Complaint was made by the librarian that the new electric lamps did not furnish suffclent light and the bill for the lighting for August was referred back to the committee on buildings.

The report of the finance committee showed that on September 1 the balance in the library fund was \$2,018.71. The report of the librarian for August

this year it will be printed in the next gave these statistics: Number of visitors, sixty days. The estimates show that the 4,585; registered book takers, 9,590; books taken, 3,668, as follows: Philosopy, 60; theology, 65; natural science and fine arts, the state levy slightly to meet this in-95: Setien, 2.802; poetry and essays, 146; history and biography, 321; travel, 275. This is a falling off in the number of visitors as needed in the levy. The estimate of the compared with the same time 'we year, when the number was 6,3%. The number of the sums needed to run the fourteen state registered book takers shows an increase of institutions under the Board of Control for 1.200, but the number of books taken falls below last year by 425.

Up to September 1 \$159.39 had been exended for rented books and \$150.06 received, leaving a balance due of \$9.33. This part of this is accounted for by the fact a considered a very good showing by the that the board expects to open the new hosbeard.

The number of books in the circulating tribution estimates are as follows-The number of books in the circulating library on September 1 was 18,180; in the government department, 5,477, making a total of 23,657. President Rohrer called attention to the fact that for the last two years he had been unable to secure the incorporation of the the secure the incorporation of the

This

unable to secure the incorporation of the library board report in the annual report published by the city council. The library board being a creature of the city council he believed that its report should be incorpo-rated with the other reports of the several city departments. As the library report is form the other trustees did not see the necessity of having it twice printed and the matter was left without action.
