With the departure of M. Constans the relations between France and Turkey may be regarded as broken off. Munir Bey, the Turkish ambassador to France, has been telegraphed not to return to Paris.

Sultan Wakes Up Too Late.

The correspondent of the Associated Press was informed today from the best source that the departure of M. Constans from Constantinople, in the circumstances, is tantamount to a partial rupture of Franco-Turkish relations. Munir Bey, who is in Switzerland, will be informed, as set forth in the semi-official note issued this morning, that the French government does not desire him to return to Paris. The current affairs of the two embassies can be carried on by the charge d'affaires, but all negotiations of a political nature will be entirely suspended until the sultan yields to the French demands. The French government holds that the sultan has broken his word. He had promised full payment of the long-standing indemnities to the Frenchmen, amounting to 12,000,000 francs, but at the end of last week declined to pay the full amount and offered a reduced sum, which was refused by M. Constans, who waited until yesterday and then departed. The sultan made a final attempt to induce him to stay. M. Constans had left on board the Vautour for Stamboul, where he was to take the Orient express. A court chamberlain arrived at Stamboul in post haste from the sultan, begging M. Constans to return to Therapia and promising that everything would be satisfactorily settled. Constans declined to return, declaring the time for promises was past and that it was for the suitan to fulfill his undertakings.

### It is the Sultan's Next Move.

The French government will take no further steps in the matter, but will wait for the sultan to move. It is thought the sultan will not allow the present situation to last very long

CONSTANTINOPLE, Aug. 27.-The following was the position of affairs immediately preceding the departure of the French Lack ambassador, M Constans: The Turkish government was showing a disposition to regard the French demands as settled by the irade relating to the guas and the Albanian land seizures. The French embassy,

in order to prevent a misunderstanding, wrote to Tewfik Pasha, the minister of foreign affaira, yesterday, that France, in addition, expected the aettlement of two other claims included in the demands made August 11 and that unless they were conceded before noon M. Constans would leave and Munir Bey, the Turkish ambassador to France, would receive his passports. Instead of yielding the Turkish government asked for twenty-four hours' delay and made alternative preparations which were so unacceptable that M. Constans did not reply to them.

During the absence from his post of M. Constant, the French ambassador to Turkey, who started yesterday for Paris, M. Bapst, councilor of the embassy, will act best means of obtaining possession as charge d'affaires.

The American Ornithologists' union, interested especially in the preservation of nongame lated societies, at which nearly 100 papers birds, has secured the enactment of a practically uniform law in eight states and the

the other candidates. The Republican league favored Omaha with its secretaryship, but the truth is that the league has petered out, and in all probabilities unless something happens to revive it, the present officers will be the last ones it will boast.

### Leaders of Party Present.

It is noteworthy that almost all the well known faces in republican politics are again to be seen here. One member of the legislature suggested that if a call were issued for a republican legislative caucus there will be no difficulty in having more than a majority present to make a quorum. When the committee fixed the apportionment for a convention of more than 1.300 delegates the apprehension was felt that a large part of
