council was held last night. Acting Mayer A. Adkins occupied the chair and all members were present. The only colud on the a couple of reports which had been agreed upon in committee and then the other memhera of the committee refused to vote as they had agreed. Johnston called the attention of the chair to this matter, but nothing came of it. One of the reports in question was on the approval by the council of the surety bond offered by Henry C. Murphy, vity prosecutor. Johnston, as chairman of the committee, recommended that the bond be not approved, for the reason that the city charter made no provision for such an office. The vote on the rejection of the bond was a ite and the motion was, therefore, declared lost, It was after this that Mr. Johnston told his actress who has not yet appeared in this fellow members on the committee what he city. There was another resolution regarding the immediate construction of permanent sidewalks. The city clerk will send out special Excursion Rates to San Frannotices to those in permanent districts to lay walks within twenty days or the city will do the work and assess the cost against the abutting property. Twenty-fourth street will be laid first and then the city contractor will turn his attention to the other districts recently created.

An effort was made by Johnston to settle the Louis Hutter claim for \$217, but Martin asserted that he could settle the same claim for \$100 and the council gave him the opportunity.

### Teamsters Complain.

Teamsters and pedestrians alike complain about the condition of Railroad avenue at For several weeks past the Union Pacific has been laying a third track from the city limits on the south to Omaha. Great piles of refuse building material litter the roadway and that portion of the tracks that pedestrians use when journeying to the stockyards. A request will be made of the company by city officials to at least clear the road to the east entrance to the stockyards, as it is pretty hard to get across the tracks without having the roadway impeded with building material.

### Lunch Wagons.

Property owners on Twenty-fourth street have complained to the city council about the lunch wagons which stand on the streets during the afternoon and evenings. Frank | \$1. AUDITORIUM

Enterprise will Take Place Next Week-More Contributions Are in Sight.

At the meeting of the board of directors of the Omaha Auditorium company Monday one of the objects of the directors as ex pressed at that time is to get a full votof the stockholders out next Tuesday. Many plans were discussed and in the discussion W. S. Wright remarked:

'Now, if we only had some politician on the beard we could get up a struggle between the members, which would so in terest the stockholders that they would come out to a man. Let it be noised about that a certain number of us purpose to de pose Mr. Sanborn as president, or go after some other man and we could get out a full vote. Can't this be done?"

In response to this remark Mr. Sanborn "I am deeply interested in the auditorium project. I have given several months to the work and would like to stay with the board of directors until the house is built and opened, but if there is really any desire on the part of any one to have me step out I will willingly lay down all official connection with the enterprise and work in the ranks. I will do all I can for the enterprise, regardless of any official position I may hold and will not object if I am no longer on the directory after the stockholders' meeting."

#### Committee Not Ready.

The committee in charge of the accounts of the musical festival committee requested further time for the consideration of a supplemental report filed by Chairman Hospe and the request, was granted.
