Imported French Flannels

Many ladies' complain of flannels wearing rough, but these are cheap flannels with a pressed finish. Our imported French flannels give entire satisfaction because they have no nap to wear rough. The printing stays clear to the end. The quality is the best made. Don't be deceived by the sameness in styles—it's the quality that you should look for. Our imported French flannels are cheap at 75c, 85c and 90c per yard.

THOMPSON, BELDEN & Co.

Y. M. C. A. BUILDING, COR. 10TH AND DOUGLAS STS.

said, of discussing the proposition received from New York regarding a settlement of the strike. There were present President Shaffer, Secretary John Williams, Business Manager Benjamin J. Davis, Assistant Secretary M. P. Fitch and Trustee John Pierce.

Trustee Pierce, when seen during the morning, said that the officials could not agree to the proposition submitted by the corporation.

Expect Another Conference.

NEW YORK, Sept. 5.—The conference dealing with the proposed settlement of the steel strike was resumed this morning, but it was understood that there must be another meeting. Practically all of the men who participated in the conference yesterday were still in New York today, and it was stated that the labor leaders were again in communication with the officers of the Amalgamated association.

KANSAS SITUATION DARKER

Strike to Be Ordered with Privilege of Extreme Measures and Trouble is Expected.

PITTSBURG, Kan., Sept. 5.—The miners' strike in Kansas has taken a turn to night. The miners' national board has authorized the district board to use extreme measures if necessary to force the Big Four operators to terms.

State Labor Commissioner Johnson is here and has offered his services as arbitrator. The district board decided, however, that arbitration is not wanted for the present. All the companies are preparing for a strike. Sixty-kilodes are being built about the mines and others are being posted. There is bad feeling between union and nonunion men and serious trouble may ensue.

Guns Used at Carbonade.

EARLINGTON, Ky., Sept. 5.—The tipple of the Carbonade coal company was fired into early today, causing the situation to become more serious. The calling of the strike can hardly be avoided now, as failure to strike would, in the minds of the miners, mean the disorganization of the union. The companies have offered the men every concession, except recognition of the union.

COLUMBIA THE DEFENDER

trial spin today, but to unbind the main-sail and try another that has not been used. This was done during the afternoon and by sundown the yacht was all ready for an early start tomorrow morning.

Neither Mr. Jameson nor Mr. Watson cared to say anything about the selection of Columbia. Captain Sycamore seemed pleased.

Crew, Too, is Pleased.

St. Thomas Lipton entertained a number of visitors aboard Elin during the trip. Colonel Robert Thompson of the steam yacht Reveler, with his brother and Messrs. Curtis and Campbell of the New York Athletic club, Rev. William Thomas Lipton, assistant rector of Trinity Protestant Episcopal church of Newark, N. J., and H. A. Anderson of that city, were among those who took luncheon on board.

Executive Gives Buffalo Business Men a Few and is Himself Remembered with Bunches of Roses—His Speech.

BUFFALO, Sept. 5.—President's day at the Pan-American exposition ran its course under auspicious conditions and was attended with every circumstance in keeping with its high import. President McKinley, with Mrs. McKinley by his side and surrounded by eminent persons of high official rank in the service of this and foreign countries, faced a vast throng of people in the Esplanade at noon today and delivered an address that brought forth the thunderous applause of the multitude.

reids of consumption that we have but barely touched. Next in advantage to having the thing to sell is to have the convenience to carry it to the buyer. We must encourage our merchant marine. We must have more ships. They must be under the American flag, built and manned and owned by Americans. These will not only be profitable in a commercial sense; they will be messengers of peace and amity wherever they sail. We must build the isthmian canal which will unite the two oceans and give a straight line of water communication with the western coasts of Central and South America and Mexico. The construction of Pacific cable cannot be long postponed.

Who can tell the new thoughts that have been awakened in the ambitious mind of the high achievement that will be wrought through this exposition? Gentlemen, let us ever remember that our interest is in concord, not conflict, and that our real eminence rests in the victories of peace, not in the triumphs of war. We hope that all who are represented here may be moved to higher and nobler effort for their own and the world's good and out of this city may come not only greater commerce and trade for us all, but, more essential than these, friendship, which will deepen and endure.

President McKinley's speech was frequently interrupted with applause, his words referring to the establishment of reciprocal treaties with other countries, the building of the American people, the isthmian canal and a Pacific cable and his reference to the work of Blaine in developing the Pan-American idea being particularly enthusiastically cheered.
