Good Cash Demand from Packers for Ribs Helps the Provisions Mar-

COMY

Speculat

HEAVY

ket and Prices Close Firm.

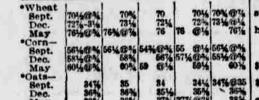

CHICAGO, Aug. 23-Corn was heavily sold today and led a decline of other grains. Wheat closed %c, corn 1%c and outs %c lower for September. Provisions closed a shade lower to 567%c higher after

oats Sic lower for September. Provisions closed a shade lower to 5673c higher after a fairly active day. Trade in wheat lacked even a susplicion of animation. The market opened easy on disappointing cables. September 14673c down at 705c. Selling for the outside ac-count influenced a small selling movement by the bear contingent. When some of them attempted to cover a little later the market suddenly ran up to 70%c. This proved the best price of the day, and there was scarcely a moment during the re-mainder of the session when the early short sellers could not have covered at a profit. The magnitude of seaboard clear-ances and reports of good buying in the cash market caused something of a check on the bears for a time, but did not ma-terially affect prices, and by noon most of the pit, influenced by the outside Houlda-tion and the corn weakness joined the ranks of sellers and in consequence Sep-tember worked down to 70%. Exporters reported 30 loads taken; sea-board clearances were 1.221,000 bushels. Pri-mary receipts aggregated 1.021,000 bushels, almost exactly the equivalent of last year's. Local receipts were 145 cars, 11 of contract grade. Minneapoils and Duluth reported 566 cars, making a total for the three points of 712 cars, against 442 last week and 742 a year ago. Argentine ship-ments were an exhibition of its dependence wear ago.

week and 742 a year ago. Argentine ship-ments were 35,000 bushels, compared with \$85,000 bushels the corresponding week a year ago. Con speculative support and showed how in-sufficient a strong situation could be when speculators relax their efforts to boost prices. The feature of the day's trade was the large quantity for sale on outside orders. This was supposedly the response of the country districts to the call for more margins sent out shortly after the decline began a few days ago. Heavy Argentine shipments coming on top of a report that the exportable surplus of that country was about exhausted was an additional factor in weakening the market. The liquidation was embraced by the bears to take a profit-able ride downward with prices and al-though there was considerable profit-taking around the bottom the selling pressure con-tinued the strongest and the close weak. September sold between 554556%c. Local re-cetpts were 290 cars. Argentine shipments aggregated 2,064.000 bushels, 1,500.000 more than a year ago. The oats market naturally turned weak in sympathy with core. Liquidation was both for the country and the local account and there was checked by buy-ing by a packing house. September sold between 35c and 34c and closed at 34%c. Re-ceipts were 244 cars. The oats market maturally turned weak in sympathy with doose at 34%c. Re-ceipts were 244 cars. The in provisions was moderately ac-tive. Prices at the opening were slightly irregular and a slight decline followed in sympathy with the surrounding weakness, buring this time considerable lard was sold. Following this a better cash demand was claimed, and as ribs were bought in sympathy with the surrounding weakness, sold for the close was firm. January pork uary ribs 24c higher at \$15.500,15.51%, Jan-uary ribs 24c higher at

Transfer to the interior. These figures of states marked for staple statement and it is explained that special statement and its explained that special special spectrum to hightweik the season promises to be one of the special spectrum to hightweik the season promises to be one of the special spectrum to hightweik the season promises to be one of the special spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum to hightweik the season promises to be one of the spectrum the spectrum to hightweik the season of duliness at season of dulines at season of duliness at season of duliness

previous excessive yields. Nevertheless, prices remain above 60c. The slight reac-tion in wheat is explained by the decrease in Atlantic shipments to 4.833.766 bushels, against 7.852.500 bushels in the previous week. Compared with the exports of 1,-500,817 bushels last year and 2.799.887 bushels two years ago, however, there appears a phenomenal gain. Pacific exports are still retarded by labor troubles. Failures for the week number 206 in the United States, against 171 last year, and 35 in Canada, against 29 last year. <section-header><section-header><section-header><text><text><text><text>
