NEW YORK STOCKS AND BONDS. Market Makes a Hather Striking Dem-

onstration of Strength.

NEW YORK, Aug. 39.—The stock market made rather a striking demonstration of strength today. The increasing disposition to buy stocks as the day progressed indicated that the demand to cover distanding contracts came largely from the bear party. There was, however, also a steady absorption of a number of prominent stocks which was difficult to explain on any other basis than as an accumulation, for what purpose not disclosed. The buying of this character was particularly obvious in the Eries. The buying here was very concentrated and was by brokers usually employed by the inside interests of the property. A single commission house took between 10,000 and 15,000 shares of this common and considerable speculative interest was seen, some of the buying of this stock coming from western sources. Union Pacific, St. Paul and Atchison showed the effect of the belated earnings for July, reported earlier in the week, and Canadian Pacific and St. Louis & San Francisco continued to move upward from the same cause. This was a general influence in holding the whole railroad list firm. The transactions and the movements in general were not conspicuous.

The Wabashes rose about a point each and Denver & Rio Grande preferred gained 2%, upon intimations of a coming favorable annual report. The strength of the Chicago Terminal transfer stocks was due to talk of absorption by the Chicago & Alton, American Tobacco advanced 3%, without explanation and Colorado Fuel 2. The New York, Chicago & St. Louis stocks rose 2%. onstration of Strength.

York, Chicago & St. Louis stocks rose 2@ 2%.

There war continued good absorption of sundry stocks during the last hour, notably the Eries, which went up from 1 to 1½. St. Paul, Atchison, the Wabashes, Amalgamated Copper and Tennessee Coal also rose about a point over last nigat. Northwestern dropped 4½. There were only slight recessions in prices on profit-taking by room traders. The closing was moderately active and firm.

The railroad bond market was very dull but firm. Total sales, par value, \$2,018,700. United States bonds were all unchanged on the last call.

The Commercial Advertiser's Londen financial cablegram says: American shares were strong throughout the session. There was professional support, but at the same time the best people bought big blocks of Erie, running the price up to 15%c, a new record, while there is a strong tip here that the stock will touch 60c. The report is that the road is to be the eastern seaboard outlet for a southwestern consoldated system. The general list closed at the top on New York support.

Futures opened steady, with prices unchanged to 7 points higher on light outside buying, the bulk of which represented over-night accumulations of winter order character. This demand was gratified by local longs, who were made bearish by the special Journal of Commerce monthly report on crop conditions, the latter showing 70.2, as against 77.2 by the government last month and as against general expectations of 67 or 68. Immediately after the call prices weakened 7 to 8 points under selling for both accounts and an uncrail expectations of \$6\$ or \$8\$. Immediately after the call prices weakened ? to 8 points under selling for both accounts and an unfavorable turn in the Liverpool market. Buying orders from the outside were few and far between, while room bulls were content to even up and rest on their orders over the three days adjournment. Trading was quiet all forenoon, with the market rather heavy and narrow. The cables were about as expected at the time we opened, though at one time Liverpool was excited and up 5 to 5 points on a scare of shorts.
