packers and yard traders was in good 53-shape, so that the market ruled active and 47-steady to stronger on nearly all kinds of desirable grades. There were about twenty cars of cornfed 55-steers on sale today, and it was not long 51-bands. There was considerable competition for them and steady to stronger prices were paid, and some sales looked quite a little 55-higher. A bunch of fifty-five head weigh-ing 1.272 pounds, sold at 45-99, which is the price price of the suscent the date higher. A bunch of fifty-five head weigh-ing 1.272 pounds, sold at \$5.90, which is the highest price of the season to date. The cow market was well supplied this morning, about fifty cars being on sale. Packers took hold in good shape, however, and paid very near steady prices for the kinds they wanted. In some cases, thougn, 6 seliers thought they did not get quite steady prices, but still there were no very important changes in the prices paid. Most everything was disposed of in good season. Bulls, calves and stags sold at right around steady prices, where the quality was at all desirable. There were a good many stockers and feeders offered today, but anything good showing weight and flesh sold at good, strong prices. Choice yearlings also sold at about steady prices, while those weigh-ing around 500 pounds were neglected. Common stuff of all weights was very hard to dispose of at any price. Receipts included about twenty-five cars of western range steers, and the demand being in good shape, the better grades sold at steady to stronger prices. As high as \$4.90 was paid today, which is the top price of the season. Cows sold steady to a shade easier and feeders brought steady to a shade stronger prices. Representative sales: BEEF STEERS.
