What to Do with Silver and Where to Raise Some Gold Perplexes These Party Leaders-General News of the State.

(From a Staff Correspondent) LINCOLN, Aug. 16.-(Special.)-Democratic National Committeeman James C. bahiman and State Chairman P. L. Hall were in conference in this city today discussing plans for the state fusion campaign, but the result of their deliberations is kept carefully guarded from the public. These two men have immediate control of the democratic machinery and they are beginping early to oil the wheels for action in forthcoming contest. At the outset they are confronted by prospects which are decidedly discouraging and they make but little effort to conceal their despair.

What to do with the silver plank, how to force the free silver republicans into the democratic or populist camps, democratic preferred, and how to raise funds for carrying on the campaign were questions the leaders found difficult to answer in their conference today. Mr. Bryan will be consulted on all three propositions, but nevertheless there is a large and growing disposition among the fusionists to assume an air of independence on these matters, or, in other words, do their own thinking. The raising of campaign funds is really the question of paramount importance, however, and if Mr. Bryan or anybody else can suggest any revenue-producing plan it will be gladly accepted. With the popocratic the Ancient Order of United Workmen. piecounter no longer in existence the campaign managers will have to look for voluntary contributions and if the experience at West Point of the treasury department of the populist committee is a criterion the amount of money they will raise by that method will not be large enough to buy the headquarters stationery.

There are already signs of indignation over the recent action by which the free silver republican party was dissolved. Perhaps a majority of the local members of the party will remain in the popocratic camp, but the attempted delivery will be by no means complete. Speaking of the dissoluidentified with the party from the day it was organized, said to the reporter today: To Eliminate Silver.

"In my judgment, the action of the free silver republican committee in dissolving the integral organization is the first step in a concerted movement to eliminate allver as a party issue. Twice submitted to the judgment of the American people and twice rejected by large and decisive macountry, who seem to be the ruling power this end in view they have directed that he will probably withdraw. that wing of the trinity which, by reason of its name, could not exist without keeping the silver scarecrow to the front, be dissolved."

Continuing, he said: "It would be a ludicrous incongruity to eliminate the silver issue and yet have one element of the triumvirate wear the brand, so to surmount it the free silver republican party was dissolved. The action of the free silver republicans of Nebraska, taken with that of the democrats in Ohio, Virginia and other states where free silver and the Chicago and Kansas City platforms have been contemptuously repudlated, clearly indicates that this is the line of action contemplated. Whether this means that sectionalism in the democratic party dlow, with its north, east and south against the silver producing section in the west, remains to be developed. The MAYOR more likely thing is that silver will be dropped altogether and those who refuse become reconciled to the changed conditions will be treated as political derelicts and shut out from the councils of the party. Even Mr. Bryan, it appears, while still professing loyalty and belief to and in the silver cause, does not resist the onslaught that is being made and accepts the inevitable with a sentimentality so void of opposition as to symbolize at least passive acquiescence. Indeed, I have always thought that Mr. Bryan's championship of the silver cause was more the belief on his part that it was the shortest route to remunerative political eminence than that it would be beneficial to the great masses of the people and the great industries of this country. My belief in this respect has been strengthened by his passiveness since it has been demonstrated through the medium of the ballot that it is neither a short route nor one without Having been twice castigated and subjected to more drastic discipline than has been inflicted on any other political organization in the last fifty years, due, as all well-informed persons must admit, to venerable financial philosophy crystallized into party orthodoxy by two national conventions, it is the logical fruition of experience that the leaders should at this ime be easting about for shelter and relief. The democratic leaders, and particularly the conservative element of the party, realize that their party is discredited, no more on account of its financial vagaries than upon the transparent scheme of fusion, a scheme which every one knows was inspired, not for the object of inaugurating reform, but with the one end in view of acquiring the spoils of office. If that were not the real object of fusion. how could apparently intelligent men stand on three platforms, representing three different, and often diametrical, sets of principles? There were many wellmeaning men in all three of the parties who were either democrats, populists or

A local organization of retail grocers was organized here tonight by Fred Lorenz of Minneapolis, representing the National Association of Retail Grocers. Mr. Lorenz will do similar work in other Nebraska cities and on September 18, 19 and 20 a state meeting will be held in Omaha for the purpose of forming a state association. The announcement of the time for this state meeting was withheld by Mr. Lorenz, pending the result of the efforts in this city. The local merchants tonight pledged their support, thus assuring the success of the movement toward the formation of a Nebraska association. The meeting in Omaha will take place during Ak-Sar-Ben week.

ASKS FOR Tells People of Nebraska City Leaves Sunday Closing in Their Hands.

NEBRASKA CITY, Neb., Aug. 16 .- (Special.) - Mayor Mattes this evening published a communication in the Daily Tribune addressed to the public and concerning the Sunday closing proclamation which he i sued some time since and later retracted for last Sunday only. It defines his position and leaves the entire question with the people of the city. The statement reads:

"Petitions signed by nearly every merchant and business man in Nebraska City were presented to me on August 9. The petitioners asked that in the interpretation of the state laws, so far as they apply to this city, that I be guided in my actions by the precedents of the last forty years, and that spirit of toleration for the opinions, rights and liberties of all should character-

ize my administration. "Will the interpretation of the laws by the administration go unmolested? Will the few citizens who heretofore invoked the state laws to abolish a custom of long standing yield to the will of the majori y or will they insist on the enforcement of laws no matter how unpopular or antedated? These are momentous questions Will the majority hereafter show a united. unselfish, courageous front against any encroachment upon the liberties which they have enjoyed during the last forty years, or will they show a cowardly indifference?

"On the one side a few citizens insisti g upon the enforcement of absurd and antedated laws, on the other side a majority of the citizens protesting against such enforc ment because it injures the city morally, commercially and financially. All state laws were enacted and approved by the same law-enacting power, hence they are all of equal force, and the administration has no right to make any distinction in the enforcement. If the law must reign, it must reign supreme. If public opinion, betthe fellows who engineered the deal and ter judgment and commercial interests ell govern, they must govern supreme, and offices had no other or higher motive than there shall be no difference between one business and another. I am glad to know that the citizens still believe it to be the right of a municipal administration to interpret the state law so as to harmonize with the individual opinion of the majority of the community. Your liverties and your right to do as you please a long as you do not interfere with others stall be zealously guarded by this administration, but with you rests the responsibility to see that the constituted custodians of law, order a-d public morals, and with you rests the responsibility what the future Sunday policy

SEWARD, Neb., Aug. 16 .- (Special Telegram.)—A bold robbery was committed here at noon today. J. A. Dowding, a coming up from his hands. I don't know rings and other articles. The robbery was committed while he was at dinner and was not discovered until his return, when he found some one had entered the store by cutting through the screen of a back window, which had been left raised, and had made away with the articles. The authorities were notified and three tramps who had been on the streets this morning were at once suspicioned.

They were seen to come out of the alley back of the store and go south toward the railroad. They were found in a boxcar of an eastbound freight train and when arrested professed ignorance of any knowledge of the theft. They were taken to jail and searched, but no jewelry was found upon their persons. It is the talk of some citizens to use stringent means to get a confession from the suspects. There is no further clew. A citizen this evening claimed he saw one of the gang standing on the front steps of the store, apparently keeping guard and giving signs to some one inside

TOGETHER FACTIONS GET Leaders of Political Elements Meet in Humboldt to Discuss Street Fair.

HUMBOLDT, Neb., Aug. 16 .- (Special.) -number of the leading business men met at the State bank last evening to consider the advisability of arranging for a street fair or merchants' carnival. The senti-ment seemed favorable for such a step and it will doubtless be done.

Humboldt has been having internal strife and discussion for the last three years, the principal contention being over the license question. It was almost impossible to broach any plan for a public entertainment or improvement without meeting with opposition from some faction. Last night's meeting was caused by Mayor J. F. Walsh and Postmaster 1. L. Bantz, leading representatives of each faction, and is a preliminary to the matter of arranging for the fair. A special committee of six business were passed. Final decision will be made at the meeting Monday night.

Dispute Over Oil Lands.

CHEYENNE, Wyo., Aug. 16 .- (Special.) It is said that seven months ago a petition was circulated throughout central Wyo-ming and forwarded to the secretary of the interior, praying for the segregation of certain lands, about 1,400 acres, as oil bearing lands, under what is known as the oil placer location act. The petition was signed by Governor De Forest Richards and many on which the various factions could get other prominent citizens who were made to together and labor for the public welfare believe that only a small tract was to be segregated and that only in the vicinity of the scene of operations of the Pennsylvania Oil and Gas company, which had expended large sums of money in developing the Salt creek oil fields and which wanted the lands set apart. Special agents of the department recently investigated the lands in question in order to determine whether they were more valuable for oil than for agriculture and it was then that the first inkling of the plot was given out.

Senator Warren has been consulted in the matter and the whole business will be laid before the authorities at Washington. It is asserted that if the large tract of land was segregated hundreds of ranchmen would be deprived of the privilege of graz-ing in that section. It is charged that the segregation of the land was a part of a scheme to get control of the Salt creek oil fields, which are very rich, plug up the wells and prevent their development. tract in question consists of 550,000 acres.

Sheenmen Object to Grazing Rents. CHEYENNE, Wyo., Aug. 16 .- (Special.)-The sheepmen of Sweetwater and Carbon counties and the land department of the Union Pacific are said to be in a fight over grazing rights in what is known as the Red desert in southern Wyoming. For many years millions of sheep have been grazed in the Red desert in winter and now that the day of free range has passed flockmasters have been leasing large tracts of railroad land. Pastures in the desert are very much in demand and the company has seen fit to charge from 2 to 5 cents per acre annual rental. This the flockmasters regard as a holdup and will make a determined effort to have the company reduce the rental. They say the desert is worthless except for the grazing of sheep and believe the company will make them better terms.

SIZE OF CANADIAN CITIES Official Census Bulletin Gives Population of Larger Towns in Dominion.

OTTAWA, Ont., Aug. 16 .- The first official bulletin of the census was issued today. The population of the Dominion is given at 5,338,833, an increase of 505,644 over the census of 1891. The population of the provinces is as follows: British Columbia, 190,000; Manitoba, 246,464; New Brunswick, 331,093; Nova Scotia, 459,116; Ontario, 2,167,987; Prince Edward's island, 103,258; Quebec, 1,620,974; territories, 145,000; un-

organized territories, 75,000. The population of the cities of Canada is as follows: Montreal, 266,826; Toronto, 207,-971; Quebec, 68,834; Ottawa, 59,902; Hamilton, 52,550; Winnipeg, 42,336; Halifax, 40,-787; St. John, 40,401; London, 37,983; Victoria, 20,821; Kingston, 18,043; Vancouver. 26.196; Brantford, 16,631; Hull, 13,988; Charllottetown, 12,080; Valley Field, 11,055; Sherbrooke, 11.765; Sydney, 9,908; Moncton,

0,026; Calgary, 12,142; Brandon, 5,738. NEW YORK, Aug. 16 .- A special to the Times from Ottawa says: The population of the Dominton of Canada, according to the census returns which will be given out today, is 5,337,166, an increase of 503,827 over the census of 1891. These returns are not authorized by the census commissioner but they are understood to be those which

the department will give to the public. Taken by provinces the increases will be as follows: Quebec, 132,434; Ontario, 53,-657; Manitoba, 92,212; Northwest, 79,300; Yukon and unorganized district, 43,113; British Columbia, 92,000; maritime provinces, 11,000. In a number of instances, such as in the Yukon and the unorganized districts, the department has made an estimate, as the returns have not yet been received. The result is disappointing and the only explanation is that the returns for

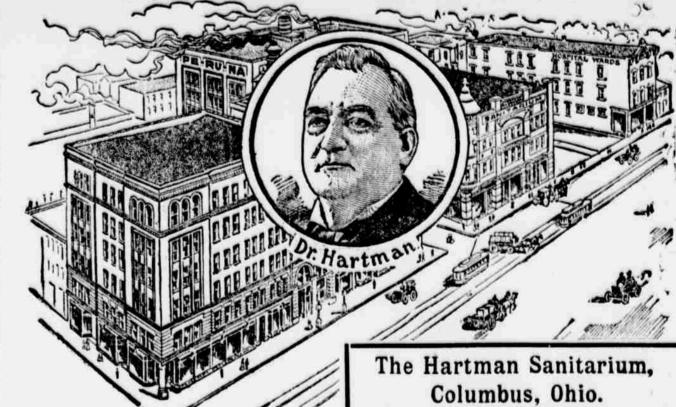

1891 were padded. According to the returns Ontario will lose about five members and the maritime provinces three or four.

Manitoba ought to increase its representation by three members and the torthwest, including Yukon and British Columbia, ought to bring the representation up to about what it is now, 213 members in all. Prune Crop is Small.

SAN JOSE, Cal., Aug. 18.—Special agents of the California Cured Fruit association have just made estimates on the yield of prunes for the entire state, which give it at about 55,000,000 pounds.
