

YOUNG AS THEY USED TO BE

John W. Van Sant and Wife Have Been Married Seventy Years.

HAPPY CELEBRATION IS PLANNED

A. C. Van Sant of Omaha Goes to Le Claire, Ia., to Participate in Family Reunion—Story of a Busy and Interesting Career.

Seventy years ago tomorrow John W. Van Sant and Miss Lydia Anderson were married in the little Methodist church at Toms River, N. J. The groom was almost 22 and the bride was two years his junior.

An unusually long and happy life fell to the lot of this couple. Tomorrow sixty descendants of Mr. and Mrs. Van Sant will gather at the old homestead in Le Claire, Ia., to join in the celebration of their seventieth wedding anniversary.

A. C. Van Sant of Omaha, a son of the venerable couple, left today for Le Claire, where he will meet two brothers and two sisters. Forty grand children will be present at the anniversary.

For fifty-five years there was not a death in the family of Mr. and Mrs. Van Sant. Three years ago their son, Elias Van Sant, died and was the first adult member of the family to be called away.

The elder Van Sant is of Holland stock and is a son of Rev. Nicholas Van Sant, a Methodist preacher, who settled on the Delaware river above Philadelphia.

When a very young man John W. Van Sant learned shipbuilding. Six years after his marriage he removed to Rock Island, Ill., and was the pioneer boat builder along the upper Mississippi. He established a dry dock at Rock Island which was the first man to build fast boats.

The worthy nonagenarian attributes his good health to his temperate life. He has always been a very devout Christian and has led a life of sobriety. His wife has shared his good health and is vigorous and active.

Last winter Mr. Van Sant visited for several months with his son in Omaha. When spring made its advances and the weather reports indicated that the ice was moving in the Mississippi the veteran man would not remain in Omaha any longer.

RECRUITS ARE COMING IN

Cessation of Farm Work Brings Good Class of Men to the Army.

Colonel Spurgin, recruiting officer at Omaha, reports that the cessation of work on the farms at this time has resulted in a large number of persons offering themselves as recruits for the army.

The character of the recruit is improving materially and the men who now compose the soldiers of the regular army are of a high type. There is no room for the flake and the rough. They have left the farm and the field and are entering the army during the last week of two and a half months.

LEGALITY OF THE PLACE IN DOUBT

It is Asserted That in the New Charter There is No Provision for the City Prosecutor's Office.

Two or three attempts have been made lately by a certain faction in the city council to cause the removal of City Prosecutor Henry C. Murphy. While no specific charges were made it was intimated that the manner in which he conducted the affairs of his office was distasteful to some of the city officials.

One reason for asking Mr. Murphy to step down and out was that the new charter does not provide for the office of city prosecutor. However, he holds office by virtue of an ordinance passed by the council and was appointed by the mayor and confirmed by the council.

It is understood that City Attorney Lambert asserts that Mr. Murphy is of the legal cases, as all he does is to attend to prosecutions in the police court. Mr. Lambert would like to have an assistant city attorney named instead of a city prosecutor so as to relieve of some of the detail work of the legal department.

In reply to those who say that Murphy's appointment is not legal, certain members of the city council cite section 28 of the new charter, which reads as follows: "The mayor and council shall have the power to create any office or employ any agent they may deem necessary for the government and best interests of the city and to prescribe and regulate the duties, powers and compensation of all officers, agents and servants of the city."

The A. A. entertained in room 43 Friday afternoon. The afternoon session was shortened to give all an opportunity to attend. The large room was crowded. The program opened with a speech by Mr. Pearce on athletics. Mr. Waterhouse spoke on the development of athletics and its place in the school. Mr. Benedict told why one should participate in athletics. A recitation was given by Madge Mayall. Mr. Standeven introduced the members of the football team. Mr. Fairbrother closed with a cornet solo.

Mr. Benedict's biology classes enjoyed an excursion to Riverview Thursday afternoon. The classes started at 2 and returned home at 5:30 with many interesting specimens.

The first number of the High School Register was issued Friday. It is adorned with an appropriate cover drawn by Lester Hicks. In the center is a portrait of President McKinley, surrounded by guards. The paper promises to be excellent this year under the management of A. A. Kellekenny, editor, and A. W. Gordon, business manager.

Among those who will attend the University of Nebraska are: Lorraine Comstock, Mary Harris, Ray Dumont, Edith and Beale Dumont, Ruth Wilson, Herman Lehmer, Burdette Louis and Arthur Jaynes.

She was a prominent member of the Ladies' auxiliary of the Episcopal church. Her husband, who survives her, has been president of the Episcopal church since 1900. The funeral will be Tuesday afternoon at 2 o'clock in the Forest Lawn cemetery. A special service of the Ladies' auxiliary to Typographical union No. 190 will be held at the Labor Temple this afternoon at 7:30 o'clock, to arrange to attend the service.

PERSONAL PARAGRAPHS.

H. Gordon Badgerow of Sioux City is passing a few days in Omaha, guest of his brother. Word received from Ernest Werber, who for two years or more has been chief clerk to Major Niskern commissary in the Philippines, is to the effect that he will probably arrive in Omaha some time in November. He is a son of A. Werber, chief clerk of the Department of the Missouri.

MAJORITY OF DELAY IN RECEIPT OF SPECIFICATIONS FOR CHANGES ENGER TO ENCLOSE BEFORE WINTER.

The supervising architect and the contractors on the annex of the federal building are becoming anxious to receive the plans for the changes in that annex so that work can be pushed upon the construction. For several weeks a reduced force has been employed, pending the arrival of the plans. At this time this force can probably continue at work for thirty days, but the persons in charge of the work say that they can see a time shortly when work will be absolutely suspended unless the plans are received within a few days at the outside.

All because of delay in receipt of specifications for changes—Eager to Enclose Before Winter.

It is the intention of the contractor, if possible, to enclose the south wing before cold weather sets in, so that he can keep a force employed during the winter months completing the interior of that wing. If the plans are sent from Washington soon this can be done, but if not it may be that work will have to be suspended in all parts of the annex for the winter.
