Acting under the provisions of the new charter the city officials are taking cognizance of the special taxes declared liegal by the courts. The new charter alows the mayor and council to re-assess these taxes. In the meantime something must be done to provide for the payment of the bonds and coupons now outstanding. Democrats Seeking Official Positions Since the fight between Hoctor, McMillan and O'Keefe for the county commisasserted that none of the oldtime candidates will be given a show. This declaration has caused the entrance into the field of three comparatively new candidates. John J. Ryan of the Third ward, at present secretary of the Board of Education has shied his castor into the field and wants the nomination. Ryan says that democrats tell him he can be elected. Miles Welsh is another candidate. Welsh does not go into details when asked about the matter, but insists that he is in the hands of his friends. A. M. Gallagher is a dark horse just appearing on the horizon His friends say that he is the man that will walk off with the nomination. With half a dozen candidates in the field the fight promises to be a lively one. Each candidate claims that he has a cinch on the nomination, but more conservative members of the party say that there is going to be a lively time in the conven-

The desired letters were given and four business men were duped, the total graft amounting to \$9. No binders for books were furnished and neither did the Young Men's Christian association receive a set of magazine binders free. It is now asserted by members of the Young Men's Christian association that King is a fraud and should not be given recognition by other associations.
