holders in the south. The Fall River mills situation was not materially changed. In the last half hour October advanced to 7.2tc and January to 7.28c on a scare of shorts, brought about by damage reports from the storm center in the lower Mississippi valley. Wool Market.

BOSTON, Aug. 14.—The American Wool and Cotton Reporter will say tomorrow of the wool trade: The market is act we and strong. An enormous business has he n transacted, which has been more broadly distributed than at any time this year. The demand has been from all classes of mills—large and small—the former taking on some good-sized blocks of wool, notably of Oregon wools, the aggregate transactions in which are claimed to amount to about 5,00,000 lbs. It is known that some large deals are now pending on spot wools and wools to arrive, which will very likely result in continued large sales for a few weeks to come. On foreign wools some large transactions are likely to materialize at any time. The season in Montana is rapidly drawing to a close and by next week most of the Montana buvers will have reached home. It is estimated that hardly more than 5 per cent of the clip of that at the having been purchased outright. All the other states and territories have likewige been pretty well cleaned up. The receipts of wool in Boston this week amounted to 32,323 bales, against 25,628 bales last week and 19,139 bales a year ago. The sales for the week in Boston amounted to 11,14,70 lbs. domestic and 1,230,000 lbs. against a total of 6,790,000 for the previous week and a total of 2,237,800 for the corresponding week last year. Shipments of wool for the week ending August 12 were 5,158,173 lbs. This Wool Market. total of 2,237.800 for the corresponding week last year. Shipments of wool for the week ending August 12 were 5,158,173 lbs. This shows an increase of 752,200 lbs. over the shipments of the previous week. Sinc. January 1 the total shipments amount to 153.592,621 lbs.

HOGS-Fresh receipts were not excessive, tess than 100 loads arriving, but conditions were against sellers and a slow trade resulted. Added to the fresh supply were about 1,000 head carried over from yesterday. This latter stuff was mostly on the light order. The general market finally settled down to a hasis 5c lower, selling from \$5.30 to \$5.90 and largely around \$5.700 to \$5.90 t

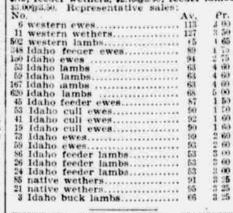

the feeling carly was weak all around. Later, with the limited supply, trade be-came more active and the linish was con-sistrably stronger than the opening on

SHEEP—Compared with Monday and yes erday the run of sheep looked small, bu buyers took advantage of the situation to shade prices and the market ruled weak to a dime lower on mutton sheep.

Lambs also showed a similar decline to sheep. A part of the holdings arrived late and weak reports from other points tended to cause an easier feeling here.

Stock lambs and sheep are selling practically steady at recent quotations, with only a limited demand to work on.

Woman Has No Right to Explore Its Depths.

The other day, says the New York Sun, magistrate of this town gave the opinion, perhaps it is more accurate to say the dictum, that a woman has no right to "go through" her husband's peckets. We don't know that there is any light on the subject in the Year Books. Most of women's rights have grown up since then, and where did the tyrant man wear his pockets in earlier days? Is there anything in Froissart of anybody else to show where Edward the Black Prince in all his armor kept his change and how he got at it? Where did Godfrey of Bouillon hide his latchkey? It is idle to tell us of pouch and girdle. Robin Hood knew where to find the treasury of the gentlemen whom he invited to contribute to the support of a poor man whose leech had forbidden him to eat anything but ventson, but did the sheriff of Nottingham have anything that could properly be called a trousers pocket? Did Bluebird or Henry VIII in all his glory and his plethora of matrimonial ventures ever have in hose or doublet a pocket which could really be described as a change pocket. "Ho, good my almoner, fling me a rose noble to you merry minstrel." Oh, we have read historical novels and know their lovely language, but we defy anybody to prove that any law of the easement of wives in the pockets of their husbands can be traced until the origin and history of the pocket have been more fully explained.

Yet unless human nature was very backward the women must have exercised from immemorial times the privilege, since grown into a right, of inspecting the hoards or caches of their husbands. They may not have looked for love letters, writing schools being then uncommon and the club or adze taking the place of the complete letter writer, but we may be sure that they abstracted acorps, thus laying unconsciously but solidly the foundation for the beneficent principle of an allowance. There were pockets in the earth or the tree or lake; it is no paradox to say that pockets came be-

She keeps them in order. She has a clear title to toll, rent or whatever you want to call it; the woman's penny. Without her the supercilious beast wouldn't have any pockets. She is justified in charging him a fee, a slight interest on the endowment of all his worldly goods. She has the right

to garnish his pockets. Besides, they are her pockets. Without enlarging upon the necessity of a common household fund and of a special privy purse for the wife, it is enough to say that since for mysterious reason, into which heaven forfend that we should enter, she has no pockets of her own, his must be hers. She has the right to use them, to collect her just dues from them. If he doesn't like it, let him stuff his ill-gotten gains into saddlebags and carry them securely locked around with him or jingle his loose change into a safe deposit vault every day. But see what comes to the niggard. Every day you read of some churl who tucks away money in a mattress or an old stove or a cracked coffee pot. Fate finds him out and punishes him. Fire or the junkman or the ragman gets

the dollars he grudged his wife. The right of visitation of a husband's pockets is important to social justice and domestic economy. It may be waived, but it is only suspended, not lost.
