CHICAGO, Oct. 2.—General bearish condi-tions and a reversion of feeling among buil leaders depressed all markets today and December wheat closed ic lower, December corn 1/2c down and December cats 1/3c under yesterday. Provisions closed from 2/3c to 17/3c depressed.

corn 1/2c down and December oats 3/2c under yesterday. Provisions closed from 2/2c to 171/2c depressed.

There was a complete change of sentiment in the wheat pit from yesterday's closing builish activity. A considerable quantity of long wheat had been carried over-night in expectation of a continued rise today, but when there was no response in cables to the local buige every one seemed to want to let go of his holdings and a rapidly sagging market was the result. The usual bearish statistics were present again, with no improvement in the cable list, and December opened 3/6/2/4c to 1/4/2 lower at 69/2c to 2/2/4c. A sharp break of 1/4c resulted from liquidation during the first hour. Reports of a considerable increase in shipments had a recuperative effect, but this was short-lived and on a revival of selling by bears December declined to 0/1/4c. On covering near the end of the session December reacted slowly, but closed weak, it lower at 69/4/46/9/4c. Local receipts were 147 cars, none of contract grade. Minneapolis and Duluth reported 5/66 cars, making a total for the three points of 1/6/2 cars, against 918 last week and 7/9 a year ago. Primary receipts were 1/170,000 bushels. Senboard clearances in wheat and flour equalled 5/9,000 bushels. The seaboard reported 10 loads taken for export.

Corn ruled dull and weak. Bull leaders

wheat and flour equalled 959,000 bushels. The seaboard reported 10 loads taken for export.

Corn ruled dull and weak. Buil leaders of yesterday furned sellers today and acted as though they would let the market take its own course. Offerings from the country were freer and shipments fell off considerably. The weakness in provisions had a bearish effect, as did the decline in wheat. December opened a shade to %c lower on lower cables, sold between 55%, 256% and 56% and on a small reaction, due to shorts covering, closed weak, \cdot\(\frac{1}{2} \) clower at 56%. Receipts were 160 cars.

December oats had little trade in a narrow market. Prices opened lower in sympathy with other grains and declined on liberal country offerings and renewed selling by the northwest. The demand was limited almost to profit-taking by a few local shorts. December ranged between 35% and 35% and closed weak at the latter figure, \cdot\(\frac{1}{2} \) c under yesterday. Receipts were 112 cars.

Renewed outside liquidation and a weak hog market depressed provisions. There was a small local support on the early decline, but this soon fell off, and with but little cash demand January pork closed 17% down at \$14.97%. January jard 2½ lower at \$2.85.

Estimated receipts for tomorrow: Wheat,

at \$1.85. Estimated receipts for tomorrow: Wheat, 160 cars; corn, 180 cars; oats, 140 cars; hogs, 26.000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y.

WHISKY-On the basis of \$1.30 for finished goods. NEW YORK STOCKS AND BONDS. Donbt as to Future Prices Shown in

NEW YORK, Oct. 9.—The same doubt and hesitation regarding the future course of prices was reflected in today's stock market, as in yesterday's. Speculation was listless. Few active stocks show a net change of as much as a point, even where the day's range was considerable. The disposition was to close up contracts both on the long and short side until the future course of prices outlined itself more definitely. This tendency was demonstrated in the response of Brooklyn Transit and of Atchison to the specific developments affecting them. The annual report of Brooklyn Transit, which was published after the closing of the market last night, was interpreted unfavorably in all the current comment and especially in the disclosure that the treasury bonds had been sold during the year. The stock advanced and resisted an effort on the part of the professional traders to depress the price. The stock advanced at one time 25, showing the most complexous strength in the market.

The increase in the Atchison dividend rate, although confidently predicted in some duriers, had been denied with equal confidence in others. In fact the decision seems to have been discussed and finally declude in the meeting itself of the directors. The attempt to advance the stock on the announcement proved abortive. The advance over last night was less than a point and the net gain only 4. The doubt over the predicted advance was due to the fact of the shortage in the corn crop. Some of the other southwestern railroads were offered down sharply, as though to emphasize this statement. The estimate of the year's wheat crop by an agricultural periodical, placing it at a record figure and at 196,00,000 bushels for Kansas alone, was an opportune offset to this contention. The election of an additional Standard Oil representative to the Union Pacific board of directors was a verification of another buil prediction. But the buil party hesitated to take up the speculation for an advance, owing to the demand, demand steriling fairly touching \$4.86. This i Market.

has been for the account of Fennsylvania railway interests. The market closer irregular.

There was a sharp break in Wabash debenture bonds. The market was otherwise rather dull and irregular. Total sales, par value, \$2,840,000. United States bonds were all unchanged on the last call.

The Commercial Advertiser's London finencial cablegram says: The tone of the stock market was much improved today. The Afghan scare was over and the Boer news was better. The local lean issue, which was placed at \$8%, was a success. American stocks fluctuated on varying Atchison estimates on dividend prospects. This morning there was a sanguine feeling and at the close nervousness. The actual armouncement came out too late to affect the market. Norfolk & Western was buoyant on dividend anticipations and Wabash bonds were flat in a narrow market.

and prices looked a little higher than they were yesterday. As compared with the close of last week, when the upward tendency started, prices are now 15@25c higher. The improvement is general on all classes and is not confined to any one grade.

Bulls, calves and stags sold steady to strong today where the quality was at all desirable.

Good heavy feeders sold a little stronger today, if anything, as the demand was fully equal to the supply. There was not much change noticeable in the prices paid for the light and medium weights, but still they were fully as high as they were yesterday. Western beef steers were a little more plentiful today than yesterday, but the demand was active and the market ruled strong to a dime higher. Cows also sold a little better and were 15@25c higher than at the close of last week. As is noted above, for native feeders the heavyweights were strong and the other kinds about the rame as yesterday. Representative sales;

Commemorate the Big Fire.

CHICAGO, Oct. 9.—The anniversary of the great Chicago fire thirty years ago today will be commemorated at a hanquet given by the Marquette club at the Auditorium tonight. Departments of the city government, excepting the police, fire, health and electrical departments, were closed during the day, but the day, for the first time in years, was not generally observed. Speakers on the program for tonight's banquet are: Frederick E. Hopkins of Chicago, Congressman Charles B. Landis of Indiana, Major General Elwell S. Otis, commander of the Department of the Lakes: William Allen White of Kansas and Booker T. Washington of Alabama, William L. Busch, president of the Marquette club, will be toastmaster.

Brothers Make a Rich Find.

Brothers Make a Rich Pind.

TUCSON, Ariz., Oct. 9.—Charles R. and Porter W. Fleming of this place have arrived here from the Galluro mountains, where they report a remarkable gold discovery. The rich find is located seventy miles north of Tucson and the vein of ore, according to the Flemmings, is 200 feet wide and 6,000 feet in length. A canyon cuts through the vein for 200 feet, exposing the ore on either side the entire length of the cut. It is estimated the amount of gold in sight is worth over \$7,000,000. The Tucson Star of this place is authority for the statement that the story told by the Flemming brothers is authentic and that it has verified the facts as above given.

NEW ORLEANS, Oct. 2.—News of a holdup of a train on the Kansas City, Pittsburg
& Gulf, near Ashdown, Ark., has reached
the Wells Fargo officials here. The train
was northbound from Shreveport. The information comes in a dispatch to the express people, announcing the holdup, saying
the robbers did not get anything. The teegram said the valuables which the robbers
believed the express car carried had been
left in Shreveport to go out by the daylight
train. The gang that held up the train is
believed to be the same one that operated
against the Cotton Belt some time ago.

SHEEP—The supply of sheep in sight today was not excessive, so the market had
a chance to improve a little. Packers
started in and bought quite freely and the
prices paid looked strong to a dime higher
than those in force yesterday. It was not
long before everything desirable was disposed of. The advance was general on
both sheep and lambs and as compared
with the close of last week the market is
right close to 20c higher.

The demand for feeders continued brisk
teday and as the offerings were limited
prices held fully steady.

MIDDLESBORO, Ky., Oct. 2.—An unconfirmed report is current here that another battle took place yesterday near. Big Springs, Va., between the Morgan-Chadwell feudists, resulting in the death of Tom Chadwell and one of the Morgans. Doo Chadwell of this city, a brother of Tom Chadwell, discredits the report. He returned from Big Springs last night, where he had been to investigate the battle of last Sunday, when six were killed, and says that all was quiet when he left there Monday night, but further trouble was feared.
