may have had an influence on these covering operations.

The day's movement of prices seemed largely due however, to maneuvers by contending professional operators, following yesterday's sharp break, which in itself was apparently a testing operation by the capitalists, who have supported the market for some time past. They seemed satisfied with their demonstration with the small amount of stock impending over the market for dislodgement, and their brokers were large buyers again today, especially of United States steel stocks, in which they were joined by the 'western contingent. These stocks did not move upward until there had been sharp advances in Colorado, Fuel and Tennessee Coal, based upon the assumption that their business was largely increased as a resuit of the enforced idleness of United States Steel corporation works.

Chicago Great Western continued strong, on rumors of buying for control in the interest of the western ratiroad community of interest and the recent large accumulation of Mexican National was unabated today. The strong tone permeated the whole market as the day progressed and the final hour showed many of the market leaders among the grangers, Pacifics, Southwesterns, coalers and specialities, from 1 to 3 points over last night's close level.

from 1 to 3 points over last night's close level.

Conditions in the money and exchange markets were practically unchanged. Call loans again touched 4 per cent and the absorption of funds by the subtreasury continued, amounting since Friday to \$2,332.-eee. Sterling exchange steadied this morning as a consequence of working off the accumulation exchange bills over the holiday. The Bank of England advanced its seiling price both for bar gold and American cagles, thus lowering the point to which sterling bills must fall before gold imports offer a profit. Sterling exchange weakened afresh in the forenoon, thus perhaps helping the rally in stocks.

The railroad bond market was dull and narrow. Total sales, par value, \$1,489,699. United States bonds were unchanged on the last call. the last call. st call. following are the closing prices on

CATTLE—There was considerable de-crease in the supply of cattle at this mar-ket as compared with yesterday, as the table of receipts given above will show. The

they sold fully as well as they did yester-day.

There were about twenty-five cars of cows and helfers in the yards this morning, and buyers took hold in good shape and pad good steady prices for practically an grades. Sellers found little difficulty in disposing of what they had, and the pens 74.

grades. Sellers found little difficulty in disposing of what they had, and the pens were about empty by the middle of the were about empty by the middle of the forenoon.

Bulls, calves and stags all sold in just about yesterday's notches.

Stockers and feeders of good quality were ready sellers today, and particularly was that true of the cattle showing weight as well as quality. The common suff was neglected, the same as usual, as the demand from the country for that case of stoff is very limited.

Western rangers, of course, made up the big end of the receipts today. Packers were all anxious for steers, and they paid fully steady prices for anything at all good. Cows were also in good demand and commanded steady prices. There was no change noticeable in the prices paid for bulls, calves and stags, and stockers and feeders could also be quoted tuny steady. ### Wool Market.

Wool Market.

BOSTON, Sept. 4.—The American Wool and Cotton Reporter will say tomorrow of the weal trade: It has been a broken week in the wool market, owing to the intervention of a holiday, nevertheless, wool has remained firm. The week's business a characterized by the selling of many large lines of wool, most of the purchasing having been dore by the medium or smaller-sized mills, which have taken medium-sized lots, mostly at going prices. The sales of wool are larger than for some time and the wool trade feels that there is going to be an outer for practically all the wool now on hand, that the desirable territorial clips, as well as those cas of the Mississippi, will be wanted and that a good, steady-going business may be looked for. The receipts of wool in Boston this week amounted to 5526 bales, against 6.34; bales last week. The total receipt since January 1 have been 670,654 bales of domestic and 102,554 bales of foreign. The sales of the week in Boston amounted to 3,955,600 lbs, domestic and 675,000 lbs, foreign, making a total of 4,640,000 lbs, against a total of 4,550,000 for the previous week. ### DOHERTY'S LIGHT HAS FADED Well Known Showman, Recently in Omaha, Passes Away in Kan-

ans City Hospital. When the barns at Krug park burned several weeks ago and reduced to ashes a number of trained dogs the light faded out of the life of Ed Doherty.

Doherty had spent years with his animal friends and his reason was unbalanced by their awful death. He tried to drown his orrow in drink and was finally taken to covered, but in a short time he became a raving maniae and was sent to relatives in Kansas City, Kan. His father tried to get him cared for in various hospitals and he was finally taken to Bedwell's asylum. There he was found by an old friend, who had him taken to University hospital.

Wednesday afternoon the showman died and his last words were of the favorite animals which he imagined somebody had killed intentionally. Doherty was a nember of the "White Rats," the famous society of vaudeville performers.
