Exposition at Home.

The United States building of the Pan-American exposition of Buffalo, 1901, is now on exhibition in the Boston store's show window. It is an architectural wonder, built like a fairy palace, from thousands of bars of Royal Cuticle soap, "the pride of the world toilet soap." As an artistic display it is a marvelous demonstration and well worth coming miles to see and will be the most remarkable soap bargain ever offered in America. Ever leading in furthering the interests of the people has won for our store much well-deserved popularity. Through our prominence in the west we have been elected and appointed as sole distributing agents for Council Bluffs and all towns within twenty-five miles of this city by the Royal Soap company of Cincinnati, O., whose soaps have been the standard of excellence for nearly a quarter of a century.

It is a wonderfully fine, dainty, medicated soap, soothing to the skin and beautifying to the complexion and is sold upon its merits exclusively. More than 5,000,000 families throughout the length and breadth of the land are using Royal Cuticle soap and will use no other. So much for the excellence of the soap.

The regular price for Royal Cuticle soap is 10 cents a cake, but for a limited time, acting as agents for the manufacturers, who desire to introduce the Royal Cuticle soap into every home, we have the special privilege to sell three cakes for 10 cents. This gives us power to save money in all persons. It is so good it can be no better, it is within the reach of all.

We reserve the right to limit the number of cakes we shall sell to any one customer. Come early before the rush commences. Sale ends Saturday morning at 9 a. m. BOSTON STORE, Council Bluffs.

DEMOCRATS MEET SECRETLY

Undecided Whether It Is Necessary to Hold Another Convention.

The meeting of democrats at the city council chamber last night was held behind closed doors and none but the faithful were admitted within the portals. Alderman Huber acted as outer guard and saw to it that reporters and others that tried to enter were not admitted.

The meeting was called by Chairman Brooks Reed of the democratic county central committee to take action on filling certain vacancies which have occurred in the district since the county convention. John Garner, who has declined the nomination for county treasurer, and John T. Mulgreen has no ambition to be a candidate for township trustee. It was announced that A. W. Wyman, candidate for state representative, had reconsidered his decision not to be a candi-

date and submitting to the wishes of his friends had consented to make the race.

The meeting was presided in as to whether the county central committee had the power to file nominations with the county auditor to fill the vacancies or whether it would be necessary to hold another convention and make the nominations for these offices over again. A committee was appointed to investigate and report to Chairman Reed. The doors were then unlocked and the meeting adjourned.

Old Poll Book Discovered.

City Clerk Phillips, while cleaning out a desk at 1 Cherry hall yesterday, discovered an interesting relic in the shape of the pollbook of the Third ward used in the city election, March 13, 1865, thirty-six years ago. The book is of peculiar interest to Mr. Phillips, as in that year his father, J. M. Phillips, was not only a candidate for mayor as well as an alderman from the Third ward, but the pollbook shows that he acted as one of the judges of election.

The book shows that sixty-seven votes were cast in the ward, of which N. S. Bates received thirty-four for Mayor, and J. M. Phillips 23. Bates was elected mayor. Phillips and Bates were both republicans. For alderman there were only fifty-three votes cast in the Third ward, of which Phillips received forty-nine, while D. C. Bloomer received two and J. T. Olin two. Mr. Phillips was accordingly elected alderman from that ward.

The pollbook is very different from the ones now used at elections and resembles a small account book, such as grocers and butchers supply their customers with. It is 7 1/2 inches long and 4 1/2 inches wide. One of the clerks of election whose signature is attached to the returns was Clinton Reed, who is now a prominent attorney in Denver, Colo. City Clerk Phillips intends to place the book among his family archives.

Innes-Shepard.

Miss Helen L. Shepard and Mr. R. V. Innes were married last evening at the home of the bride's parents, Mr. and Mrs. W. M. Shepard, 740 Myrtle street. The ceremony was performed by Rev. George Edward Walk, rector of St. Paul's Episcopal church, before a select gathering of the relatives and a few intimate friends of the bride and groom. Mr. and Mrs. Innes went to house-keeping at 162 South Fourth street. Mr. Innes is county auditor and his bride is a well known young society woman of this city.

Two Die in One Family.

Ina, aged 8, and Artie, aged 6 years, children of Mr. and Mrs. John Hegwood, 1320 South Seventh street, died this morning within an hour of one another, after an illness of two weeks, of diphtheria. The funeral of the two little ones was yesterday afternoon at 4 o'clock, from the residence and was private. Burial was in Fairview cemetery. Dr. Innes is the same family to ill with the same disease, but is believed to be recovering.

NEWTON, Ia., Aug. 28.—(Special.)—A meeting of the Newton Business Men's association was held to consider a proposition of eastern capitalists who propose to build an electric car line from Des Moines to Newton, and the proposition has met with much favor. A committee of three has been appointed from the organization to investigate personally the workings of lines from Cleveland and other eastern cities and the effect upon smaller towns and to report at a later meeting. The syndicate is attempting to secure a franchise and a 3 per cent tax from the towns along its proposed route. Colfax has already voted this tax and it is believed that the proposition will carry here if put to vote, two to one.

The other three heirs, with the widow, instituted proceedings to set aside the will, and by a stipulation made and approved by Judge Hutchinson today, the widow, Ann Jarrett Hathaway, received \$18,000, the other three heirs \$2,000 each, and the balance, estimated at \$55,000, goes to J. M. Hathaway. He was appointed administrator of the estate.

STATE FAIR IS A SUCCESS

Managers Are Pleased with Attendance and Exhibits, Considering Oro.

TWO DISTRICT JUDGES MAY RESIGN

Honored Political Complications Will Cause Them to Give Up Seats—Amish Colony to Settle in Des Moines County.

(From a Staff Correspondent.)

DES MOINES, Aug. 28.—(Special.)—The officers of the Agricultural department were well pleased with the success of the year's Iowa state fair, now in session and while they realize that the total attendance will not come up to the record made in some former years, yet, considering the state of agriculture in Iowa, the attendance will total more than they had expected. Up to tonight the receipts showed a slight falling off from last year, which was one of the best in the history of the state. The attendance Tuesday and today was but little less than last year. Entries have not been as numerous nor have as high prices been received from concessionaires. But the live stock exhibit is by far the best ever had and it is attracting a great many to the fair. The racing has been good each day and the incidental attractions and amusement features have far exceeded anything ever attempted. The managers realize that it would be necessary to resort to many expedients to maintain interest such a year as this and they report themselves well satisfied with their work.

The fair lasts two days more, Thursday usually being the most important day of the week. Thus far the large crowds have been handled into the city and out without accidents of any kind and there is no complaint of lack of accommodations.

Two May Resign.

There are rumors here that by reason of recent political complications two of the four district judges sitting in Des Moines will resign before the close of the year. Judge Charles W. Bishop, who is a candidate for nomination as supreme judge, is reported to have made arrangements to take up A. B. Cummins' law practice as soon as the latter becomes governor, and it is believed he will resign from the district bench before the campaign closes to date. Judge Frouth, who is a candidate for the republican congressional nomination next year and he is slated to resign from the bench in time to begin an active canvass for the position. Congressman Hull is to be home from the Philippines every week and he will engage in his political fences during the fall. None of the persons mentioned are in the city and these rumors could not be confirmed, but they are a matter of common knowledge among the lawyers.

Lumbermen to Raise Prices.

A meeting of the Lumbermen's association of Northern Missouri and Iowa was held here yesterday afternoon by a large number of lumbermen. It is proposed to call local meetings of lumber dealers at an early date to go over the local business. The lumbermen say that owing to the increase in prices of timber there must be a corresponding increase in the price of lumber. It is proposed to raise the retail dealers so that this can be done without creating any special comment.

Dies Running a Race.

Luther E. Anawalt of Wapello county, a young man of 21, died suddenly on Monday evening while running a footrace. He had been over to the house of a neighbor during the evening and had engaged in a race with four boys when someone proposed a footrace. Four boys started off briskly, but Anawalt had not gone over fifty yards when he threw his hands up in the air and fell dead. The cause has not yet been ascertained, but a blood vessel was a case of bursting a blood vessel. He was a much respected young man.

New Amish Colony in Iowa.

Agent for the Amish people of Illinois has been engaged the past week in buying land in Des Moines county for a new colony of the Amish sect in that part of the state. These people will come from Illinois, the direction being toward the town of Des Moines north of Burlington, and will take possession during the winter. They have paid over \$200,000 cash therefor, the lowest price paid being \$48 an acre, and the highest \$70 an acre.

Better Than Cold Storage.

Mrs. L. Murry, who owns a mineral well on West First street, near North, thinks she has in the water something better than a whole battery of cold storage boxes. The water is a good preservative of eggs. She says that on May 1, 1901, she put two fresh eggs in the water, keeping them there for four months. This water is known to have preserved eggs for a period of over a year. An effort may be made to locate an industry to take the place of a cold storage plant.

Violated Game Laws.

W. W. Waggoner, arrested last week on a warrant sworn to by State Game Warden Lincoln, pleaded guilty to a charge of violating game laws this morning and was fined \$100. Waggoner admitted having shipped forty quail to a Chicago commission house.

Davis sells paint.

Books, it is said, are spotted by being criss-crossed on convenient desks and stands. Valuable volumes should, therefore, be kept in racks. One of the best of literary tables is constructed of the shape of those used in Roman libraries. It is a table, sure enough, on top, but is provided with shelves beneath, shelves so arranged that when a book is put temporarily aside it need not be laid flat on its side, but stands upon its feet, so to speak, which is the only proper position for a book to be placed in. On top of this table there is another receptacle for books, a small revolving stand, which is designed to hold the small dictionaries, foreign language and other reference books. This is a case of fine simply polished hardwood and is especially adapted to the man's library. For reading desks of busy authors the most convenient book racks are of one useful and ornamental, though there is something newer and rather more decorative in the shape of a painted or engraved leather revolving stand, which, by its brass handle, can be moved about the room at will. The other two racks are of iron, the one in the arm of the new Morris reading chair, or it can be unhooked and folded perfectly flat for packing.

Present Importance of the Novel.

Every one loves a story, said Prof. Richard Burton in an address at Chautauque, and scholars are awakening to the fact that a novel is the modern novel. It is the dominant literary form of today; as it is proved by our public libraries and by publishers' sales. The novel is an all-covering tyrant that has choked the life out of the older literary forms. Some think it is the decadence of literature, but that is not my position. The modern novel is a great and potent power for good or evil, and it remains with us to make the good abiding and to exclude the evil.

BY THE SEA WAVES.

Movement of Troubled Waters a Fascinating Study.

Sea waves are caused by the flow of air over water, invisible waves being simultaneously created in the air, but the actual behavior of the sea waves is much complicated by the fact that they travel freely from the place where they are made without the aid of wind, moving under the action of gravity alone.
