

SEASON OF FOOT BALL OPENS

Nebraska Will Make Strong Bid to Enter Eastern Company.

WILL PLAY MINNESOTA AND WISCONSIN

If Favourable Showing is Made Against Northern Eleven the Cornhuskers Will Reach Out for Bigger Game.

Last Saturday marked the opening of the football season in a large majority of the colleges and universities of the country.

This is the great aspiration of the Nebraska fans. They took the first step in this direction when they met the Minnesota team last year.

This was done largely by the abandonment of light backs and ends, a team arrangement at one time absolute, but now fast fading out of popularity.

Showing with Minnesota. Undaunted by the prospect Nebraska came on the field. Pigmies they were before their opponents and outweighed nearly twenty pounds to a man.

This Nebraska started its wedge into the ranks of the topnotchers. Had the plainsmen won the game their position would have been unquestioned.

So now Bunny Booth's babes must vouch for their first effort. Thanking the day, they have secured games with both Wisconsin and Minnesota.

What a successful issue in these two great games would mean to the Nebraskaans can hardly be overestimated.

Change that! yelled O'Dea, and then he gave the signal for a drop kick at that goal. He missed and the Wisconsin chance to score was gone.

That is how Yale scored against Wisconsin. The signal was given and the Wisconsin line broke and the ball was kicked into the air.

Had it not been for those individual errors of judgment and play Wisconsin would have defeated Yale. In other respects the team exhibited superiority at several points.

All this merely goes to show how good western foot ball teams are really getting to be and how high Nebraska will stand when it can win a place on a par with some of them.

In only one way did the colleges as Harvard, Yale, Princeton and Pennsylvania now have an advantage. That is in the matter of graduate coaches.

CORNHUSKERS ARE AT WORK

University Foot Ball Players Begin Practice Season Usually Early.

FIFTEEN GO INTO THE TRAINING CAMP

Stringer is Back into the Game After an Absence of Two Years and Promises to Add Great Interest and Strength to Team.

Never were prospects so fair at the University of Nebraska for a superior foot ball team as they are this fall.

Just what the Nebraska collegians will make out of all these chances remains to be seen. One illustration of the warmth with which the spirit of victory glows in them this season may be found in the fact that the aspirants reported for training about three weeks earlier than usual.

Only fifteen men took the camp training course, but that is a good nucleus of candidates from which to choose a team, and everyone of those fifteen has gone back to Lincoln possessed of a great advantage over those who will now start in to try for places on the team.

But there are two more experienced men, Foreman and one who will probably be the star of this year's team, Clay Stringer, undoubtedly the greatest end that ever played in this part of the west.

Stringer is a Star. But there are two more experienced men, Foreman and one who will probably be the star of this year's team, Clay Stringer, undoubtedly the greatest end that ever played in this part of the west.

BADGERS MAY COME WEST

Wisconsin Expected in Omaha if Nebraska Makes Creditable Showing.

MADISON MEN PROMISE TO WIN PENNANT

Makeup of the Team This Early in the Season Indicates that November Game Will Be Most Ambitious in Nebraska's History.

Among all western teams that of the University of Wisconsin will attract this year by far the widest national attention and interest.

But there is still another reason why the eyes of eastern foot ball fanatics are well as western are focused upon the Badgers. It is the fact that for three years they have had teams of the highest grade and have only missed first place in the west by the narrow margin on each occasion.

Whatever may be your ailment, get help from one who has made such cases a special study. If your eyesight is falling go to a reliable optician or oculist.

These diseases and the weakness of men, and they alone, are my specialty. To them I have earnestly and exclusively devoted the best years of my life, during which time I have discovered and developed various forms of treatment which make their cure an unqualified and absolute certainty.

LINEUP OF JAYHAWKERS

Kansas University Promises to Have a Good Eleven in the Field.

At Kansas State university the foot ball outlook is fairly promising.

At Kansas State university the foot ball outlook is fairly promising. The entire system of athletics in the institution has been placed upon a very firm basis by the creation of the position of college athletic manager.

Among the worst losses sustained by the team is that of Captain Algie, the famous end of last season. He was well called "the terrible little Algie."

Among the new men from preparatory schools and elsewhere who have promised to play with Kansas this year is Clay Curtis, a fine tackle.

The Kansas schedule is a good one and a full one. Of the big games there are some with the state universities of Nebraska, Wisconsin, Texas, Tennessee and Missouri.

Minor games are signed with Washburn college, Kansas; the Kansas Normal school, Olathe, Kan.; Kansas College, Kirksville, Mo.; and Beloit college, Wisconsin.

A feature of the foot ball at Kansas university is the tremendous support it gets at home. No school its size in the west excels the enthusiasm found among the Jayhawkers.

The latest feature of the Wisconsin-Nebraska relations is, however, the proposition for a return game, which has been tentatively projected by Wisconsin.

Wisconsin may come west. The latest feature of the Wisconsin-Nebraska relations is, however, the proposition for a return game, which has been tentatively projected by Wisconsin.

TENNIS MATCH IS UNDECIDED

Young and Webster Each Have Two Sets When Difference of Opinion Arises as to Continuance.

Young and Webster Each Have Two Sets When Difference of Opinion Arises as to Continuance.

The outcome of the tennis finals in the Athletic association's championship tourney is now a matter for decision in the committee.

Young and Webster each have two sets when the match was referred to Hill, Bennett and Klump, acting as cup committee.

The match has been greatly delayed by rainy weather and the singles only came to the final round on last Thursday.

Webster, who has done a deal of quiet training on the Shriner courts within the last two years, blossomed out as a full fledged star and gave the veteran Young a hard race for first money.

In the first set the games stood four all when Webster made a strong rally and took the succeeding two.

Young then realized that the situation was not here as played with his best form. He had no difficulty in taking the next set 6-2.

At the conclusion of the fourth set it was 6-2 to Webster and the sun was on the point of dipping beneath the western prairie.

Young was of the opinion that the match should be postponed on the ground that the succeeding set would inevitably be interrupted by darkness.

Webster, however, believed that the match was developing into a test of endurance in which the odds rather lay with him.

He preferred to continue the play then or never and the situation was laid before the committee.

This week will be occupied by the contests in doubles, which are now well under way.

There are 107,000 Brotherhood railway brakemen.

At Toledo mail postmen who did not parade in the Germania parade at Harper, Mo., are the only one outside of Germany.

The introduction of Chinese restaurants in the city of St. Louis has caused the organized waiters of that city.

Potatoes form the world's greatest single crop. The United States produces 300,000,000 annually, equal in bulk to the entire wheat and corn crop.

Doctors Who Succeed - AND - Doctors Who Fail

The Doctor that succeeds is the one who possesses skill, ability and experience. The Doctor that fails is the one who does not possess these qualifications, but tries to imitate his predecessor.

Master Specialist

I do not treat all diseases, but cure all I treat. I treat men only, and cure them if I cure.

VARICOCELE Under our Electro-Medical treatment this insidious disease rapidly disappears. The pools of stagnant blood are driven from the dilated veins and all soreness and swelling quickly subside.

STRICTURE Our Electro-Medical treatment dissolves the stricture completely and restores the normal function of the urethra.

CONTAGIOUS BLOOD POISON Our special form of Electro-Medical treatment is the only one that cures this disease in practically the result of our life work.

NEURO-SEXUAL DEBILITY Men, many of you are now reaping the result of a long and painful struggle with this disease.

REFLEX DISEASES Cured to stay cured by our Electro-Medical treatment without the use of the knife, and without detention from business.

RUPTURE Cured to stay cured by our Electro-Medical treatment without the use of the knife, and without detention from business.

CORRESPONDENCE One personal visit is always preferred, but if you cannot call at our office, write your symptoms fully.

LEGAL CONTRACT Refuse, if you cannot call today, to sign any contract until you see our office.

CONSULTATION FREE. Office Hours—From 9 a. m. to 8 p. m. Sundays—10 a. m. to 1 p. m.
