### Reported Negctistions for Purchase of Lines Comprising the Quincy Route. cities.

FORECLOSURE SALE IN OCTOBER

BURLINGTON REACHES OUT

Local Officials Say They Know Nothing of the Rumor-Property Paralleis Burlington Line Across Northern Missourl.

That the Burlington is considering the purchase of the Omaha, Kansas City & Eastern and the Kansas City & Northern, connecting roads, at foreclosure sale, is a iste rumor in Kansas City railroad circles. The two joint lines, which extend from Kansas City, via Pattonsburg, to Quincy, Ill., practically parallel the Burlington's Chicago line. Their purchase would give the latter road double track between Kansas City and Quincy and relieve the main line of much Kansas City-Chicago traffic. The roads are now owned principally by the Gates syndicate, and are to be sold under foreclosure in October.

These lines, together with the Omaha & St. Louis, comprise the Quincy route. The Wabash has but recently purchased the latter line, which runs from Council Bluffs to Pattonsburg, Mo., connecting there with the other two roads. If the Wabash had desired them, it seems reasonable to suppose that it would have purchased them at the same time it did the Omaha & St. Louis.

The rumor that the Burlington was about purchase these lines, which are now all that is left in the hands of the receivers after the breaking up of the Kansas City, Pittsburg & Gulf system, of which they were a part, has been heard before. An official of the Burlington said yesterday that he had heard nothing official about the matter, but he did not believe the purchase would be made.

#### Burlington Establishes Service on the Cody Branch.

A new time table for the Wyoming division of the Burlington, which goes into effect Sunday, August 25, shows the first who have been able to live at leisure are regular train service on the Cody branch now tied down to work because it is imin the Big Horn basin.

This branch, which is to be built to the town of Cody, leaves the main line at the strike is in progress. At the inception of our excursion we had a list of 250 mem-Bowler, a distance of 72.7 miles, Between bers of the commandery who intended to these points the following stations have been established; Ronald, Mifflin, Coburn, Morta, Keiser, Pryor, Chicopee, Oswald and Crockett, Day telegraph offices will be maintained at Coburn, Pryor and Bowler for the present.

Train service on this branch will daily except Sunday, a train leaving Toluca at 12:20 a. m. and arriving at Bowler 5:10 s. m.; leaving Bowler at 7.00 a. m. and arriving at Toluca 11:50 a. m. A close connection is made with westbound trains on the main line, making it possible for one to leave St. Louis before noon Friday and eat breakfast in Bowler Sunday morning.

The Big Horn country, the scene of the fondest hopes of William F. Cody's heart, is raipdly filling up with settlers. Buffalo Bill's great irrigation project and his scheme for a large cavalry school are attracting people by the thousands. Four hundred and fifty Mormon families alone have trekked into the country within the last several months.

Merryman says he got the bees to cure him of rheumatism. One tay he chanced to look out of his window in the Thurston hotel and was surprised and delighted to see a large swarm of honey bees roosting in a shade tree in the rear of the house.

"For years I have been a martyr to sciatic rheumatism. and of course you know that the sting of bees-provided they sting with sufficient vigor and frequency-is a sure cure for that malady. Costs Big Money to Ship Hay Out of Nebraska.

Western roads are determined to aid Nebraska and Kansas farmers to secure whatever feed they may need to carry stock through the winter. Following the announcement of emergency rates on corn shipped into that territory an advance of the rates on hay being shipped out of that section has been decided upon, to become effective September 1.

All lines from stations in transmissouri territory east of Colorado common points to the Mississippi river, twin cities and Chicago, will advance the rate 2 cents per 100 pounds.

The purpose of the advance is to prevent the shipment of the hay now in that country, for it will be needed at home. Certain lines are also considering the idea of reducing rates on hay from eastern, northwestern and other territory into Nebraska and Kansas.
