

WEARERS OF PADDED GLOVES

Several Minor Events Scheduled for Omaha in Near Future.

GARDNER SEEKS FOR ENGLISH SCALPS

"Omaha Kid" Hopes to Accumulate Honors Across the Pond—New York Sports Will Try to Legalize the Game.

Among the local pugilists the near future promises some busy occasions. Clarence Forbes of Chicago will meet Ole Olson at South Omaha at an early date and several other matches are likely to be arranged.

Jack Beebe, in behalf of Oscar Gardner, is after Al Ritchie's scalp and is offering to give him any kind of a deal that will get him into the ring. Beebe offers to put up any amount of side money, from \$100 to \$2,500, that Ritchie may feel like covering, the fight to take place before September 15. It looks as if it were all up to Ritchie.

Oscar Gardner leaves about the middle of September for England, where he will meet Will Curley, the English champion. The go will be before the National Sporting club of London, and, win or lose, Gardner receives \$3,000 and \$500 for expenses. If the Omaha Kid follows suit with the other American sports and puts the English champion out, other matches will be made and Gardner's road abroad may be somewhat protracted.

Long-headed old Jimmy Wakeley of New York has a scheme for reviving the fist business in the Tammany town. The former manager of the champion of champions, John L., has a license law scheme which he is going to have brought before the state legislature next session. His plan would make the license money state and not municipal funds. This, it is maintained, will have an influence on the up-state representatives, without whose support no license law will ever be a go.

It is estimated that at least \$100,000 per annum would thus be turned into the state treasury and could be applied to public improvements, such as highways, parks, etc. It is thought if the license law were once enacted in New York, and a success, that other states would follow suit.

For New York City a license of \$10,000 per club must be paid. This would restrict the metropolis to two or three first-class clubs with pugilistic pretensions and be a guaranty of clean sport. Smaller towns would have a lower license.

Any club conducting anything but first-class fights between evenly matched men and strictly on the square would have its license revoked. This looks all very well, but just what the sons of the Empire state will think of it when they next meet may be an entirely different matter.

By the repeal of the Horton law last September the fight game was tabled indefinitely. But even then it was not necessarily a dead one. With the law against it, it was up to the boxers and their backers to see that the ring lost none of its standing, but this seemed to be just what the fight-promoters seemed unwilling to do. So indiscriminate contests, smacking more or less of the fake, were permitted until things culminated in the Gans-McGovern ultra-fiasco at Chicago.

The anti-fight spirit that has recently asserted itself is no retrace to the legitimate contests where evenly matched men do battle on the square, but it is an everlasting repudiation of the knaves and takers who have been using the squared circle as a field of graft.

Thus far 1901 has been a mighty dry season for the chaps that make their living in the roped arena. The land of fightdom would have been a land of famine ere this but for the abundance of last year's harvest.

Fistians still have a fair amount of leftover victuals of previous feasts in its larder, but this cold lunch business is having a mighty depressing effect on its bravely sons. What the fight boys want is the hot bird and the cold bottle of public praise and approbation served on a platter of public gold.

Now we have it that Jeffries and Rublin once more have come to terms and that we may look for a big go out on the shores of the Pacific this fall. The terms are practically the same as those agreed on for their Cincinnati match that was not. The winner takes 75 per cent and the loser 25 per cent of the gate money, the contest to go to the club offering best financial inducements.

That this will be a harder mill than the previous Jeffries-Rublin fray there is no doubt, for Rublin has filled out with good heart-punching muscle and Champion Jim will have to prepare for probably the stiffest go thus far in his career.

That Jeffries will not fight until he is in fit condition is evident from the way in which he has been treating the talk of boisterous old Billy Madden. A champion heavyweight has entirely to much at stake to fight at the drop of the hat, besides Jim Jeffries is entirely too wise to take any long chances.

The fight chat down at Louisville seems to be largely a tropical product. Several bouts have been promised, but they all seem to have fallen through. Root and Louisville's wonder, Melvyn Hart, were to come together, but things broke loose on Root demanding clean sheet.

It seems to have been instigated that Root was trying to crawl out and claimed to be willing to meet Root at 100 pounds.

Now Root wants Hart to fix a match for 100 pounds, with a side bet of \$5,000, or such portion of it as he may be able to take, at Hart's own game, clean breaks not being demanded. Root and Hart would make a good fight and a lot of ring followers would like to see them get together.

Since "Young" Corbett of Denver succeeded in putting King Broad of Cleveland to sleep, his ambitions have taken on championship proportions, and while the thing is not yet a surety the chances are good of his meeting Terry McGovern at Buite in the early autumn.

CASE AFTER CASE

Plenty More Like This In Omaha.

Scores of Omaha people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

Mrs. Gusta Bohman, No. 1913 Oak street, says: "Doan's Kidney Pills are a good remedy. I took them for kidney trouble which started about seven years ago, caused by a cold settling in my back. I procured them from Kuhn & Co's drug store and they cured me."

INTERSTATE YACHTING MEET

St. Joseph Boat Will Be Pitted Against Speedy Andover of Omaha in Series of Races.

The most pretentious sailing race ever attempted on Manawa waters will occur the last of this week in a series of three out of five heats. The local honor is upheld by the Andover, a sleek seven-foot boat which has demonstrated pretty conclusively that it can walk away from anything at Manawa. The boat is the property of A. Dickinson and was brought south this spring from White Bear lake, Minnesota. At the northern lake the Andover captured all the honors and was admittedly the prize racing machine in those waters.

In eight consecutive races at Manawa the Andover has established a similar claim to prestige in this territory, although there were some speedy ones who crossed the line a creditable interval behind. The Andover is built on similar lines to the Milwaukee, the Lake Michigan favorite which competed for the honor of defending the Canadian cup. Its build is not for beauty and its long, square prow is suggestive of a barge. The lines are eloquent of speed and sail-carrying potentialities and when in action the boat has a business-like symmetry of its own.

Although it comes within the regulations of the seventeen-foot class, its long rectangular prow enables it to cover a water surface of twenty-eight feet when it keels over, thus giving it staunchness under a heavy sail. The boat will be manned in the races by A. Dickinson, Lou Clarke, James Wallace and C. Sadler.

The Missouri yacht is a New Haven racing catboat owned by Mr. Van Brunt. It is the best craft on Lake Contrary, and its owner longs for new worlds to conquer. The Omaha sailors look upon it as a formidable rival and believe that good sport will be forthcoming.

The races will be under the auspices of the Council Bluffs Rowing association, and will probably begin next Saturday. The regular triangular course will be adopted, which, going twice around, gives a distance of six miles. This course has been covered in about forty-two minutes, which is considered good time.

SUBTLETIES OF RUY LOPEZ

Study of Game Presented in Nebraska Game and in Contest Between East and West.

That crafty old archbishop, Ruy Lopez, doubtless had no idea that the opening which bears his name would give him greater fame than his preaching. All hands are agreed that black has a difficult game, but the question is, why? Why is the move 3B-Qkt a strong move? Is it strong per se, or by induction? That is, may not its strength lie in placing some restriction on black? The games given below afford the student an excellent opportunity to study this question.

The first game was played in the big match, East against West, C. H. Akerly, New York City, for the East, defeating Dr. Van Nys, Timn, O., in a Lopez of thirty-eight moves.

What It Means to Be "Educated."

Any man is educated who is so developed and trained that, drop him where you will in the world, he is able to master his circumstances and deal with the facts of life so as to build up in himself a noble manhood and be of service to those he meets about him. That is what education means; that is what it is for. Knowledge of foreign tongues, a list of historic facts concerning the past, information poured into a man's brain—these things are not education. There are learned fools!—Rev. Minot Savage.

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

FOOT BALL MEN GO INTO CAMP

Nebraska Players Adopt New Methods to Acquire Form.

BIG GAMES ON SCHEDULE THIS SEASON

Minnesota and Wisconsin Will Be the Principal Game Sought by Home Team—Most of Old Players Return.

Coach Booth and Captain Westover of the University of Nebraska foot ball team will take their gridiron aspirants for a three weeks' outing on the Platte river September 1. This early meeting will be primarily for the purpose of getting the men into shape for real foot ball by the time the university opens September 24. The squad will be composed of the men of last year's team and the leading members of the scrub aggregation who return to school this fall, besides several foot ball players from the high schools who will be members of this year's freshman class.

This early practice has many advantages, carried out with the right spirit, but the seal that takes men out for early practice has to be watched lest it develops professional or un scholarly tendencies in the whole athletic field. Many men that enter our western schools have the masking of first-class players in them, but they lack experience, and consequently when the season opens they are outclassed by inferior men with better knowledge of the game.

This early practice will give such men an opportunity to acquire the rudiments of the play before the season opens and will doubtless materially increase the number of available men for the team.

Last year Nebraska turned out a team of which the whole state was proud. Much credit is due to the loyal spirit of the student body, without which no college undertaking can be a success. For the splendid way in which the team developed and its gradual growth until it reached its climax for the Thanksgiving game, commendation is due to Coach Booth. Booth is every inch a university man, a gentleman and a thoroughbred athlete. Back in Tigris town he is remembered as one of the best line players that ever wore the black and gold.

Last year, from an almost demoralized beginning, he turned out one of the most systematic and effective foot ball aggregations that has ever played in the west. With last year's splendid start it is no wonder that the Antelope boys look for a championship season for 1901.

This year's schedule calls for stiffer games than were played in 1900. Both Minnesota and Wisconsin are booked for a trimmings, and the two will be equal to each other.

It is thought that the Antelope boys will have an opportunity to acquire the rudiments of the play before the season opens and will doubtless materially increase the number of available men for the team.
