Two from Each Omaha Ward, Two from South Omnha and Two from the Country to Do the Work.

The first contest to come before the new republican county committee, which met in SIXTH the county courtroom yesterday afternoon with nearly a full attendance, was over the method of selecting the executive committee. A proposition to have an executive committee of seven members, five from Omaha, one from South Omaha and one from the country, to be appointed by the chairman, came from the combination that controlled the late county convention, but it did not go through. Victor Rosewater offered a substitute which provided that the executive committee be composed of one representative from each Omaha ward, one from South Omaha and one from the country, to be named by the members from their respective districts. It was finally decided to have a committee of thirteen, one from each Omaha ward, two from South Omaha and two from the country, to be selected from the members from the respective districts by the chairman, the place of the Ninth ward to be taken by Chairman Goss.
